CALL FOR MANUSCRIPTS

We invite unpublished novel, original, empirical and high quality research work pertaining to recent developments & practices in the area of Computer, Business, Finance, Marketing, Human Resource Management, General Management, Banking, Education, Insurance, Corporate Governance and emerging paradigms in allied subjects like Accounting Education; Accounting Information Systems; Accounting Theory & Practice; Auditing; Behavioral Accounting; Behavioral Economics; Corporate Finance; Cost Accounting; Econometrics; Economic Development; Economic History; Financial Institutions & Markets; Financial Services; Fiscal Policy; Government & Non Profit Accounting; Industrial Organization; International Economics & Trade; International Finance; Macro Economics; Micro Economics; Monetary Policy; Portfolio & Security Analysis; Public Policy Economics; Real Estate; Regional Economics; Tax Accounting; Advertising & Promotion Management; Business Education; Management Information Systems (MIS); Business Law, Public Responsibility & Ethics; Communication; Direct Marketing; E-Commerce; Global Business; Health Care Administration; Labor Relations & Human Resource Management; Marketing Research; Marketing Theory & Applications; Non-Profit Organizations; Office Administration/Management; Operations Research/Statistics; Organizational Behavior & Theory; Organizational Development; Production/Operations; Public Administration; Purchasing/Materials Management; Retailing; Sales/Selling; Services; Small Business Entrepreneurship; Strategic Management Policy; Technology/Innovation; Tourism, Hospitality & Leisure; Transportation/Physical Distribution; Algorithms; Artificial Intelligence; Compilers & Translation; Computer Aided Design (CAD); Computer Aided Manufacturing; Computer Graphics; Computer Organization & Architecture; Database Structures & Systems; Digital Logic; Discrete Structures; Internet; Management Information Systems; Modeling & Simulation; Multimedia; Neural Systems/Neural Networks; Numerical Analysis/Scientific Computing; Object Oriented Programming; Operating Systems; Programming Languages; Robotics; Symbolic & Formal Logic and Web Design. The above mentioned tracks are only indicative, and not exhaustive.

Anybody can submit the soft copy of his/her manuscript **anytime** in M.S. Word format after preparing the same as per our submission guidelines duly available on our website under the heading guidelines for submission, at the email address: infoijrcm@gmail.com.

GUIDELINES FOR SUBMISSION OF MANUSCRIPT

1. **COVERING LETTER FOR SUBMISSION:**

DATED: _____

THE EDITOR
IJRCM

Subject: SUBMISSION OF MANUSCRIPT IN THE AREA OF

(e.g. Finance/Marketing/HRM/General Management/Economics/Psychology/Law/Computer/IT/Engineering/Mathematics/other, please specify)

DEAR SIR/MADAM

Please find my submission of manuscript entitled ' _____ ' for possible publication in your journals.

I hereby affirm that the contents of this manuscript are original. Furthermore, it has neither been published elsewhere in any language fully or partly, nor is it under review for publication elsewhere.

I affirm that all the author (s) have seen and agreed to the submitted version of the manuscript and their inclusion of name (s) as co-author (s).

Also, if my/our manuscript is accepted, I/We agree to comply with the formalities as given on the website of the journal & you are free to publish our contribution in any of your journals.

NAME OF CORRESPONDING AUTHOR:

Designation:

Affiliation with full address, contact numbers & Pin Code:

Residential address with Pin Code:

Mobile Number (s):

Landline Number (s):

E-mail Address:

Alternate E-mail Address:

NOTES:

- a) The whole manuscript is required to be in **ONE MS WORD FILE** only (pdf. version is liable to be rejected without any consideration), which will start from the covering letter, inside the manuscript.
- b) The sender is required to mention the following in the **SUBJECT COLUMN** of the mail:
New Manuscript for Review in the area of (Finance/Marketing/HRM/General Management/Economics/Psychology/Law/Computer/IT/Engineering/Mathematics/other, please specify)
- c) There is no need to give any text in the body of mail, except the cases where the author wishes to give any specific message w.r.t. to the manuscript.
- d) The total size of the file containing the manuscript is required to be below **500 KB**.
- e) Abstract alone will not be considered for review, and the author is required to submit the complete manuscript in the first instance.
- f) The journal gives acknowledgement w.r.t. the receipt of every email and in case of non-receipt of acknowledgment from the journal, w.r.t. the submission of manuscript, within two days of submission, the corresponding author is required to demand for the same by sending separate mail to the journal.

2. **MANUSCRIPT TITLE:** The title of the paper should be in a 12 point Calibri Font. It should be bold typed, centered and fully capitalised.

3. **AUTHOR NAME (S) & AFFILIATIONS:** The author (s) **full name, designation, affiliation (s), address, mobile/landline numbers, and email/alternate email address** should be in italic & 11-point Calibri Font. It must be centered underneath the title.

4. **ABSTRACT:** Abstract should be in fully italicized text, not exceeding 250 words. The abstract must be informative and explain the background, aims, methods, results & conclusion in a single para. Abbreviations must be mentioned in full.

5. **KEYWORDS:** Abstract must be followed by a list of keywords, subject to the maximum of five. These should be arranged in alphabetic order separated by commas and full stops at the end.
6. **MANUSCRIPT:** Manuscript must be in **BRITISH ENGLISH** prepared on a standard A4 size **PORTRAIT SETTING PAPER**. It must be prepared on a single space and single column with 1" margin set for top, bottom, left and right. It should be typed in 8 point Calibri Font with page numbers at the bottom and centre of every page. It should be free from grammatical, spelling and punctuation errors and must be thoroughly edited.
7. **HEADINGS:** All the headings should be in a 10 point Calibri Font. These must be bold-faced, aligned left and fully capitalised. Leave a blank line before each heading.
8. **SUB-HEADINGS:** All the sub-headings should be in a 8 point Calibri Font. These must be bold-faced, aligned left and fully capitalised.
9. **MAIN TEXT:** The main text should follow the following sequence:

INTRODUCTION**REVIEW OF LITERATURE****NEED/IMPORTANCE OF THE STUDY****STATEMENT OF THE PROBLEM****OBJECTIVES****HYPOTHESES****RESEARCH METHODOLOGY****RESULTS & DISCUSSION****FINDINGS****RECOMMENDATIONS/SUGGESTIONS****CONCLUSIONS****SCOPE FOR FURTHER RESEARCH****ACKNOWLEDGMENTS****REFERENCES****APPENDIX/ANNEXURE**

It should be in a 8 point Calibri Font, single spaced and justified. The manuscript should preferably not exceed **5000 WORDS**.

10. **FIGURES & TABLES:** These should be simple, crystal clear, centered, separately numbered & self explained, and **titles must be above the table/figure. Sources of data should be mentioned below the table/figure.** It should be ensured that the tables/figures are referred to from the main text.
11. **EQUATIONS:** These should be consecutively numbered in parentheses, horizontally centered with equation number placed at the right.
12. **REFERENCES:** The list of all references should be alphabetically arranged. The author (s) should mention only the actually utilised references in the preparation of manuscript and they are supposed to follow **Harvard Style of Referencing**. The author (s) are supposed to follow the references as per the following:
 - All works cited in the text (including sources for tables and figures) should be listed alphabetically.
 - Use (ed.) for one editor, and (ed.s) for multiple editors.
 - When listing two or more works by one author, use --- (20xx), such as after Kohl (1997), use --- (2001), etc, in chronologically ascending order.
 - Indicate (opening and closing) page numbers for articles in journals and for chapters in books.
 - The title of books and journals should be in italics. Double quotation marks are used for titles of journal articles, book chapters, dissertations, reports, working papers, unpublished material, etc.
 - For titles in a language other than English, provide an English translation in parentheses.
 - The location of endnotes within the text should be indicated by superscript numbers.

PLEASE USE THE FOLLOWING FOR STYLE AND PUNCTUATION IN REFERENCES:**BOOKS**

ABSTRACT

Retailing is the largest private industry in India and second largest employer after agriculture. The sector contributes to around 10 per cent of GDP and 6-7 per cent of employment. With over 15 million retail outlets, India has the highest retail outlet density in the world. This sector witnessed significant development in the past 10 years – from small unorganized family-owned retail formats to organized retailing. Liberalization of the economy, rise in per capita income and growing consumerism have encourage larger business houses and manufactures to set up retail formats; real estate companies and venture capitalist are investing in retail infrastructure. Many foreign retailers have also entered the market through different routes such as wholesale cash-and-carry, local manufacturing, franchising, test marketing, etc. With the growth in organized retailing, unorganized retailers are fast changing their business models and implementing new technologies and modern accounting practices to face competition. Productivity and efficiency in retail operations lowers price level and reduce distortions in the price structure. Through backward and forward linkage, performance of retailing services affects the performance of interlinked sectors such as tourism, recreational and cultural services, manufacturing of consumers goods agro-good producing industries etc. The present study is undertaken to understand the customer preference and satisfaction towards retail stores in Coimbatore city. Descriptive study was carried out by using a questionnaire and the collected data were analyzed by using Average rank, ANOVA and Chi square test.

KEYWORDS

Customer preferences, retail stores.

INTRODUCTION

Retail store is a large departmental retail establishment offering a relatively broad and complete stock of dry groceries, fresh meat, perishable products and dairy products supplemented by a variety of convenience, non food merchandise and operated primarily on a self-service basis.

A retail store format is more prevalent among all modern retail formats in India. These are neighborhood stores offering home and personal care products and food products that a typical household consumers on a day-to-day basis. These stores are often part of a chain that owns or controls (sometimes by franchise) other retail stores locates in the same or other towns attaining the economies of scale. These stores offer convenience of shopping by making available a large variety of products at one place. Retail stores usually offer products at Low Prices by reducing margins. Certain products (typically staples such as bread, milk, and sugar) are often sold as loss leaders that are with negative margins. To maintain a profit, retail stores attempt to make up for the low margins with a high overall volume of sales and with sales of higher-margin items.

Retail store shopping is often categorized as a self-service retail environment. For retail store retailers wanted to build relationships with their customers, being able to track their levels of 'satisfaction' with the key elements of the retail store environment is extremely important. From the retailer's perspective the aim is to minimize the reasons for complaints and dissatisfaction and the cost of a service recovery plan whilst establishing a track of direct feedback from customers about their reactions to those key elements. Satisfaction is a consumer's post-purchase evaluation of the overall service experience. It is an affective reaction in which the consumer's needs, desires and expectations during the course of the service experience have been met or exceeded. Satisfaction in this sense could mean that a retail store has just barely met the customer's expectations, not exceeded nor disappointed those expectations. The benefits of taking the customer's response beyond satisfaction at this level by exceeding expectations, is a competitive strategy many retailers aspire to achieve. Customer satisfaction now represents a central strategic focus for customer-oriented firms across diverse industries.

RETAIL STORES: THE REDEFIND WAY OF BUSINESS AND CUSTOMERS

Competition has raised the bar for retail store retailers. Perhaps some have simply lost sight of what the customers needed and wanted. Regardless, today's customers have less time, and are more intelligent, than ever before. Retail store retailers will continue to face increasing survival pressures. Consolidation in the market space will continue to affect existing retail store chains, both large and small. The top-tier retail store chains that have increased the size of their store base through recent acquisitions are struggling to absorb what they have bought while trying to defend market share against the low-cost operators. Those chains remain standing will be the ones that learn how to reinvent themselves. Successful retail store chains will become experts at targeting specific consumer segments. Some are proving that being willing to target and settle for a smaller piece of the pie can be a winning formula. This becomes an iterative process that takes time, effort, resources, and perhaps most the most difficult thing of all a change in culture. Each retailer must search for its own winning formula to compete. To succeed, retail store retailers must take advantage of new innovations, to create customer experiences that deliver true differentiation. Technology will play a major role in enabling these new innovations.

STATEMENT OF THE PROBLEM

At present the customers are more dynamic. The factors like high price, after sales services, poor reply enquiry and poor quality of products are highly dissolved their decision. The customer has certain expectation from branded items of its quality, price and services. Further, the retailers are faced various troubles in their retail marketing for finding the customer perception. At this juncture, the research is a need to find out the customer perception about the retail store in Coimbatore city.

Present world of rapidly changing technology, consumer's taste and preference are also characterized by fast changes. To meet this changing environment and to satisfy the consumer needs the retail store came in to existence.

Consumer needs are consistently changing; therefore retail store has to be constantly modernized. In the light of these developments, it seems to focus the study of consumer satisfaction towards retail store. In this process the following questions are arise:

1) What is the opinion and usage of Retail store?

- 2) What are the factors preferred by consumers when selecting a retail store?
- 3) What is the level of consumer satisfaction?

OBJECTIVES OF THE STUDY

- ❖ To study the demographic profile of the respondents.
- ❖ To study the customer awareness and preference towards retail stores.
- ❖ To analyze the factors those determine customer's perception towards retail stores
- ❖ To study the satisfaction level of the respondents towards retail stores.
- ❖ To offer Findings, Suggestions and Conclusion

HYPOTHESIS

- 1) There is no significant relationship between monthly income and average amount spent on purchase.
- 2) There is no significant relationship between monthly income and mode of payment
- 3) There is no significant relationship between type of family and frequency of purchase.
- 4) There is no significant relationship between age of respondents and media of awareness.
- 5) There is no significant relationship between family size and average amount spent on purchase.

RESEARCH METHODOLOGY

The following methodology is used in this study

(I) AREA OF THE STUDY

The survey was conducted in Coimbatore city in Tamil Nadu state. Coimbatore is the second largest district in Tamil Nadu. The Coimbatore city is known for its entrepreneurship of its residents. The researcher has considered the leading Retail Stores like Reliance Fresh, More., Nilgiri's, Shri Kannan Departmental (P) Ltd, Big Bazaar for the study.

(II) SOURCES OF DATA

The study has used both the primary data and secondary data. Field survey method was employed to collect primary data from 250 respondents through a well framed questionnaire. Secondary data were collected through various journals, magazines, reports and newspapers.

(III) SAMPLING DESIGN

For the purpose of the study 250 respondents have been chosen in Coimbatore city by using convenience sampling a questionnaire was prepared and administered in person to all the respondents. The information collected have been edited for reliability and consistency and presented in a master table for analysis.

(IV) TOOLS FOR ANALYSIS

In this study the raw data collected are classified, edited and tabulated for analysis. The following were the some of the tools used. They are:

1. Simple Ranking
2. ANOVA
3. Chi-Square Test

SCOPE OF THE STUDY

The present study titled as "Customer Preference And Satisfaction Towards Selected Retail Stores In Coimbatore City" aims to probe in to the satisfaction derived by the consumers for the use of retail stores and because of the perception and preference towards the retail stores and their level of satisfaction on the various facilities provided by the retail stores.

The preference and satisfaction of the consumers on retail stores may be influenced by many factors. Therefore, the modern marketing managers have to understand what their organization actually means to the people and they have to find ways of deriving the ideal determinants for the retail stores.

The consumer's preference and the level of satisfaction on the various facilities provided by the retail stores are enumerated in the study.

TABLE NO – 1: RANKING FOR PREFERENCE OF THE RETAIL STORES

| Preference | No. of Respondents | Percentage | Rank |
|----------------------------|--------------------|------------|------|
| Convenient Location | 45 | 18.0 | II |
| Cheaper Prize | 20 | 8.0 | VII |
| Attractive Offers/ Schemes | 27 | 10.8 | VI |
| Better Quality | 34 | 13.6 | IV |
| Wider Product Variety | 52 | 20.8 | I |
| Better Availability | 31 | 12.4 | V |
| Better Service | 41 | 16.4 | III |
| Total | 250 | 100.0 | |

Source: Primary Data

INTERPRETATION

From the above table clear that, out of 250 respondents, majority of the respondents have given First Rank to Wider Product Variety, Second Rank to Convenient Location, Third Rank to Better Service, Fourth Rank to Better Quality, Fifth Rank to Better Availability, Sixth Rank to Attractive Offers/Schemes and Seventh Rank to Cheaper Prize.

TABLE NO – 2: RANKING FOR PREFERENCE OF PRODUCT CATEGORY

| Name of the Products | No. of Respondents | Percentage | Rank |
|------------------------|--------------------|------------|------|
| Groceries | 55 | 22 | II |
| Bakery Products | 46 | 18.4 | III |
| Fruits & Vegetables | 63 | 25.2 | I |
| Processed foods | 15 | 6.0 | VI |
| Personal care Products | 42 | 16.8 | IV |
| Other Non-Food items | 29 | 11.6 | V |
| Total | 250 | 100.0 | |

Source: Primary Data

INTERPRETATION

From the above table its clear that, out of 250 respondents, majority of the respondents have given First Rank of preference to Fruits & Vegetables, Second Rank of preference is Groceries, Third Rank of preference is Bakery Products, Fourth Rank of preference is Personal care Products, Fifth Rank of preference is Other Non-Food items, and Sixth Rank of preference is processed foods.

TABLE NO – 3: RANKING FOR PREFERENCE OF THE RETAIL STORES

| Name of the Retail Store | No. of Respondents | Percentage | Rank |
|---|--------------------|--------------|------|
| Reliance Fresh | 56 | 22.4 | II |
| More | 58 | 23.2 | I |
| Nilgiri's | 44 | 17.6 | IV |
| Shri Kannan Departmental Stores (P) Ltd | 50 | 20.0 | III |
| Big Bazaar | 42 | 16.8 | V |
| Total | 250 | 100.0 | |

Source: Primary Data

INTERPRETATION

From the above table clear that, out of 250 respondents, majority of the respondents have given First Rank to More, Second Rank to Reliance Fresh, Third Rank to Shri Kannan Departmental Stores (P) Ltd, Fourth Rank to Nilgiri's, Fifth Rank to Big Bazaar.

ANOVA

TABLE NO – 4: SHOWING THE RELATIONSHIP BETWEEN SEX AND THE OVERALL FACTORS RELATING TO CUSTOMER OPINION

| Sex | Highly Satisfied | Satisfied | Neutral | Total |
|--------------|------------------|----------------|-----------|------------|
| Male | 26(32.0%) | 34(41.9%) | 21(25.9%) | 81 |
| Female | 54(31.9%) | 71(42%) | 44(26%) | 169 |
| Total | 80 | 105 | 65 | 250 |

Source: Primary Data

INTERPRETATION

The calculation of Analysis of Variance is worked on considering the relationship between the gender and the satisfaction level of respondents towards the services of retail stores. The calculation is concluded by accepting the Null hypothesis revealing that there is no significant relationship between gender and satisfaction level.

TABLE NO – 5: SHOWING THE RELATIONSHIP BETWEEN AGE GROUP AND THE OVERALL FACTORS RELATING TO CUSTOMER OPINION

| Age Group | Highly Satisfied | Satisfied | Neutral | Total |
|----------------|------------------|------------------|-----------|------------|
| Below 25 years | 18(32.7%) | 21(38.1%) | 16(29.0%) | 55 |
| 26 – 35 years | 49(31.8%) | 58(37.6%) | 47(30.5%) | 154 |
| 36 – 45 years | 9(32.1%) | 11(39.2%) | 8(28.5%) | 28 |
| Above 46 years | 4(30.7%) | 5(38.4%) | 4(30.7%) | 13 |
| Total | 80 | 95 | 75 | 250 |

Source: Primary Data

INTERPRETATION

The calculation of Analysis of Variance is worked on considering the relationship between the age and the satisfaction level of respondents towards the services of retail stores. The calculation is concluded by accepting the Null hypothesis revealing that there is no significant relationship between age and satisfaction level.

TABLE NO – 6: CHI – SQUARE ANALYSIS FOR MONTHLY INCOME AND AVERAGE AMOUNT SPENT ON PURCHASE

NULL HYPOTHESIS

There is no significant relationship between monthly income and average amount spent on purchase.

ALTERNATIVE HYPOTHESIS

There is a significant relationship between monthly income and average amount spent on purchase.

| Calculated Chi-Square Value | Degree of Freedom | Table Value | Conclusion |
|-----------------------------|-------------------|---------------|-----------------|
| 31.677 | 9 | 16.919 | Rejected |

The above table reveals that the Calculated Chi-square value (31.677) is greater than the table value (16.919). Hence the Null hypothesis is rejected at 5% level of significance. So there exists significant relationship between monthly income and average amount spent on purchase.

TABLE NO –7: CHI – SQUARE ANALYSIS FOR MONTHLY INCOME AND MODE OF PAYMENT

NULL HYPOTHESIS

There is no significant relationship between monthly income and mode of payment.

ALTERNATIVE HYPOTHESIS

There is a significant relationship between monthly income and mode of payment.

| Calculated Chi-Square Value | Degree of Freedom | Table Value | Conclusion |
|-----------------------------|-------------------|---------------|-----------------|
| 171.619 | 9 | 16.919 | Rejected |

The above table reveals that the Calculated Chi-square value (171.619) is more than the table value (16.919). Hence the Null hypothesis is rejected at 5% level of significance. So there exists significant relationship between monthly income and Mode of payment.

TABLE NO – 8: CHI – SQUARE ANALYSIS FOR TYPE OF FAMILY AND FREQUENCY OF PURCHASE

NULL HYPOTHESIS

There is no significant relationship between type of family and frequency of purchase.

ALTERNATIVE HYPOTHESIS

There is a significant relationship between type of family and frequency of purchase.

| Calculated Chi-Square Value | Degree of Freedom | Table Value | Conclusion |
|-----------------------------|-------------------|---------------|-----------------|
| 46.239 | 5 | 11.070 | Rejected |

The above table reveals that the Calculated Chi-square value (46.239) is more than the table value (11.070). Hence the Null hypothesis is rejected at 5% level of significance. So there exists significant relationship between type of family and frequency of purchase.

TABLE NO – 9: CHI – SQUARE ANALYSIS FOR AGE OF RESPONDENTS AND MEDIA OF AWARENESS

NULL HYPOTHESIS

There is no significant relationship between age of respondents and media of awareness.

ALTERNATIVE HYPOTHESIS

There is a significant relationship between age of respondents and media of awareness.

| Calculated Chi-Square Value | Degree of Freedom | Table Value | Conclusion |
|-----------------------------|-------------------|-------------|------------|
| 50.659 | 9 | 16.91 | Rejected |

The above table reveals that the Calculated Chi-square value (50.659) is more than the table value (16.919). Hence the Null hypothesis is rejected at 5% level of significance. So there exists significant relationship between age of respondents and media of awareness

TABLE NO – 10: CHI – SQUARE ANALYSIS FOR FAMILY SIZE AND AVERAGE AMOUNT SPENT ON PURCHASE

NULL HYPOTHESIS

There is no significant relationship between family size and average amount spent on purchase.

ALTERNATIVE HYPOTHESIS

There is a significant relationship between family size and average amount spent on purchase.

| Calculated Chi-Square Value | Degree of Freedom | Table Value | Conclusion |
|-----------------------------|-------------------|-------------|------------|
| 22.944 | 9 | 16.919 | Rejected |

The above table reveals that the Calculated Chi-square value (22.944) is more than the table value (16.919). Hence the Null hypothesis is rejected at 5% level of significance. So there exists significant relationship between family size and average amount spent on purchase.

FINDINGS

1. Majority of respondents ranked to prefer for Wider Product Variety in Retail Stores.
2. Majority of respondents ranked to prefer for the product of Fruits and Vegetables.
3. Majority of respondents ranked to prefer for the Retail Store of More.
4. There is no significant relationship between sex and satisfaction level of customers.
5. There is no significant relationship between age group and satisfaction level of customers.
6. There is no significant relationship between monthly income and average amount spent on purchase.
7. There is no significant relationship between monthly income and mode of payment
8. There is no significant relationship between type of family and frequency of purchase.
9. There is no significant relationship between age of respondents and media of awareness.
10. There is no significant relationship between family size and average amount spent on purchase.

SUGGESTIONS

1. Retail Stores should sell their products at reasonable price, which will induce more customers to purchase.
2. It should also adopt various customer loyalty programs and recognize the loyalty customers by providing them discounts, free gifts and so on.
3. It should also adopt new store technologies like self check out lane, computer kiosk, and portable hand held scanner which can reduce the rush in the billing counter.
4. It should concentrate on the external environment facilitates i.e. mainly parking facility.
5. It should concentrate on providing sufficient moving space inside the store.
6. It should also concentrate on physical comforts like fans, clean toilets and seating arrangements to the customers.
7. The sales person must be very courteous in answering to the customers which will induce them to spend more within the store which may in turn make them to buy more.

CONCLUSION

In order to accomplish success in retailing sector, the existing players as well as new entrants need to consider a host of factors . Understanding their evolving needs aspirations and life style is the underlying key to success for any retailers. The findings of the study reveals that consumers prefer modern retail formats due to quality, variety of products and for security purpose. Based on the study majority of the respondents are faced problem like insufficient parking facility, no proper crowd management and slow billing. Hence, the retail stores should concentrate mainly on consumer preference and satisfaction. To be successful, Retail Stores have to blend the best expertise and technology that the world has to offer and synergize these with the demands and expectations of the consumers.

REQUEST FOR FEEDBACK

Dear Readers

At the very outset, International Journal of Research in Commerce and Management (IJRCM) acknowledges & appreciates your efforts in showing interest in our present issue under your kind perusal.

I would like to request you to supply your critical comments and suggestions about the material published in this issue as well as on the journal as a whole, on our E-mail i.e. infoijrcm@gmail.com for further improvements in the interest of research.

If you have any queries please feel free to contact us on our E-mail infoijrcm@gmail.com.

I am sure that your feedback and deliberations would make future issues better – a result of our joint effort.

Looking forward an appropriate consideration.

With sincere regards

Thanking you profoundly

Academically yours

Sd/-

Co-ordinator

ABOUT THE JOURNAL

In this age of Commerce, Economics, Computer, I.T. & Management and cut throat competition, a group of intellectuals felt the need to have some platform, where young and budding managers and academicians could express their views and discuss the problems among their peers. This journal was conceived with this noble intention in view. This journal has been introduced to give an opportunity for expressing refined and innovative ideas in this field. It is our humble endeavour to provide a springboard to the upcoming specialists and give a chance to know about the latest in the sphere of research and knowledge. We have taken a small step and we hope that with the active co-operation of like-minded scholars, we shall be able to serve the society with our humble efforts.
