

INTERNATIONAL JOURNAL OF RESEARCH IN COMPUTER APPLICATION & MANAGEMENT

I
J
R
C
M

A Monthly Double-Blind Peer Reviewed (Refereed/Juried) Open Access International e-Journal - Included in the International Serial Directories

Indexed & Listed at:

Ulrich's Periodicals Directory ©, ProQuest, U.S.A., EBSCO Publishing, U.S.A., Cabell's Directories of Publishing Opportunities, U.S.A.

Open J-Gate, India [link of the same is duly available at Inlibnet of University Grants Commission (U.G.C.)].

Index Copernicus Publishers Panel, Poland with IC Value of 5.09 & number of libraries all around the world.

Circulated all over the world & Google has verified that scholars of more than 2980 Cities in 165 countries/territories are visiting our journal on regular basis.

Ground Floor, Building No. 1041-C-1, Devi Bhawan Bazar, JAGADHRI – 135 003, Yamunanagar, Haryana, INDIA

CONTENTS

Sr. No.	TITLE & NAME OF THE AUTHOR (S)	Page No.
1.	HUMAN RESOURCE MANAGEMENT PRACTICES IN HOSPITALS <i>THOTA AMRUTHA VALLI & T. SUBBARAYUDU</i>	1
2.	INVENTORY MODELS FOR DETERIORATING ITEMS WITH STOCK DEPENDENT PRODUCTION AND DEMAND RATES HAVING WEIBULL DECAY <i>ESSEY KEBEDE MULUNEH & K. SRINIVASA RAO</i>	4
3.	CHALLENGES BEFORE BUSINESS EDUCATION IN INDIA <i>DR. SONAL SHARMA & DR. M. K. SINGH</i>	18
4.	MULTI-CORE PROGRAMMING PERFORMANCE AND ANALYZES <i>AJITKUMAR M. PUNDGE, DR. PRAPTI DESHMUKH, SANJAY AZADE & SATISH SANKAYE</i>	22
5.	STUDY ON STREET LIGHTS EXECUTION USING SIMULATION MODEL WITH EXCLUSIVE FOCUS ON ARTIFICIAL INTELLIGENCE AND NEURAL NETWORKS <i>ROOPSINGH TAKUR & KARUPPASAMY PANDIAN SP</i>	25
6.	EFFICIENT VIDEO TRANSMISSION FOR WIRELESS COMMUNICATION NETWORKS USING ZIGBEE PROTOCOL <i>MEENAKSHI.S, RAJKUMAR.S & S.MUTHUKUMARASAMY</i>	29
7.	WIRELESS COMMUNICATION <i>K. KRISHNAVENI</i>	33
8.	SPIRAL SECURITY MODEL TO COUNTER THE THREATS DUE TO HUMAN FACTORS IN WEB APPLICATIONS <i>BISWAJIT TRIPATHY & JIBITESH MISHRA</i>	36
9.	AN EFFICIENT METHOD FOR IMAGE RESTORATION FROM MOTION BLUR AND ADDITIVE WHITE GAUSSIAN DENOISING USING FUZZY DE-NOISING AND RICHARDSON LUCY DECONVOLUTION <i>N. UMADEVI & R. SUDHAMATHI</i>	40
10.	STUDY OF LITERATURE FOR EFFECTIVE BUSINESS COMMUNICATION <i>DR. PAWAN KUMAR SHARMA</i>	43
11.	A PROCEDURAL APPROACH TO BRANDING HR <i>DR. KALPANA KONERU & HYMAVATHI CHUNDURI</i>	46
12.	BUYING BEHAVIOUR OF CONSUMERS WITH REGARD TO SOFT DRINKS WITH REFERENCE TO COIMBATORE CITY <i>DR. A. KUMUDHA & THILAGA. S</i>	52
13.	IMPACT OF GLOBAL FINANCIAL CRISIS ON THE FINANCIAL PERFORMANCE OF SELECTED PUBLIC SECTOR BANKS IN INDIA <i>DR. V. MOHANRAJ & S.GOMATHI</i>	57
14.	ELLIPTIC CURVE CRYPTOGRAPHY <i>SANJEEV & DR. NAVEEN VERMA</i>	62
15.	IMPACT OF STRESS ON ACADEMIC PERFORMANCE AMONG POST GRADUATE STUDENTS <i>NEELUFER ASLAM, DR. SRILEKHA GOVEAS & SUMI THOMAS</i>	66
16.	THE NEXT BIG THING IN COMPUTING IS CLOUD COMPUTING: AN INTRODUCTION, CONCEPT AND ISSUES <i>C.VENISH RAJA & A.PAPPU RAJAN</i>	71
17.	ADOPTION OF CONTEMPORARY COST MANAGEMENT TECHNIQUES FOR BETTER MANAGEMENT OF COSTS <i>MANMEET KAUR & RAVINDER KAUR</i>	74
18.	JOB SATISFACTION AMONG THE EMPLOYEES OF INSURANCE SECTOR: A STUDY OF SELECTED PRIVATE INSURANCE COMPANIES IN RAJASTHAN <i>SHUBHASHREE SHARMA</i>	79
19.	CORPORATE FUNDING OF POLITICAL PARTIES UNDER NEW COMPANY LAW <i>MINNY NARANG</i>	84
20.	SIGFREE WITH EXTENDED INSTRUCTION SEQUENCE GRAPH FOR DATA FLOW ANOMALY AND PROXY <i>SHAIK SHAFIA</i>	91
21.	A STUDY ON CHALLENGES OF INDIAN HOSPITALITY INDUSTRY AND REMEDIES FOR SUSTAINABILITY IN THE EVER CHANGING MARKET SCENARIO <i>USHA DINAKARAN</i>	101
22.	A STUDY ON PERFORMANCE EVALUATION OF PUBLIC & PRIVATE SECTOR MUTUAL FUNDS IN INDIA <i>DR. BHUPENDRA SINGH HADA</i>	106
23.	DETERMINANTS OF RURAL HOUSEHOLDS LOAN REPAYMENT PERFORMANCE, IN OROMIA NATIONAL REGIONAL STATE: THE CASE OF DODOTA WODEDA <i>SOLOLOMON ALEMU & ADDISU BAJIRA</i>	112
24.	AN ANALYSIS OF CELEBRITY ENDORSEMENT IN INDIA REGIONAL VS. NATIONAL CELEBRITIES <i>CHARUL CHATURVEDI & DR. SUMAN PATHAK</i>	119
25.	TERRITORIAL ACCOMMODATION OF ETHNIC CONFLICT AND ITS NEXUS WITH POST CONFLICT STATE BUILDING AND PEACE <i>BEDASA TECHAN TEFERA</i>	124
26.	GREEN BANKING SERVICES FOR SUSTAINABILITY <i>VIJAY PULICHERI & SANGEPU RAJASHEKHAR</i>	132
27.	IMPLEMENTATION OF DIRECT TAX CODE (DTC): PROBLEMS AND PROSPECTS <i>AKSHATHA B.G.</i>	136
28.	SERVICE QUALITY AND CUSTOMER SATISFACTION OF PEOPLE'S BANK IN JAFFNA DISTRICT <i>K.THARMILA</i>	142
29.	STAFF DEVELOPMENT FOR AUSTRALIAN HEALTHCARE PROFESSIONALS <i>DR. DAVID JOSEPH PEREIRA</i>	150

CALL FOR MANUSCRIPTS

We invite unpublished novel, original, empirical and high quality research work pertaining to recent developments & practices in the areas of Computer Science & Applications; Commerce; Business; Finance; Marketing; Human Resource Management; General Management; Banking; Economics; Tourism Administration & Management; Education; Law; Library & Information Science; Defence & Strategic Studies; Electronic Science; Corporate Governance; Industrial Relations; and emerging paradigms in allied subjects like Accounting; Accounting Information Systems; Accounting Theory & Practice; Auditing; Behavioral Accounting; Behavioral Economics; Corporate Finance; Cost Accounting; Econometrics; Economic Development; Economic History; Financial Institutions & Markets; Financial Services; Fiscal Policy; Government & Non Profit Accounting; Industrial Organization; International Economics & Trade; International Finance; Macro Economics; Micro Economics; Rural Economics; Co-operation; Demography; Development Planning; Development Studies; Applied Economics; Development Economics; Business Economics; Monetary Policy; Public Policy Economics; Real Estate; Regional Economics; Political Science; Continuing Education; Labour Welfare; Philosophy; Psychology; Sociology; Tax Accounting; Advertising & Promotion Management; Management Information Systems (MIS); Business Law; Public Responsibility & Ethics; Communication; Direct Marketing; E-Commerce; Global Business; Health Care Administration; Labour Relations & Human Resource Management; Marketing Research; Marketing Theory & Applications; Non-Profit Organizations; Office Administration/Management; Operations Research/Statistics; Organizational Behavior & Theory; Organizational Development; Production/Operations; International Relations; Human Rights & Duties; Public Administration; Population Studies; Purchasing/Materials Management; Retailing; Sales/Selling; Services; Small Business Entrepreneurship; Strategic Management Policy; Technology/Innovation; Tourism & Hospitality; Transportation Distribution; Algorithms; Artificial Intelligence; Compilers & Translation; Computer Aided Design (CAD); Computer Aided Manufacturing; Computer Graphics; Computer Organization & Architecture; Database Structures & Systems; Discrete Structures; Internet; Management Information Systems; Modeling & Simulation; Neural Systems/Neural Networks; Numerical Analysis/Scientific Computing; Object Oriented Programming; Operating Systems; Programming Languages; Robotics; Symbolic & Formal Logic; Web Design and emerging paradigms in allied subjects.

Anybody can submit the **soft copy** of unpublished novel; original; empirical and high quality **research work/manuscript anytime** in **M.S. Word format** after preparing the same as per our **GUIDELINES FOR SUBMISSION**; at our email address i.e. infoijrcm@gmail.com or online by clicking the link **online submission** as given on our website ([FOR ONLINE SUBMISSION, CLICK HERE](#)).

GUIDELINES FOR SUBMISSION OF MANUSCRIPT

1. **COVERING LETTER FOR SUBMISSION:**

DATED: _____

THE EDITOR
IJRCM

Subject: SUBMISSION OF MANUSCRIPT IN THE AREA OF

(e.g. Finance/Marketing/HRM/General Management/Economics/Psychology/Law/Computer/IT/Engineering/Mathematics/other, please specify)

DEAR SIR/MADAM

Please find my submission of manuscript entitled ' _____ ' for possible publication in your journals.

I hereby affirm that the contents of this manuscript are original. Furthermore, it has neither been published elsewhere in any language fully or partly, nor is it under review for publication elsewhere.

I affirm that all the author (s) have seen and agreed to the submitted version of the manuscript and their inclusion of name (s) as co-author (s).

Also, if my/our manuscript is accepted, I/We agree to comply with the formalities as given on the website of the journal & you are free to publish our contribution in any of your journals.

NAME OF CORRESPONDING AUTHOR:

Designation:
Affiliation with full address, contact numbers & Pin Code:
Residential address with Pin Code:
Mobile Number (s):
Landline Number (s):
E-mail Address:
Alternate E-mail Address:

NOTES:

- a) The whole manuscript is required to be in **ONE MS WORD FILE** only (pdf. version is liable to be rejected without any consideration), which will start from the covering letter, inside the manuscript.
- b) The sender is required to mention the following in the **SUBJECT COLUMN** of the mail:
New Manuscript for Review in the area of (Finance/Marketing/HRM/General Management/Economics/Psychology/Law/Computer/IT/Engineering/Mathematics/other, please specify)
- c) There is no need to give any text in the body of mail, except the cases where the author wishes to give any specific message w.r.t. to the manuscript.
- d) The total size of the file containing the manuscript is required to be below **500 KB**.
- e) Abstract alone will not be considered for review, and the author is required to submit the complete manuscript in the first instance.
- f) The journal gives acknowledgement w.r.t. the receipt of every email and in case of non-receipt of acknowledgment from the journal, w.r.t. the submission of manuscript, within two days of submission, the corresponding author is required to demand for the same by sending separate mail to the journal.

2. **MANUSCRIPT TITLE:** The title of the paper should be in a 12 point Calibri Font. It should be bold typed, centered and fully capitalised.

3. **AUTHOR NAME (S) & AFFILIATIONS:** The author (s) **full name, designation, affiliation (s), address, mobile/landline numbers, and email/alternate email address** should be in italic & 11-point Calibri Font. It must be centered underneath the title.

4. **ABSTRACT:** Abstract should be in fully italicized text, not exceeding 250 words. The abstract must be informative and explain the background, aims, methods, results & conclusion in a single para. Abbreviations must be mentioned in full.

5. **KEYWORDS:** Abstract must be followed by a list of keywords, subject to the maximum of five. These should be arranged in alphabetic order separated by commas and full stops at the end.
6. **MANUSCRIPT:** Manuscript must be in **BRITISH ENGLISH** prepared on a standard A4 size **PORTRAIT SETTING PAPER**. It must be prepared on a single space and single column with 1" margin set for top, bottom, left and right. It should be typed in 8 point Calibri Font with page numbers at the bottom and centre of every page. It should be free from grammatical, spelling and punctuation errors and must be thoroughly edited.
7. **HEADINGS:** All the headings should be in a 10 point Calibri Font. These must be bold-faced, aligned left and fully capitalised. Leave a blank line before each heading.
8. **SUB-HEADINGS:** All the sub-headings should be in a 8 point Calibri Font. These must be bold-faced, aligned left and fully capitalised.
9. **MAIN TEXT:** The main text should follow the following sequence:

INTRODUCTION**REVIEW OF LITERATURE****NEED/IMPORTANCE OF THE STUDY****STATEMENT OF THE PROBLEM****OBJECTIVES****HYPOTHESES****RESEARCH METHODOLOGY****RESULTS & DISCUSSION****FINDINGS****RECOMMENDATIONS/SUGGESTIONS****CONCLUSIONS****SCOPE FOR FURTHER RESEARCH****ACKNOWLEDGMENTS****REFERENCES****APPENDIX/ANNEXURE**

It should be in a 8 point Calibri Font, single spaced and justified. The manuscript should preferably not exceed **5000 WORDS**.

10. **FIGURES & TABLES:** These should be simple, crystal clear, centered, separately numbered & self explained, and **titles must be above the table/figure. Sources of data should be mentioned below the table/figure.** It should be ensured that the tables/figures are referred to from the main text.
11. **EQUATIONS:** These should be consecutively numbered in parentheses, horizontally centered with equation number placed at the right.
12. **REFERENCES:** The list of all references should be alphabetically arranged. The author (s) should mention only the actually utilised references in the preparation of manuscript and they are supposed to follow **Harvard Style of Referencing**. The author (s) are supposed to follow the references as per the following:
 - All works cited in the text (including sources for tables and figures) should be listed alphabetically.
 - Use **(ed.)** for one editor, and **(ed.s)** for multiple editors.
 - When listing two or more works by one author, use --- (20xx), such as after Kohl (1997), use --- (2001), etc, in chronologically ascending order.
 - Indicate (opening and closing) page numbers for articles in journals and for chapters in books.
 - The title of books and journals should be in italics. Double quotation marks are used for titles of journal articles, book chapters, dissertations, reports, working papers, unpublished material, etc.
 - For titles in a language other than English, provide an English translation in parentheses.
 - The location of endnotes within the text should be indicated by superscript numbers.

PLEASE USE THE FOLLOWING FOR STYLE AND PUNCTUATION IN REFERENCES:**BOOKS**

- Bowersox, Donald J., Closs, David J., (1996), "Logistical Management." Tata McGraw, Hill, New Delhi.
- Hunker, H.L. and A.J. Wright (1963), "Factors of Industrial Location in Ohio" Ohio State University, Nigeria.

ABSTRACT

Cloud system is a new developing research discipline and it is also a subdivision of Business Intelligence and internet technology. It has attracted a great deal of attention in the Information Technology and in the society as a whole in recent years, due to the availability of a wide range of new systems. The evolutionary changes in technology have made it possible to use cloud computing. Cloud computing is now grabbing a great deal of attention among users and business people all over world. This is a study relating to the introduction of cloud computing and its advantages and issues.

KEYWORDS

cloud systems, cloud computing.

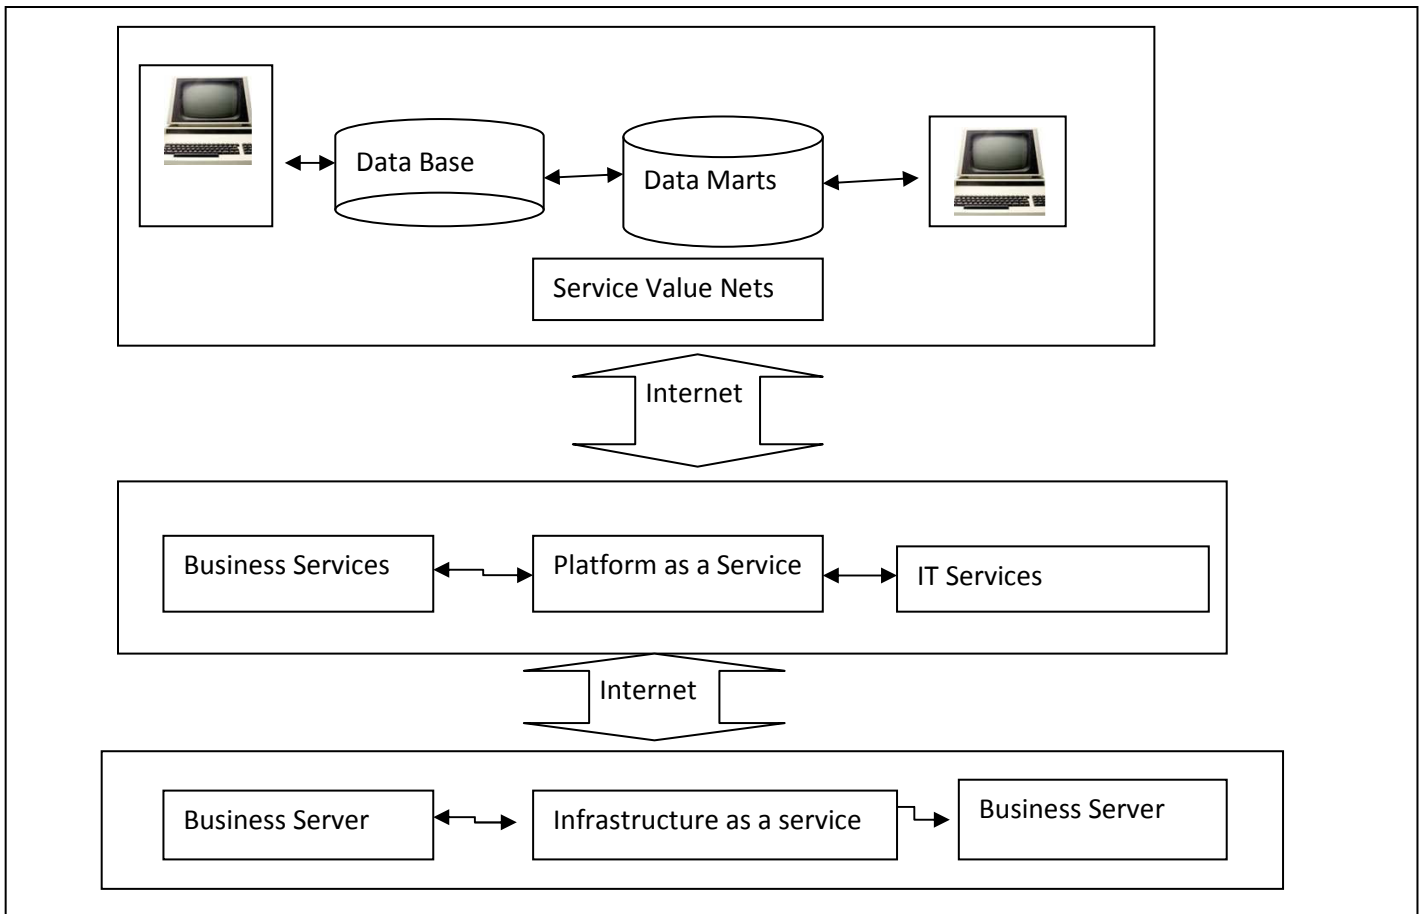

INTRODUCTION

In the traditional system there are a number of software programs that are available to create any file and after creating the file, it is stored where it was created. The documented files are stored on the particular system which may be shared by using a network. The network computing deals with all the information stored inside the server, which is maintained by the company or the organization, however in this case, users outside the network cannot access any information. Therefore there is a need for technology in order to overcome this major issue and it is done through the existence of the internet application. As everyone knows, the term Internet is a global network connecting millions of computers. With the help of globally distributed internet to share the information, the internet technology is improving day by day by developing new applications which is called cloud computing. This paper helps one to pay close attention to the development trend and characteristics of Cloud Computing and its uses.

CLOUD COMPUTING

The data can be accessed via internet and any authorized user can access the system from any computer. The user may be an individual or group or even an enterprise but technology is located in the cloud which is invisible. The cloud computing hardware is maintained by separate multiple third party servers with the help of different data centers. It is a powerful platform that provides services on demand, which are always on, anywhere, anytime and anyplace. It is the best application to share information through the web by using world's apps, devices, and services. A cloud computing system must make a copy of all its clients' information and store it in other devices. These copies enable the central server to access backup machines to retrieve data that otherwise would be unreachable. If users store their documents in one place in the cloud service, they can access the same from anywhere wherein the only constraint would be the availability of the internet connection. The Data store API, we're moving beyond files and providing a new model for effortlessly storing and syncing app data. When you use an app built with data stores your data will be up-to-date across all devices whether you're online or offline. Some of the free cloud service providers provide an option called "shared older option" which primarily deals with creating user groups and only the member of the group can access the data.

FIG. 1.0 CLOUD SYSTEMS

TYPES OF CLOUDS FOR DEPLOYMENT

Clouds types can be classified based on how users subscribe and use it. From the point of view from the users' needs the clouds completely depend upon the nature of their work or business. In recent enterprises, most of the users deal with huge volumes of data and their transactions is also very high. In general, by looking at the need of the user, the cloud can offer four types of services such as

public, private, community and hybrid. Public Cloud can be accessed by any subscriber with an internet connection and the access to the cloud space may be any single user. The group or organization can be organized or grouped together to build the private cloud. Here, accessible permission can be limited only by the group or company. A community cloud is shared by two or more organizations that can use the same cloud services like an intranet. A hybrid cloud is a combination of any of the above said cloud services.

TYPES OF CLOUDS FOR DELIVERY

SOFTWARE AS A SERVICE

It is the process of keeping a copy of critical software-as-a-service application data with an independent third party. In the cloud services, the SaaS provider gives its subscribers access to both resources and applications. SaaS also makes it easier to have the same software on all of your devices at once by accessing it on the cloud. Cloud services fully support SaaS service so that users adhere to the following features: easier administration, automatic update, compatibility, easier collaboration and global accessibility.

PLATFORM AS A SERVICE

Platform as a service is a model which can be commonly shared by users. The consumer creates the software using tools from the provider. The consumer controls the software deployment and configuration settings. The provider provides the networks, servers, storage, and other services. A PaaS system goes a level above the Software as a Service setup. A PaaS provider gives the subscribers access to the components that they require to develop and operate applications over the internet. Cloud also supports a best system to share network, servers and other resources. Thus, a cloud user can get Add-on development facilities, stand alone development environment, and an open platform as a service.

INFRASTRUCTURE AS A SERVICE

Infrastructure as a service is a provision model in which an organization outsources the equipment used to support operations, including storage, hardware, servers and networking components. An IaaS agreement, as the name states, deals primarily with computational infrastructure.

ADVANTAGES OF CLOUD COMPUTING

Cloud computing is an umbrella, a term used to refer to Internet based development and services. There are many advantages in a cloud system. The major advantages are:

LOW COST COMPUTERS FOR USERS OR IT INFRASTRUCTURE COSTS

The purpose of economic feasibility assessment is to determine the positive economic benefits to the organization that the proposed system will provide. It includes quantification and identification of all the benefits expected. This assessment typically involves a cost benefits analysis. The users need not worry about the new updated configured system used to avail cloud.

FEWER MAINTENANCE ISSUES

Software maintenance in software engineering is the modification of a software product after delivery to correct faults, in order to improve its performance or other attributes. From time to time maintenance will be undertaken on online services.

UNLIMITED STORAGE CAPACITY

Many companies are provided with a large storage system. For example Livedrive is one of the world's fastest growing cloud storage companies serving millions of home users, small businesses and enterprises worldwide

UNIVERSAL ACCESS

Cloud system can address the accessibility, usability and acceptability of Information Society Technologies by anyone, anywhere and at anytime, through any media or device.

SHARED POOL OF CONFIGURABLE COMPUTING RESOURCES

There is a sense of location independence wherein the customer generally has no control or knowledge over the exact location of the provided resources but may be able to specify location at a higher level of abstraction. The resources include storage, processing, memory, network bandwidth, and virtual machines which are used in the cloud system.

ON-DEMAND NETWORK ACCESS

There is a broad network accessibility used to improve the performance of cloud system. A lot of new technology devices like mobile phones, laptops, and PDAs are promoting the usability of cloud computing. In addition Cloud computing customers do not own the physical infrastructure. Cloud providers have mirrored solutions to minimize downtime in the event of a disaster. This type of resiliency can give businesses the sustainability they need during unanticipated events.

ISSUES OF CLOUD COMPUTING**TECHNICAL AND INTERNET ISSUES**

If a company wants to establish a cloud computing system, it needs to purchase computers with a high configuration and also with the latest features. In this case however, a company smaller in size need not invest a huge amount to establish this system. The user should have internet facilities which includes everything from the way cities are built to making sure there's proper equipment which are related with internet like computers, modems, telephone lines network hardware and service provider. Another factor behind the internet access is the economic facet, as the cost of infrastructure, equipment, and services can determine the level of access available to regions, communities, and individuals. Cloud computing systems deal with addressing these problems.

SECURITY ISSUES

Computer crime is a growing threat to the society and is caused by the criminals. The crime includes the authorized use, access, and destruction of hardware, software, data or network resources, unauthorized release of information, and denial of services. In general the internet users can trust their security and reliability. A trusted Internet takes into account security, transaction protection, identity assertion and management. There are also chances for malicious activities that could damage the routing infrastructure as well as data in the future. When we talk about secure cloud computing, we should not only concentrate on identifying a problem but also on who will be responsible for managing the security of data with guarantee. Thus new mechanisms are needed to provide this level of assurance and must support both the end-to-end nature of Internet architecture and also its users. The Internet Society is working closely with the OECD, APEC, ENISA, WEF and other organizations to develop policy solutions that help in achieving this goal. Trusting a third party requires taking risks which will be more risky when we are using free cloud system.

LEGAL ISSUES

Many legal issues are not yet resolved. The current issues need to be reformed in the pipeline. Here the problem of identifying the controller and also identifying which law will be applicable needs to be solved.

PRIVACY ISSUES

Business ethics is concerned with a number of ethical questions that managers must confront as part of their daily business decision making. The internet is open to violations of their privacy. There are no tough rules regarding what information is personal and what information is private. Most of the information is available on the internet with some of the applications still open for all to access. The electronic frontier is unsecure with no tough rules on what information should be private and what should be public. As a result, in the context of privacy issues of cloud system, it is very difficult to promote responsibility among business professionals.

CONCLUSION

This research introduces the theoretical basics of Cloud system. With the information overload, Cloud system is a new and promising research issue to help users in gaining insight into overwhelming information on the cloud. In this paper, we present a preliminary discussion about the cloud system, including the definition, Concepts, and its functions. Research can be done by implementing new techniques which can in turn provide the user with the opportunity to analyze the cloud at different levels of abstraction such as user issues, security issues and storage issues.

REQUEST FOR FEEDBACK

Dear Readers

At the very outset, International Journal of Research in Computer Application & Management (IJRCM) acknowledges & appreciates your efforts in showing interest in our present issue under your kind perusal.

I would like to request you to supply your critical comments and suggestions about the material published in this issue as well as on the journal as a whole, on our E-mail infoijrcm@gmail.com for further improvements in the interest of research.

If you have any queries please feel free to contact us on our E-mail infoijrcm@gmail.com.

I am sure that your feedback and deliberations would make future issues better – a result of our joint effort.

Looking forward an appropriate consideration.

With sincere regards

Thanking you profoundly

Academically yours

Sd/-

Co-ordinator

DISCLAIMER

The information and opinions presented in the Journal reflect the views of the authors and not of the Journal or its Editorial Board or the Publishers/Editors. Publication does not constitute endorsement by the journal. Readers are encouraged to confirm the information contained herein with other sources. The responsibility of the contents and the opinions expressed in this journal is exclusively of the author (s) concerned.

ABOUT THE JOURNAL

In this age of Commerce, Economics, Computer, I.T. & Management and cut throat competition, a group of intellectuals felt the need to have some platform, where young and budding managers and academicians could express their views and discuss the problems among their peers. This journal was conceived with this noble intention in view. This journal has been introduced to give an opportunity for expressing refined and innovative ideas in this field. It is our humble endeavour to provide a springboard to the upcoming specialists and give a chance to know about the latest in the sphere of research and knowledge. We have taken a small step and we hope that with the active co-operation of like-minded scholars, we shall be able to serve the society with our humble efforts.
