CALL FOR MANUSCRIPTS

We invite unpublished novel, original, empirical and high quality research work pertaining to the recent developments & practices in the areas of Computer Science & Applications; Commerce; Business; Finance; Marketing; Human Resource Management; General Management; Banking; Economics; Tourism Administration & Management; Education; Law; Library & Information Science; Defence & Strategic Studies; Electronic Science; Corporate Governance; Industrial Relations; and emerging paradigms in allied subjects like Accounting; Accounting Information Systems; Accounting Theory & Practice; Auditing; Behavioral Accounting; Behavioral Economics; Corporate Finance; Cost Accounting; Econometrics; Economic Development; Economic History; Financial Institutions & Markets; Financial Services; Fiscal Policy; Government & Non Profit Accounting; Industrial Organization; International Economics & Trade; International Finance; Macro Economics; Micro Economics; Rural Economics; Co-operation; Demography; Development Planning; Development Studies; Applied Economics; Development Economics; Business Economics; Monetary Policy; Public Policy Economics; Real Estate; Regional Economics; Political Science; Continuing Education; Labour Welfare; Philosophy; Psychology; Sociology; Tax Accounting; Advertising & Promotion Management; Management Information Systems (MIS); Business Law; Public Responsibility & Ethics; Communication; Direct Marketing; E-Commerce; Global Business; Health Care Administration; Labour Relations & Human Resource Management; Marketing Research; Marketing Theory & Applications; Non-Profit Organizations; Office Administration/Management; Operations Research/Statistics; Organizational Behavior & Theory; Organizational Development; Production/Operations; International Relations; Human Rights & Duties; Public Administration; Population Studies; Purchasing/Materials Management; Retailing; Sales/Selling; Services; Small Business Entrepreneurship; Strategic Management Policy; Technology/Innovation; Tourism & Hospitality; Transportation Distribution; Algorithms; Artificial Intelligence; Compilers & Translation; Computer Aided Design (CAD); Computer Aided Manufacturing; Computer Graphics; Computer Organization & Architecture; Database Structures & Systems; Discrete Structures; Internet; Management Information Systems; Modeling & Simulation; Neural Systems/Neural Networks; Numerical Analysis/Scientific Computing; Object Oriented Programming; Operating Systems; Programming Languages; Robotics; Symbolic & Formal Logic; Web Design and emerging paradigms in allied subjects.

Anybody can submit the **soft copy** of unpublished novel; original; empirical and high quality **research work/manuscript** **anytime** in **M.S. Word format** after preparing the same as per our **GUIDELINES FOR SUBMISSION**; at our email address i.e. infoijrcm@gmail.com or online by clicking the link **online submission** as given on our website ([FOR ONLINE SUBMISSION, CLICK HERE](#)).

GUIDELINES FOR SUBMISSION OF MANUSCRIPT

1. **COVERING LETTER FOR SUBMISSION:**

DATED: _____

THE EDITOR

IJRCM

Subject: SUBMISSION OF MANUSCRIPT IN THE AREA OF _____.

(e.g. Finance/Mkt./HRM/General Mgt./Engineering/Economics/Computer/IT/ Education/Psychology/Law/Math/other, please specify)

DEAR SIR/MADAM

Please find my submission of manuscript titled ' _____ ' for likely publication in one of your journals.

I hereby affirm that the contents of this manuscript are original. Furthermore, it has neither been published anywhere in any language fully or partly, nor it is under review for publication elsewhere.

I affirm that all the co-authors of this manuscript have seen the submitted version of the manuscript and have agreed to inclusion of their names as co-authors.

Also, if my/our manuscript is accepted, I agree to comply with the formalities as given on the website of the journal. The Journal has discretion to publish our contribution in any of its journals.

NAME OF CORRESPONDING AUTHOR

Designation/Post*

Institution/College/University with full address & Pin Code

Residential address with Pin Code

Mobile Number (s) with country ISD code

Is WhatsApp or Viber active on your above noted Mobile Number (Yes/No)

Landline Number (s) with country ISD code

E-mail Address

Alternate E-mail Address

Nationality

* i.e. Alumnus (Male Alumni), Alumna (Female Alumni), Student, Research Scholar (M. Phil), Research Scholar (Ph. D.), JRF, Research Assistant, Assistant Lecturer, Lecturer, Senior Lecturer, Junior Assistant Professor, Assistant Professor, Senior Assistant Professor, Co-ordinator, Reader, Associate Professor, Professor, Head, Vice-Principal, Dy. Director, Principal, Director, Dean, President, Vice Chancellor, Industry Designation etc. **The qualification of author is not acceptable for the purpose.**

NOTES:

- a) The whole manuscript has to be in **ONE MS WORD FILE** only, which will start from the covering letter, inside the manuscript. **pdf version is liable to be rejected without any consideration.**
- b) The sender is required to mention the following in the **SUBJECT COLUMN of the mail:**
New Manuscript for Review in the area of (e.g. Finance/Marketing/HRM/General Mgt./Engineering/Economics/Computer/IT/ Education/Psychology/Law/Math/other, please specify)
- c) There is no need to give any text in the body of the mail, except the cases where the author wishes to give any **specific message** w.r.t. to the manuscript.
- d) The total size of the file containing the manuscript is expected to be below **1000 KB**.
- e) Only the **Abstract will not be considered for review** and the author is required to submit the **complete manuscript** in the first instance.
- f) **The journal gives acknowledgement w.r.t. the receipt of every email within twenty-four hours** and in case of non-receipt of acknowledgment from the journal, w.r.t. the submission of the manuscript, within two days of its submission, the corresponding author is required to demand for the same by sending a separate mail to the journal.
- g) The author (s) name or details should not appear anywhere on the body of the manuscript, except on the covering letter and the cover page of the manuscript, in the manner as mentioned in the guidelines.

2. **MANUSCRIPT TITLE:** The title of the paper should be typed in **bold letters, centered and fully capitalised**.
3. **AUTHOR NAME (S) & AFFILIATIONS:** Author (s) **name, designation, affiliation (s), address, mobile/landline number (s), and email/alternate email address** should be given underneath the title.
4. **ACKNOWLEDGMENTS:** Acknowledgements can be given to reviewers, guides, funding institutions, etc., if any.
5. **ABSTRACT:** Abstract should be in **fully Italic printing**, ranging between **150 to 300 words**. The abstract must be informative and elucidating the background, aims, methods, results & conclusion in a **SINGLE PARA**. **Abbreviations must be mentioned in full.**
6. **KEYWORDS:** Abstract must be followed by a list of keywords, subject to the maximum of **five**. These should be arranged in alphabetic order separated by commas and full stop at the end. All words of the keywords, including the first one should be in small letters, except special words e.g. name of the Countries, abbreviations etc.
7. **JEL CODE:** Provide the appropriate Journal of Economic Literature Classification System code (s). JEL codes are available at www.aea-web.org/econlit/jelCodes.php. However, mentioning of JEL Code is not mandatory.
8. **MANUSCRIPT:** Manuscript must be in **BRITISH ENGLISH** prepared on a standard A4 size **PORTRAIT SETTING PAPER**. **It should be free from any errors i.e. grammatical, spelling or punctuation. It must be thoroughly edited at your end.**
9. **HEADINGS:** All the headings must be bold-faced, aligned left and fully capitalised. Leave a blank line before each heading.
10. **SUB-HEADINGS:** All the sub-headings must be bold-faced, aligned left and fully capitalised.
11. **MAIN TEXT:**

THE MAIN TEXT SHOULD FOLLOW THE FOLLOWING SEQUENCE:**INTRODUCTION****REVIEW OF LITERATURE****NEED/IMPORTANCE OF THE STUDY****STATEMENT OF THE PROBLEM****OBJECTIVES****HYPOTHESIS (ES)****RESEARCH METHODOLOGY****RESULTS & DISCUSSION****FINDINGS****RECOMMENDATIONS/SUGGESTIONS****CONCLUSIONS****LIMITATIONS****SCOPE FOR FURTHER RESEARCH****REFERENCES****APPENDIX/ANNEXURE****The manuscript should preferably be in 2000 to 5000 WORDS, But the limits can vary depending on the nature of the manuscript.**

12. **FIGURES & TABLES:** These should be simple, crystal **CLEAR, centered, separately numbered** & self-explained, and the **titles must be above the table/figure. Sources of data should be mentioned below the table/figure. It should be ensured that the tables/figures are referred to from the main text.**
13. **EQUATIONS/FORMULAE:** These should be consecutively numbered in parenthesis, left aligned with equation/formulae number placed at the right. The equation editor provided with standard versions of Microsoft Word may be utilised. If any other equation editor is utilised, author must confirm that these equations may be viewed and edited in versions of Microsoft Office that does not have the editor.
14. **ACRONYMS:** These should not be used in the abstract. The use of acronyms is elsewhere is acceptable. Acronyms should be defined on its first use in each section e.g. Reserve Bank of India (RBI). Acronyms should be redefined on first use in subsequent sections.
15. **REFERENCES:** The list of all references should be alphabetically arranged. **The author (s) should mention only the actually utilised references in the preparation of manuscript** and they may follow Harvard Style of Referencing. **Also check to ensure that everything that you are including in the reference section is duly cited in the paper.** The author (s) are supposed to follow the references as per the following:
 - All works cited in the text (including sources for tables and figures) should be listed alphabetically.
 - Use (ed.) for one editor, and (ed.s) for multiple editors.
 - When listing two or more works by one author, use --- (20xx), such as after Kohl (1997), use --- (2001), etc., in chronologically ascending order.
 - Indicate (opening and closing) page numbers for articles in journals and for chapters in books.
 - The title of books and journals should be in italic printing. Double quotation marks are used for titles of journal articles, book chapters, dissertations, reports, working papers, unpublished material, etc.
 - For titles in a language other than English, provide an English translation in parenthesis.
 - **Headers, footers, endnotes and footnotes should not be used in the document.** However, **you can mention short notes to elucidate some specific point**, which may be placed in number orders before the references.

ABSTRACT

The Indian startup environment is a buzzword since last year when the Venture Capital investments hit an all-time high of more than 9\$ billion. The year 2016 started with the launch of ambitious Start Up India Campaign. With a 10,000 crore corpus, tax exemption and self-compliance procedure, the Indian Startup ecosystem has never been more conducive. The current government policies are favouring business environment and with the number of mobile phone and internet users increasingly exponentially in India, sectors like e-commerce are attracting unprecedented investment. There are a lot of mergers and acquisitions in the start up industry and the government support is supporting this consolidation. With all the initiatives, Indian start up scene is on a never before growth trajectory that is bound to sustain for a long time. The present paper examines the conceptual framework of Venture Capital, the evolution of Venture Capital in India and the Regulatory framework for Venture Capital Funds. The paper analyses the current trends and challenges in the Venture Capital Industry and the way ahead for India.

KEYWORDS

history, SEBI regulations, startup, trends, venture capital.

I. INTRODUCTION

A new business requires capital for establishment and expansion. There are a number of ways to fund growth of a business: proprietor's own capital, arranging loan from financial institutions and seeking equity investment as happens in Venture capital. Venture Capital is a source of funding for small companies which have limited or no operation history and are not strong enough to access the capital market or acquire institutional finance. Venture Capital is basically investment in newly formed companies which have a strong potential for growth with a goal of earning long term capital gains at the time of exit. Venture capital investment promotes the growth of entrepreneurs with promising ideas and thereby act as medium for fulfilling the lacuna in financing options for risky, growth oriented firms

Jane Koloski Morris, editor of the well-known industry publication, Venture Economics, defines venture capital as '**providing seed, start-up and first stage financing**' and also '**funding the expansion of companies that have already demonstrated their business potential but do not yet have access to**

Venture capital typically comes from institutional investors and high net worth individuals and is pooled together by dedicated investment firms known as VENTURE CAPITAL FUNDS. The individuals who invest in this funds are known as Venture Capitalists and the firms in which they invest in are known as Venture Capital undertakings. Angel Investors are private individuals with huge net worth which directly invest in growth oriented firms.

WHAT DO VCs LOOK FOR?

Venture capitalists look for businesses that have the potential to grow quickly to a significant size, yielding a significant return on the VC's investment in a relatively short period of time.

The company's current size is less important than its future aspirations and growth potential. A target company for a VC is one that may be capable of becoming a large market leader in its industry due to some new industry opportunity and competitive advantage.

1. **Commercially viable.** Does the company have a product or service that can be reproduced efficiently to generate revenue?
2. **Identifiable market.** Is there a clearly defined market for the company's product or service? Does the company's product or service meet an identifiable need in that industry? Does the company have a reasonable plan to meet the identified need in an efficient, revenue-generating manner?
3. **Strong management.** Does the company's leadership inspire confidence? Do they have the vision, expertise, and the ability to propel a business to a significant level of growth?
4. **Sustainable competitive advantage.** Has the company hit upon an idea that's truly unique to the industry, one that has significant barriers to entry that will inhibit others from encroaching upon its market? Has the company considered economic and technological change that may affect the business model?
5. **Exit Opportunity:** Lastly, venture capitalists look for the clear exit opportunity for their investment such as public listing or a third party acquisition of the investee company

II. VENTURE CAPITAL INVESTMENT PROCESS

STAGES OF FINANCING

Venture Capital typically refers to risk capital as they invest in risky projects at a stage when the idea of the business is still shaping up and as the company progresses they may fund additional rounds for expansion and growth of the company. The various rounds of financing may be divided as:

Early stage Financing

1. **Seed Money:** This is the funding required to test and research on a new idea before commercial production starts. At this stage, the risk of losing the investment is tremendously high, because there are so many uncertain factors.
2. **Start-up:** This is the funding required by firms that have conducted successful feasibility studies and are now looking at product development and marketing.
3. **Second-Round:** Firms at this stage require funding for promoting sales as they are selling the product but not yet turning profit. They are trying to compete and carve out a market for themselves.

Later stage Financing

4. **Mezzanine/Development financing:** This is expansion money for a newly profitable company to acquire new assets and foray into different markets.
5. **Bridge Financing:** This is the final stage funding required for financing the cost of public issue so that Venture Capitalist is able to liquidate his investment.

VC investment process

There are various stages in Venture Capital Investment Process.

1. Business Plan Submission: In the first stage, the venture capital undertaking submits a Business Plan outlining the Background of the Company, Product or service, Market Analysis, Marketing, qualifications of the Management Team and in depth financial analysis of the future revenues and costs.
2. Introductory Conversation/Meeting: If the business plan meets the initial investment criteria of the Venture Capital Fund, a personal meeting is arranged.
3. Due Diligence: The due diligence phase lasts for weeks and involves analysis of the Company's current & Projected Valuation, Risk, Projected ROI, Liquidity of Investment, security interests and exit strategies in the event of distress, Ability to fund future rounds and extent of Influence over decision making in the VCU.
4. Term Sheets and Funding: On the completion of due diligence phase, the two parties prepare a term sheet which is a non-binding document that spells out the basic terms and conditions of the investment agreement. The Term Sheet contains details pertaining to type of shares that will be offered to the financier, Dividend rights, Liquidation Preference, Redemption, Conversion rights, Representation & warranties, Voting rights, Consent rights, Information rights, Planned Exit scenario.
5. Methods of Venture Financing: The financing pattern of the deal is the most important element. The various methods of venture financing are Equity Instruments, Debt Instruments such as Conditional loan, Income notes. Conditional Loans and Income Notes are innovative debt instruments that carry low interest rate plus royalty as a certain percentage of sales.
6. Exit strategy: VCs would be more interested in listening to entrepreneurs who have a perfect exit strategy planned for investors. There is various exit option for VC to cash out their investment:
 - Initial Public Offering (IPO): IPO is about offering company shares in the market for public to buy. IPO constitutes the most preferred route for VC exit as it offers flexibility to investors in terms of time, price and quantity. IPO gives a perfect opportunity to reap benefits for their investment, liquidity and quick exit
 - Mergers & Acquisition: M&A offers an opportunity to investors to sell company shares to another company. Most mergers or acquisitions of VC-funded companies consist of a smaller, VC-funded company merging or being acquired by public or private company. The acquisition/merger is also a efficient way for the acquirer of a VC-funded company to enlarge its business by adding product lines or services already developed by the VC-funded company.
 - Shares buyback: Company promoters or entrepreneur can buy back the company's shares from Investors on a fixed price after negotiation. However, investors would like to go for this VC exit option only when IPO & M&A route is not available to them and company is not doing well in terms of meeting expectations of investors.
 - Sale to Other Strategic Investor/Venture Capital Fund: It is quite possible that VC prefer to offload their shares to other strategic investors which could be either bigger angel investors or venture capital funds who are ready to put more money into the business.

For instance, in the year 2005, Crossover Advisors, a private equity firm invested in an automobile component manufacturer, Indo Schottle Auto Components. Once their market demand increased after procuring orders from Volkswagen and General Motors, a decision was taken to co-opt a large partner such as ICICI Ventures. Crossover Advisors exited through a sale to ICICI in 2007.

III. VENTURE CAPITAL FUNDS IN INDIA

VCs in India can be categorized into following five groups:

- 1) Those promoted by the Central Government controlled development finance institution. For eg: IFCI Venture Capital Funds Ltd (IVCF) & SIDBI Venture Capital Ltd (SVCL)
- 2) Those promoted by State Government controlled development finance institutions. For eg: Punjab Infotech Venture Fund, Gujarat Venture Finance Ltd (GVFL), Kerala Venture Capital Fund Pvt Ltd.
- 3) Those promoted by public banks. For example: Canbank Venture Capital Fund, SBI Capital Market Ltd.
- 4) These promoted by private sector companies. For example: IL&FS Trust Company Ltd, Infinity Venture India Fund
- 5) Those established as foreign venture capital fund. For ex: Walden Investment, Citi group Venture Capital Investment

IV. THE ORIGIN OF VENTURE CAPITAL IN U.S.

In the U.S., in first half of 20th century, wealthy families funded private companies which had potential for success. Georges Doriot, a professor at Harvard Business School, now known as father of Venture Capital in 1946 founded the American Research and Development Corporation (ARDC), the first private institutional firm which went on to invest in many successful firms, most notably, Digital Equipment Corporation (DEC) which was valued at over 1200 times at the time of listing and became a watershed in the history of venture Capital funding.

J.H. Whitney & Company was the second private equity investment firm that invested in Minute Maid juice which later was sold to Coca Cola Company.

In its early years, Venture Capital primarily invested in technology startups in the U.S but now the terms refer to investment in any unlisted private company.

V. EVOLUTION OF VENTURE CAPITAL IN INDIA

The concept of venture capital came to India after decades of being introduced in the U.S and U.K. The advent of organised venture capital in India has been slow and funding was available from only banks and government, that too secured. Most of the entrepreneurs had to rely on their own family resources for setting up businesses.

EARLY BEGINNINGS

In 1972, a committee on Development of Small and Medium Enterprises stressed the importance of venture capital in promoting the growth of technology start ups and innovative entrepreneurs. This resulted in a series of fragmented steps such as setting up of Risk Capital Foundation, sponsored by IFCI in 1975 to promote and support new technologies and businesses. It is now known as IFCI Venture Capital Funds Ltd. Seed Capital scheme was set up by IDBI in 1976. Programme for Advancement of Commercial Technology (PACT) Scheme introduced by ICICI in 1985. These schemes were marginally successful as they were largely collateral and project based.

1987-1994

This was a period of setting up of organised venture capital funds in the country. The budget of 1986-87 introduced the idea of venture capital funding by levying a cess on technology imports to create a pool of funds. Venture Capital guidelines were announced in 1988.

The following VC funds laid the foundations of India's VC industry:

1. Venture Capital Fund Scheme (IDBI, 1987)
2. Venture Capital Unit Scheme I (TDICI, 1989)
3. Canbank Venture Capital Fund (Canbank Financial Services Ltd. 1989)
4. Venture Capital Unit Scheme II (TDICI, 1990)
5. Gujarat Venture Capital Fund (Gujarat Venture Finance Ltd. 1990)

1995-1998: ENTRY OF FOREIGN VENTURE CAPITAL FUNDS

The Government of India issued guidelines in September 1995 for overseas investment in venture capital in India. The Securities and Exchange Board of India (SEBI) framed the SEBI (Venture Capital Funds) Regulations, 1996. These guidelines were further amended in April 2000 with the objective of fuelling the growth of venture capital activities in India.

The Government constituted a SEBI committee headed by K. B. Chandrasekhar to make recommendations to facilitate the growth of VC industry in India. The committee recommended, inter alia, that SEBI should be the single point contact for all regulations and clearances pertaining to flow of VC in India.

2000 ONWARDS

VCF industry has been in upswing touching \$1.4 billion in 2015. The government revised the regulatory framework by covering Venture Capitalists and Angel Investors under the ambit of SEBI (Alternative Investment Fund) Regulation, 2012.

VI. REGULATORY FRAMEWORK PERTAINING TO VENTURE CAPITAL FUNDS IN INDIA**BACKGROUND**

SEBI notified the Alternative Investment Fund Regulations on 21st May, 2012 taking note of the rapidly growing private funding industry so as to regulate them and ensure that they work in the interest of the entrepreneurs according to a well-defined investment criteria. A summary of these guidelines is produced below:
Definition of Alternative Investment Fund: AIF means a privately pooled investment vehicle structured as trust, company or limited liability partnership which collects funds from investors and invests them as per a well-defined investment policy.

Classification of AIFs: SEBI has categorised Alternative Investment Funds into 3 categories

TABLE 1: CATEGORIES OF ALTERNATIVE INVESTMENT FUNDS

| Category I | Category II | Category III |
|---|------------------------------------|---|
| Start Up Ventures Social Venture Funds SME Fund Infrastructure Funds | Private equity Funds Debt Funds | Funds which employ complex trading strategies. Eg: Hedge Funds. |

Corpus: Each scheme of an AIF is to have a corpus of atleast 20 crores. Manager or sponsor of the fund should have continuing interest in the form of investment of not less than: 2.50% of corpus or Rs. 5 crores, whichever is less.

Private Placement: AIFs will collect funds by private placement and issuing units of the funds of the investors. Funds are to be raised by issue of Placement Memorandum containing material information about the AIF, Investment Strategy, targeted investors etc. This PM is to be filed with SEBI atleast 30 days before the launch of the scheme.

Tenure: Category I and Category II funds must be close ended with predefined tenure subject to minimum of 3 years. Category III funds may be close ended or open ended.

Investment Conditions: Category I AIFs cannot borrow funds except for meeting temporary funding requirement. Atleast 2/3rd of the corpus of VCFs should be invested in unlisted equity shares or equity linked instruments of VCUs. SME funds should invest atleast 75% of corpus in unlisted or proposed to be listed Small and Medium Enterprises. Social Venture Funds should invest atleast 75% of corpus in unlisted securities of social ventures. Infrastructure Funds should invest atleast 75 % corpus in VCUs involved in operating, developing infrastructure project. Category II AIFs should invest primarily in unlisted investee companies or in units of other AIFs. Category III AIFs may invest in listed or unlisted investee companies or derivatives or complex products.

Valuation: Category I and III AIFs should undertake valuation of their investments every 6 months by an independent value and disclose to the investors.

Transparency: all AIFs should ensure transparency and disclose information to investors relating to risk management, fees of the manager, material liabilities, financial information of the investee companies within 180 days from year end.

Investment by an angel fund in the venture capital undertaking shall be locked-in for a period of three years. Angel funds shall not invest more than twenty-five per cent of the total investments under all its schemes in one venture capital undertaking.

VII. VENTURE CAPITAL INVESTMENTS IN INDIA: CURRENT TRENDS

Venture capitalism in India began in 1986 with the start of the economic liberalisation. In 1988, the organised venture capital industry came into being with the setting up of funds by IFCI, ICICI & UTI. Over the years, more and more investors from India and abroad, have started investing in Indian startups.

In the early stages, venture capital investments were mainly in the technology sector. However, with changing trends and advent of smartphones, companies in consumer services and consumer retail space emerged as top contenders for VC funding, attracting almost 50% of total VC investments. Other key industries included IT and IT-related services, software development, telecommunications, electronics, biotechnology and pharmaceuticals, banking and finance/insurance, public sector disinvestment, media and entertainment, and education.

2015 was year of all time high in Venture Capital Investments in India. Between January and December 2015, risk capital worth \$9 billion was invested in Indian startups across 1,005 plus deals where deal value was announced. Between 2010 and 2015, Indian startups raised \$18 billion. In contrast in 2014, total deal value stood at about \$5 billion and volumes at over 300 deals. Majority of the deals were in online and mobile categories. Firms like Flipkart, Snapdeal, Ola, Paytm, Quikr, Zomato raised about \$3billion in 2015. The top sectors are ecommerce, Food and beverages, app based cab services, mobile advertising and online classifieds.

The top investors between January and June 2015 are:

India Shining

The rise in the deals can be contributed to strong economic fundamentals, business friendly policy regime and hard working Indian founders having strong technical capabilities. The increased availability of Angel Investors who were earlier entrepreneurs themselves are also contributing to the growth of entrepreneurial talent. Moreover, increased disposable incomes of the youth are driving up consumer demand. Mobile sector continues to be the most attractive segment for investment has an ever expanding base of mobile phone users.

Startup Trends -2016

Venture Capital Investments have dropped sharply in the first quarter of 2016 to 90 as compared to 138 in the same period in 2015 according to data from risk capital data monitoring service VCCEdge. This is due to the fact that 2015 was a year of all time high with bonanza deals and huge rounds of financing. The deal surge for Indian startups began in 2014, after e-commerce firm Flipkart raised a mammoth \$1 billion in July 2014.

Investors such as Japan's Soft Bank which benefited handsomely from the Alibaba IPO, targeted Indian for spending on promising young entrepreneurs. With the valuation of Flipkart being brought down by Moody's many investors have turned cautious.

VIII. CHALLENGES FACED BY VENTURE CAPITALISTS IN INDIA

The biggest challenge facing Venture Capitalists in India is exit. The exits have been slow and return percentages have been lower as per the data from India venture Capital and Private Equity Report 2015. Data from Venture Intelligence on exits shows Deal value in the manufacturing sector slipped 28 per cent y-o-y in 2015, compared with the average growth rate of 10 per cent in the last decade. There were 229 exits in 2015, with manufacturing and BFSI topping the list with

34 exits each. One reason for poor exit performance is lack of secondary funds that buy out private investors. Also exit through IPOs have been poor. Listing requirements such as profitable track record, desired valuation and corporate governance norms make it difficult for start ups to go public and for venture capitalists to cash out their investments. There are also valuation concerns and those who are able to exit have to do so on lower valuations. Also as per the VCI, good deal flow is also a challenge. For every one deal, investors have to go through close to 300-400 deals.

IX. CONCLUSION: THE WAY AHEAD

India has one of the most attractive ecosystems in the world. The internet sector, for example, has seen large number of exits rewarding investors, albeit lingering concerns over lack of profits. Also, late-stage investors such as PE funds have averaged returns of 6 per cent (2002 to 2015). The number of mobile phone users in India is increasing exponentially which is a viable opportunity for Venture Capital Investors. However, viable exit options and valuation concerns are dampening new investors. Unless the Venture Capitalists are ready to stay for a long time and nurture the undertakings, they may have to deal with lower returns in the short run. Regulatory regime for the start ups has been relaxed with the Start Up India Campaign launched by Prime Minister Modi. Compliance based on self-certification, patent protection, tax holiday and single point start up ecosystem are the key features of this scheme. As the policy regime simplifies, the Venture Capital Industry in India has become more lucrative. Though in the first quarter of 2016, deals have slowed down as compared to last year, industry experts have categorised it as the new normal. With a consistent growth in GDP and strong economic fundamentals, India remains one of the most attractive destinations for Venture Capitals, both domestic and Foreign.

REQUEST FOR FEEDBACK

Dear Readers

At the very outset, International Journal of Research in Computer Application & Management (IJRCM) acknowledges & appreciates your efforts in showing interest in our present issue under your kind perusal.

I would like to request you to supply your critical comments and suggestions about the material published in this issue, as well as on the journal as a whole, on our e-mail **infoijrcm@gmail.com** for further improvements in the interest of research.

If you have any queries, please feel free to contact us on our e-mail infoijrcm@gmail.com.

I am sure that your feedback and deliberations would make future issues better – a result of our joint effort.

Looking forward to an appropriate consideration.

With sincere regards

Thanking you profoundly

Academically yours

Sd/-

ABOUT THE JOURNAL

In this age of Commerce, Economics, Computer, I.T. & Management and cut throat competition, a group of intellectuals felt the need to have some platform, where young and budding managers and academicians could express their views and discuss the problems among their peers. This journal was conceived with this noble intention in view. This journal has been introduced to give an opportunity for expressing refined and innovative ideas in this field. It is our humble endeavour to provide a springboard to the upcoming specialists and give a chance to know about the latest in the sphere of research and knowledge. We have taken a small step and we hope that with the active co-operation of like-minded scholars, we shall be able to serve the society with our humble efforts.
