CALL FOR MANUSCRIPTS

We invite unpublished novel, original, empirical and high quality research work pertaining to recent developments & practices in the areas of Computer Science & Applications; Commerce; Business; Finance; Marketing; Human Resource Management; General Management; Banking; Economics; Tourism Administration & Management; Education; Law; Library & Information Science; Defence & Strategic Studies; Electronic Science; Corporate Governance; Industrial Relations; and emerging paradigms in allied subjects like Accounting; Accounting Information Systems; Accounting Theory & Practice; Auditing; Behavioral Accounting; Behavioral Economics; Corporate Finance; Cost Accounting; Econometrics; Economic Development; Economic History; Financial Institutions & Markets; Financial Services; Fiscal Policy; Government & Non Profit Accounting; Industrial Organization; International Economics & Trade; International Finance; Macro Economics; Micro Economics; Rural Economics; Co-operation; Demography; Development Planning; Development Studies; Applied Economics; Development Economics; Business Economics; Monetary Policy; Public Policy Economics; Real Estate; Regional Economics; Political Science; Continuing Education; Labour Welfare; Philosophy; Psychology; Sociology; Tax Accounting; Advertising & Promotion Management; Management Information Systems (MIS); Business Law; Public Responsibility & Ethics; Communication; Direct Marketing; E-Commerce; Global Business; Health Care Administration; Labour Relations & Human Resource Management; Marketing Research; Marketing Theory & Applications; Non-Profit Organizations; Office Administration/Management; Operations Research/Statistics; Organizational Behavior & Theory; Organizational Development; Production/Operations; International Relations; Human Rights & Duties; Public Administration; Population Studies; Purchasing/Materials Management; Retailing; Sales/Selling; Services; Small Business Entrepreneurship; Strategic Management Policy; Technology/Innovation; Tourism & Hospitality; Transportation Distribution; Algorithms; Artificial Intelligence; Compilers & Translation; Computer Aided Design (CAD); Computer Aided Manufacturing; Computer Graphics; Computer Organization & Architecture; Database Structures & Systems; Discrete Structures; Internet; Management Information Systems; Modeling & Simulation; Neural Systems/Neural Networks; Numerical Analysis/Scientific Computing; Object Oriented Programming; Operating Systems; Programming Languages; Robotics; Symbolic & Formal Logic; Web Design and emerging paradigms in allied subjects.

Anybody can submit the **soft copy** of unpublished novel; original; empirical and high quality **research work/manuscript anytime** in **M.S. Word format** after preparing the same as per our **GUIDELINES FOR SUBMISSION**; at our email address i.e. infoijrcm@gmail.com or online by clicking the link **online submission** as given on our website ([FOR ONLINE SUBMISSION, CLICK HERE](#)).

GUIDELINES FOR SUBMISSION OF MANUSCRIPT

1. **COVERING LETTER FOR SUBMISSION:**

DATED: _____

THE EDITOR
IJRCM

Subject: SUBMISSION OF MANUSCRIPT IN THE AREA OF.

(e.g. Finance/Marketing/HRM/General Management/Economics/Psychology/Law/Computer/IT/Engineering/Mathematics/other, please specify)

DEAR SIR/MADAM

Please find my submission of manuscript entitled ' _____ ' for possible publication in your journals.

I hereby affirm that the contents of this manuscript are original. Furthermore, it has neither been published elsewhere in any language fully or partly, nor is it under review for publication elsewhere.

I affirm that all the author (s) have seen and agreed to the submitted version of the manuscript and their inclusion of name (s) as co-author (s).

Also, if my/our manuscript is accepted, I/We agree to comply with the formalities as given on the website of the journal & you are free to publish our contribution in any of your journals.

NAME OF CORRESPONDING AUTHOR:

Designation:
Affiliation with full address, contact numbers & Pin Code:
Residential address with Pin Code:
Mobile Number (s):
Landline Number (s):
E-mail Address:
Alternate E-mail Address:

NOTES:

- a) The whole manuscript is required to be in **ONE MS WORD FILE** only (pdf. version is liable to be rejected without any consideration), which will start from the covering letter, inside the manuscript.
- b) The sender is required to mention the following in the **SUBJECT COLUMN** of the mail:
New Manuscript for Review in the area of (Finance/Marketing/HRM/General Management/Economics/Psychology/Law/Computer/IT/Engineering/Mathematics/other, please specify)
- c) There is no need to give any text in the body of mail, except the cases where the author wishes to give any specific message w.r.t. to the manuscript.
- d) The total size of the file containing the manuscript is required to be below **500 KB**.
- e) Abstract alone will not be considered for review, and the author is required to submit the complete manuscript in the first instance.
- f) The journal gives acknowledgement w.r.t. the receipt of every email and in case of non-receipt of acknowledgment from the journal, w.r.t. the submission of manuscript, within two days of submission, the corresponding author is required to demand for the same by sending separate mail to the journal.

2. **MANUSCRIPT TITLE:** The title of the paper should be in a 12 point Calibri Font. It should be bold typed, centered and fully capitalised.

3. **AUTHOR NAME (S) & AFFILIATIONS:** The author (s) **full name, designation, affiliation (s), address, mobile/landline numbers, and email/alternate email address** should be in italic & 11-point Calibri Font. It must be centered underneath the title.

4. **ABSTRACT:** Abstract should be in fully italicized text, not exceeding 250 words. The abstract must be informative and explain the background, aims, methods, results & conclusion in a single para. Abbreviations must be mentioned in full.

5. **KEYWORDS:** Abstract must be followed by a list of keywords, subject to the maximum of five. These should be arranged in alphabetic order separated by commas and full stops at the end.
6. **MANUSCRIPT:** Manuscript must be in **BRITISH ENGLISH** prepared on a standard A4 size **PORTRAIT SETTING PAPER**. It must be prepared on a single space and single column with 1" margin set for top, bottom, left and right. It should be typed in 8 point Calibri Font with page numbers at the bottom and centre of every page. It should be free from grammatical, spelling and punctuation errors and must be thoroughly edited.
7. **HEADINGS:** All the headings should be in a 10 point Calibri Font. These must be bold-faced, aligned left and fully capitalised. Leave a blank line before each heading.
8. **SUB-HEADINGS:** All the sub-headings should be in a 8 point Calibri Font. These must be bold-faced, aligned left and fully capitalised.
9. **MAIN TEXT:** The main text should follow the following sequence:

INTRODUCTION**REVIEW OF LITERATURE****NEED/IMPORTANCE OF THE STUDY****STATEMENT OF THE PROBLEM****OBJECTIVES****HYPOTHESES****RESEARCH METHODOLOGY****RESULTS & DISCUSSION****FINDINGS****RECOMMENDATIONS/SUGGESTIONS****CONCLUSIONS****SCOPE FOR FURTHER RESEARCH****ACKNOWLEDGMENTS****REFERENCES****APPENDIX/ANNEXURE**

It should be in a 8 point Calibri Font, single spaced and justified. The manuscript should preferably not exceed **5000 WORDS**.

10. **FIGURES & TABLES:** These should be simple, crystal clear, centered, separately numbered & self explained, and **titles must be above the table/figure**. **Sources of data should be mentioned below the table/figure**. It should be ensured that the tables/figures are referred to from the main text.
11. **EQUATIONS:** These should be consecutively numbered in parentheses, horizontally centered with equation number placed at the right.
12. **REFERENCES:** The list of all references should be alphabetically arranged. The author (s) should mention only the actually utilised references in the preparation of manuscript and they are supposed to follow **Harvard Style of Referencing**. The author (s) are supposed to follow the references as per the following:
 - All works cited in the text (including sources for tables and figures) should be listed alphabetically.
 - Use (ed.) for one editor, and (ed.s) for multiple editors.
 - When listing two or more works by one author, use --- (20xx), such as after Kohl (1997), use --- (2001), etc, in chronologically ascending order.
 - Indicate (opening and closing) page numbers for articles in journals and for chapters in books.
 - The title of books and journals should be in italics. Double quotation marks are used for titles of journal articles, book chapters, dissertations, reports, working papers, unpublished material, etc.
 - For titles in a language other than English, provide an English translation in parentheses.
 - The location of endnotes within the text should be indicated by superscript numbers.

PLEASE USE THE FOLLOWING FOR STYLE AND PUNCTUATION IN REFERENCES:**BOOKS**

BANK RISK MANAGEMENT AND ROLE OF RESERVE BANK OF INDIA-A STUDY

DR. GIRISH KUMAR PAINOLI
HEAD
DEPARTMENT OF BUSINESS MANAGEMENT
VIJAY RURAL ENGINEERING COLLEGE
MNIKBHANDAR

DR. G. S. GAUD
S. A.
STATE BANK OF INDIA
NANDED

ABSTRACT

Growing competition and fast changes in the operating environment impacting the business potentials, banks are forced to encounter various kinds of financial and non-financial risks. Risk is associated with uncertainty and reflected by way of charge on the fundamental/ basic i.e. in the case of business it is the Capital, which is the cushion that protects the liability holders of an institution. The various risks that a bank is bound to tackle is divided into two categories i.e. business risks and control risks. Risk management in banking designates the entire set of risk management processes and models allowing banks to implement risk-based policies and practices. They cover all techniques and management tools required for measuring, monitoring and controlling risks. The range of models and processes extends to all risks: credit risk, market risk, interest rate risk, liquidity risk and operational risk, to mention only major areas. From the banks point of view risk based practices are so important, because banks being 'risk machines', they take risks, they transform them, and they embed them in banking products and services. For centuries bankers as well as their regulators have assessed and managed risk instinctively, without the benefit of a formal and generally accepted framework or common terms. R.B.I. is the guardian of all banks in Indian therefore its role is more promising and vital in managing the bank risk in country like India.

KEYWORDS

Risk, Banking Risk, Risk Management, Role of R.B.I.

I-INTRODUCTION OF THE STUDY

Risk, in one kind or the other, is inherent in every business. Furthermore, risk taking is essential to progress, and failure is often a key part of learning. Although some risks are inevitable, it does not mean that attempting to recognize and manage them will harm opportunities for creativity. Risks pose new challenges to every company. From employment practices to electronic commerce, from social and political pressures to the vagaries of the weather, the hazards that exist in today's business climate are as diverse as the companies that face them. Like any other business organization, banks too face risks inherent to the company and the industry in which they exist. This paper has been undertaken with the objective to critically examine the current risk management practices as directed by RBI and supervision process undertaken by RBI.

II-OBJECTIVES OF THE STUDY

1. To study the nature of bank risk
2. To study the impact of risk on banks
3. To study the risk management practices adopted by banks
4. To assess the role of Reserve Bank of India in bank risk management

III-METHODOLOGY OF THE STUDY

Present study is carried on secondary data collected from various sources i.e. annual reports, R.B.I. reports, Books, periodicals, websites etc.,

IV-RISK MANAGEMENT IN INDIAN BANKS

The banking industry has long viewed the problem of risk management as the need to control four of the given risks which make up most, if not all, of their risk exposure, viz., credit, interest rate, foreign exchange and liquidity risk. While they distinguish counterparty and legal risks, they view them as less central to their concerns. Accordingly, the study of bank risk management processes is essentially an investigation of how they manage all these risks. Irrespective of the nature of risk, the best way for banks to protect themselves is to identify the risks, accurately measure and price it, and maintain appropriate levels of reserves and capital, in both good and bad times. However, this is often easier said than done, and more often than not, mounting a holistic approach to assessing and managing the many facets of risks remains a challenging task for the financial sector

4.1- STEPS FOR IMPLEMENTATIONS OF RISK MANAGEMENT PROCESS

- **Standards and reports,**
- **Position limits or rules,**
- **Investment guidelines or strategies**
- **Incentive contract sand compensation.**

4.2- CHALLENGES FACED BY THE OPERATIONAL RISK MANAGEMENT DEPARTMENT

- Quantification of operational risk
- Reporting of the near miss events.
- Less stress on operational risk by the top management
- Less available manpower in operational risk management department

4.3- THE THREATS EXPOSED TO THE BANKS

- Competition
- Less of customers
- Volatility in the market share
- Attention
- Threat of new entrants

4.4-STRATEGIES ADAPTED BY BANKS TO OVERCOME RISKS

Integrative growth
 Intensive growth
 Downsizing older business
 Diversification

4.5- RISKS NOT ADDRESSED BY THE BANKS

- ❖ Interest rate risk in the banking book
- ❖ Settlement risk
- ❖ Reputational risk
- ❖ Strategic risk
- ❖ Legal and compliance risk
- ❖ Risk of under estimation of credit risk under the standardized approach
- ❖ Model risk
- ❖ Residual risk of securitization

V-ROLE OF RESERVE BANK OF INDIA IN BANKS RISK MANAGEMENT

Before 1950s regulation and supervision by RBI was not that stringent as the banking activity was limited to collection of deposits and issue of loans. Moreover, there was no separate comprehensive enactment for the banking sector. With the introduction of the Banking Companies Act, 1949, (later Banking Regulations Act, 1949) the scope of RBI supervision broadened over the years, necessary changes in the supervisory system have been made to meet with the new challenges emerging in the financial sector. In the wake of rapid changes in the financial sector such as emergence of Universal Banking, introduction of Securitization, integration of various markets, etc. a lot of preparations for further strengthening the supervisory mechanism is required, not only on the part of RBI but by individual banks also. World over the way financial markets are integrating day by day, risk is continuously increasing.

Since the year 1998 RBI has been giving serious attention towards evolving suitable and comprehensive models for Risk-management. It has laid stress on integrating this new discipline in the working systems of the Banks. In view of this, the risk management division in most of the banks was established in or after 1998 only. All the details regarding the risk management framework is presented by the bank in a policy document called ICAAP.

5.1-R.B.I. GUIDE LINES OF RISK MANAGEMENT FUNCTION

- ❖ organizational structure
- ❖ comprehensive risk measurement approach
- ❖ risk management policies approved by the Board which should be consistent with the broader business strategies, capital strength, management expertise and overall willingness to assume risk
- ❖ guidelines and other parameters used to govern risk taking including detailed structure of prudential limits
- ❖ strong MIS for reporting, monitoring and controlling risks
- ❖ well laid out procedures, effective control and comprehensive risk reporting framework
- ❖ separate risk management framework independent of operational Departments and with clear delineation of levels of responsibility for management of risk
- ❖ Periodical review and evaluation
- ❖ RBI follows a carrot and stick system for implementation of Risk Management and Supervisory controls in Banks.
- ❖ The approach is expected to optimize utilization of supervisory resources.
- ❖ It is to minimize impact of crisis situation in the financial system.
- ❖ Building of a Risk Matrix for each institution.
- ❖ Continuous monitoring & evaluation of risk profile of the supervised institutions.
- ❖ Facilitates implementation of new capital adequacy frame work
- ❖ RBI follows a carrot and stick system for implementation of Risk Management and Supervisory controls in Banks.
- ❖ The approach is expected to optimize utilization of supervisory resources.
- ❖ It is to minimize impact of crisis situation in the financial system.
- ❖ Construction of a Risk Matrix for each institution.
- ❖ Continuous monitoring & evaluation of risk profile of the supervised institutions.
- ❖ Facilitates implementation of new capital adequacy frame work

VI-FINDINGS

- The banks have been making progress in the area of Asset Liability Management. But they are still far from achieving the level, which has been attained in banks abroad.
- All of the banks have set up ALM function and established the requisite organizational framework consisting of the ALCO and the support groups.
- Banks have also made an attempt to integrate ALM and management of other risks to facilitate integrated risk management.
- Banks are grievance with the regulatory requirements of the RBI regarding the preparation of statements.
- Many of them have also achieved 100% coverage of business by ALM.
- Private Banks and foreign banks have made the most progress.
- The number of branches in banks are huge and the level of computerization is low
- Limited use of advanced techniques of ALM and the adoption of sophisticated ALM specific software. Such Absence of a good control framework for ALM
- Banks have also not established any way of measuring the performance of ALM function or conducted any studies about impact of ALM.
- Training of staff is inadequate.
- Articulation of the interest rate view is quite difficult.
- Many of the banks have instituted ALM in order to comply with RBI guidelines and have not adopted the spirit of the guidelines.
- Some of the banks have not laid down clear policies and have failed to establish a hierarchy of objectives.
- Some of the banks also provide their ALCO with a large amount of information rather than specific analytical reports.
- The reason as why targets set for loans have not reached by banks include:
- Projects Placed were not Feasible or Risky in the Respective Category
- Inadequate Security Provided by the Borrowers
- Large No. of Borrowers Whose Credit Worthiness is not Satisfactory
- Fear of Non Performing Assets.
- Availability of Government Securities in the Market at Large scale
- Possible fall in the Interest rates in Future and thus building up a better portfolio as of tomorrow
- Investments give maximum contend, as Risk is reduced very much as compared to that of loans and Advances
- There is at least an amount of satisfaction that some Income may be leaped with least or no risk at all

VII-CONCLUSION

The risk management arrangement followed at all banks is a blend of centralized and decentralized form. Though risk department forms the heart of the organization because if it fails the bank will gasp for breath. But this department is a victim of ignorance in today's scenario. After observations it was found that the banks have lowest number of workforce assigned to this department. Within the department, maximum stress is given to credit risk and other risks are still neglected. The bank does not have sufficient skill set for driving risk management function

RBI, keeping in view international best practices has already taken certain initiatives in this regard and there is a proposal to initiate shortly, the system of Consolidated Supervision too, along with Risk Based Supervision. The impact on bank's key ratios due to banking supervision reveals good results and walking on the same range few issues can be stressed upon like technology up gradation, corporate governance, market intelligence etc. ***In short there is a need of a perfect role to be played by R.B.I. in managing the bank risk so that risk of bank can be restricted from spreading towards other components of financial mechanism at the same time promising policy making and implementation is needed from central government***

REQUEST FOR FEEDBACK

Dear Readers

At the very outset, International Journal of Research in Commerce, Economics and Management (IJRCM) acknowledges & appreciates your efforts in showing interest in our present issue under your kind perusal.

I would like to request you to supply your critical comments and suggestions about the material published in this issue as well as on the journal as a whole, on our E-mail info@ijrcm.org.in for further improvements in the interest of research.

If you have any queries please feel free to contact us on our E-mail infoijrcm@gmail.com.

I am sure that your feedback and deliberations would make future issues better – a result of our joint effort.

Looking forward an appropriate consideration.

With sincere regards

Thanking you profoundly

Academically yours

Sd/-

Co-ordinator

ABOUT THE JOURNAL

In this age of Commerce, Economics, Computer, I.T. & Management and cut throat competition, a group of intellectuals felt the need to have some platform, where young and budding managers and academicians could express their views and discuss the problems among their peers. This journal was conceived with this noble intention in view. This journal has been introduced to give an opportunity for expressing refined and innovative ideas in this field. It is our humble endeavour to provide a springboard to the upcoming specialists and give a chance to know about the latest in the sphere of research and knowledge. We have taken a small step and we hope that with the active co-operation of like-minded scholars, we shall be able to serve the society with our humble efforts.
