NOTES:

- a) The whole manuscript has to be in **ONE MS WORD FILE** only, which will start from the covering letter, inside the manuscript. <u>pdf.</u> <u>version</u> is liable to be rejected without any consideration.
- b) The sender is required to mention the following in the SUBJECT COLUMN of the mail:
 - **New Manuscript for Review in the area of** (e.g. Finance/Marketing/HRM/General Mgt./Engineering/Economics/Computer/IT/ Education/Psychology/Law/Math/other, please specify)
- c) There is no need to give any text in the body of the mail, except the cases where the author wishes to give any **specific message** w.r.t. to the manuscript.
- d) The total size of the file containing the manuscript is expected to be below 1000 KB.
- e) Only the Abstract will not be considered for review and the author is required to submit the complete manuscript in the first instance.
- f) The journal gives acknowledgement w.r.t. the receipt of every email within twenty-four hours and in case of non-receipt of acknowledgment from the journal, w.r.t. the submission of the manuscript, within two days of its submission, the corresponding author is required to demand for the same by sending a separate mail to the journal.
- g) The author (s) name or details should not appear anywhere on the body of the manuscript, except on the covering letter and the cover page of the manuscript, in the manner as mentioned in the guidelines.
- 2. MANUSCRIPT TITLE: The title of the paper should be typed in **bold letters**, **centered** and **fully capitalised**.
- 3. AUTHOR NAME (S) & AFFILIATIONS: Author (s) name, designation, affiliation (s), address, mobile/landline number (s), and email/alternate email address should be given underneath the title.
- 4. ACKNOWLEDGMENTS: Acknowledgements can be given to reviewers, guides, funding institutions, etc., if any.
- 5. **ABSTRACT:** Abstract should be in **fully Italic printing**, ranging between **150** to **300 words**. The abstract must be informative and elucidating the background, aims, methods, results & conclusion in a **SINGLE PARA**. **Abbreviations must be mentioned in full**.
- 6. **KEYWORDS**: Abstract must be followed by a list of keywords, subject to the maximum of **five**. These should be arranged in alphabetic order separated by commas and full stop at the end. All words of the keywords, including the first one should be in small letters, except special words e.g. name of the Countries, abbreviations etc.
- 7. **JEL CODE**: Provide the appropriate Journal of Economic Literature Classification System code (s). JEL codes are available at www.aea-web.org/econlit/jelCodes.php. However, mentioning of JEL Code is not mandatory.
- 8. **MANUSCRIPT**: Manuscript must be in <u>BRITISH ENGLISH</u> prepared on a standard A4 size <u>PORTRAIT SETTING PAPER</u>. It should be free from any errors i.e. grammatical, spelling or punctuation. It must be thoroughly edited at your end.
- 9. HEADINGS: All the headings must be bold-faced, aligned left and fully capitalised. Leave a blank line before each heading.
- SUB-HEADINGS: All the sub-headings must be bold-faced, aligned left and fully capitalised.
- 11. MAIN TEXT:

THE MAIN TEXT SHOULD FOLLOW THE FOLLOWING SEQUENCE:

INTRODUCTION

REVIEW OF LITERATURE

NEED/IMPORTANCE OF THE STUDY

STATEMENT OF THE PROBLEM

OBJECTIVES

HYPOTHESIS (ES)

RESEARCH METHODOLOGY

RESULTS & DISCUSSION

FINDINGS

RECOMMENDATIONS/SUGGESTIONS

CONCLUSIONS

LIMITATIONS

SCOPE FOR FURTHER RESEARCH

REFERENCES

APPENDIX/ANNEXURE

The manuscript should preferably be in 2000 to 5000 WORDS. But the limits can vary depending on the nature of the manuscript.

- 12. **FIGURES & TABLES**: These should be simple, crystal **CLEAR**, **centered**, **separately numbered** & self-explained, and the **titles must be above the table/figure**. **Sources of data should be mentioned below the table/figure**. *It should be ensured that the tables/figures are referred to from the main text*.
- 13. **EQUATIONS/FORMULAE**: These should be consecutively numbered in parenthesis, left aligned with equation/formulae number placed at the right. The equation editor provided with standard versions of Microsoft Word may be utilised. If any other equation editor is utilised, author must confirm that these equations may be viewed and edited in versions of Microsoft Office that does not have the editor.
- 14. ACRONYMS: These should not be used in the abstract. The use of acronyms is elsewhere is acceptable. Acronyms should be defined on its first use in each section e.g. Reserve Bank of India (RBI). Acronyms should be redefined on first use in subsequent sections.
- 15. **REFERENCES**: The list of all references should be alphabetically arranged. *The author (s) should mention only the actually utilised references in the preparation of manuscript* and they may follow Harvard Style of Referencing. Also check to ensure that everything that you are including in the reference section is duly cited in the paper. The author (s) are supposed to follow the references as per the following:
- All works cited in the text (including sources for tables and figures) should be listed alphabetically.
- Use (ed.) for one editor, and (ed.s) for multiple editors.
- When listing two or more works by one author, use --- (20xx), such as after Kohl (1997), use --- (2001), etc., in chronologically ascending
 order.
- Indicate (opening and closing) page numbers for articles in journals and for chapters in books.
- The title of books and journals should be in italic printing. Double quotation marks are used for titles of journal articles, book chapters, dissertations, reports, working papers, unpublished material, etc.
- For titles in a language other than English, provide an English translation in parenthesis.
- Headers, footers, endnotes and footnotes should not be used in the document. However, you can mention short notes to elucidate some specific point, which may be placed in number orders before the references.

PLEASE USE THE FOLLOWING FOR STYLE AND PUNCTUATION IN REFERENCES:

ABSTRACT

Today Indian Banks are as technology savvy as their counter parts in developed countries. The banking sector plays an important role in the economic development of a country. It supplies the lifeblood —money that supports and fosters growth in all the industries. FDI is a tool for economic growth through its strengthening of domestic capital, productivity and employment. FDI also plays a vital role in the up gradation of technology, skills and managerial capabilities in various sectors of the economy. Foreign Direct Investment as seen as an important source of non-debt inflows and is increasing being sought as a vehicle for technology flows and as a means of attaining competitive efficiency by creating a meaningful network of global inter-connections. This paper discusses the FDI Equity inflows in Service Sector in India and also highlights the top countries which are investing in the Service Sector in the form of FDI. In this paper an attempt is made to present the FDI inflows in sub sectors of Service Sector. Further, this paper also analyzes the FDI inflows in Banking Sector from January, 2000 to June, 2015.

KEYWORDS

Indian economy, foreign direct investment, service sector, banking sector, fdi equity inflows, lpg, global market.

INTRODUCTION

oday Indian Banks are as technology savvy as their counter parts in developed countries. The competitive and reform force have led to the emergence of internet, e-banking, ATM, credit card and mobile banking too, in order to attract and retain the customers by bank. As a result of Liberalization, Privatization and Globalization mode, Indian banks going global and many global banks setting up business in India, the Indian banking system is set to involve into a totally new level it will help the banking system grow in strength going into the future.

The banking sector plays an important role in the economic development of a country. It supplies the lifeblood –money that supports and fosters growth in all the industries. True, monetary resources per se, cannot ensure business success, which requires competencies on several other fronts, including technology, availability of skilled manpower, well-managed structure and a well-executed competitive strategy.

FDI is a tool for economic growth through its strengthening of domestic capital, productivity and employment. FDI also plays a vital role in the up gradation of technology, skills and managerial capabilities in various sectors of the economy.

Foreign Direct Investment as seen as an important source of non-debt inflows and is increasing being sought as a vehicle for technology flows and as a means of attaining competitive efficiency by creating a meaningful network of global interconnections.

FDI plays a vital role in the economy because it does not only provide opportunities to host countries to enhance their economic development but also opens new vistas to home countries to optimize their earnings by employing their ideal resources.

According to the 2015 World Investment Report released by the United Nation's Conference on Trade and Development (UNCTAD), of 179 major global companies surveyed, India is considered to be the third most-preferred investment destination after China and the United States.

FOREIGN DIRECT INVESTMENT

A. Definition

International Monetary Fund (IMF) and Organization for Economic Cooperation and Development (OECD) define FDI similarly as a category of cross border investment made by a resident in one economy (the direct investor) with the objective of establishing a 'lasting interest' in an enterprise (the direct investment enterprise) that is resident in an economy other than that of the direct investor. The motivation of the direct investor is a strategic long term relationship with the direct investment enterprise to ensure the significant degree of influence by the direct investor in the management of the direct investment enterprise.

B. Components of FDI

There are three components of FDI, namely, equity capital, reinvested earnings and intra company loans

- 1. Equity capital is the foreign direct investor's purchase of shares of an enterprise in a country other than his own country.
- 2. Reinvested earnings comprise the direct investor's share (in proportion to direct equity participation) if earnings not distributed as dividends by affiliated or earnings not remitted to the direct investor. Such retained profits by affiliates are reinvested.
- 3. Intra company loans or intra-company debt transactions refer to short or long term borrowing and lending of funds between direct investors (parent enterprises) and affiliate enterprises.

FDI in banking sector can solve various problems of the overall banking sector. Such as:

- 1. Innovative Financial Products
- 2. Technical Developments in the Foreign Markets
- 3. Problem of Inefficient Management
- 4. Non-performing Assets
- 5. Financial Instability
- 6. Poor Capitalization

If we take into consideration the root cause of these problems, the reason is low-capital base and all the problems are the outcome of the transactions carried over in a bank without a substantial capital base. In a nutshell, we can say that, as the FDI is a non-debt inflow, which will directly solve the problem of capital

C. Benefits of FDI

Technology Transfer: As due to the globalization local banks are competing in the global market, where Innovative financial products of multinational banks is the key limiting factor in the development of local bank. They are trying to keep pace with the technological development in the banks. Now a day's banks have been

prominent and prudent in the rapid expansion of consumer lending in domestic as well as in foreign markets. It needs appropriate tools to assess (how such credit is managed) credit management of the banks and authorities in charge of financial stability. It may need additional information and techniques to monitor for financial vulnerabilities. FDI's tech transfers, information sharing, training programs and other forms of technical assistance may help meet this need.

Better Risk Management: As the banks are expanding their area of operation, there is a need to change their strategies exerts competitive pressures and demonstration effect on local institutions, often including them to reassess business practices, including local lending practices as the whole banking sector is crying for a strategic policy for risk management. Through FDI, the host countries will know efficient management technique. The best example is Basel II. Most of the banks are opting Base II for making their financial system safer.

Financial Stability and Better Capitalization: Host countries may benefit immediately. From foreign entry, if the foreign bank re capitalize a struggling local institution. In the process also provides needed balance of payment finance. In general; more efficient allocation of credit in the financial sector, better capitalization and wider diversification of foreign banks along with the access of local operations to parent funding, may reduce the sensitivity of the host country banking system and lead towards financial stability.

D. FDI in Indian banks

The traditional argument against foreign equity participation in domestic companies is that these businesses often involve national and strategic interests and therefore, operational and strategic control must be retained to prevent a take-over or a buyout [Lam (1997)]. Until 1993, most Indian banks were 100 percent owned by the central government and private investment was allowed only in a handful of private banks formed around the 1940s. Further, foreign banks and financial institutions were allowed only 20 percent ownership stakes in Indian banks. In 1993-94, nine new banks were formed in the private sector and one cooperative bank was converted to a private bank. Banks were permitted to issue Certificates of Deposits (CDs) and offer foreign currency deposits to Non-resident Indians (NRIs) with exchange rate risk borne by the banks.

A major push towards liberalization occurred in 1995-96 when India committed to the World Trade Organization (WTO) recommendations and relaxed the requirement to continue shielding the priority sector from foreign equity participation. For the next five years, changes in the banking sector mainly aimed at allowing banks more flexibility in the design and marketing of products.

E. Ceiling on FDI in Indian banks

In the private banking sector of India, FDI is allowed up to a maximum limit of 74 % of the paid-up capital of the bank. On the other hand, Foreign Direct Investment and Portfolio Investment in the public or nationalized banks in India are subjected to a limit of 20 % in totality. This ceiling is also applicable to the investments in the State Bank of India and its associate banks. FDI limits in the banking sector of India were increased with the aim to bring in more FDI inflows in the country along with the incorporation of advanced technology and management practices. The objective was to make the Indian banking sector more competitive.

REVIEW OF LITERATURE

- 1. C.P. Chandrasekhar and Jayati Ghosh (2002) have pointed out that an important objective of promoting FDI has been to promote efficiency in production and increase exports. However, any increase in the equity stake of the foreign investors in existing joint ventures or purchase of a share of equity by them in domestic firms would not automatically change the orientation of the firm. That is, "the aim of such FDI investors would be to benefit from the profit earned in the Indian market".
- 2. Laghane B.K (2011) empirically examined the impact of FDI model on borrower account, bank branches, time deposits and profitability of domestic and foreign banks. In the study, he suggested that FDI must be considered in poverty reduction, unemployment reduction and primary education and priority sectors of banking. Finally, he concluded that the LPG sponsored FDI model's impact on foreign banks and Indian bank's profitability is positive. The impact of FDI on Indian banking sector is negative except profitability.
- 3. Kunal Badade & Medha katkar (2011) have studied that India has sought to increase inflows of FDI with a much liberal policy since 1991 after decade cautious attitude. The 1990's have witnessed a sustained rise in annual inflows to India. They rightly pointed out that the present scenario looks more closely at the paradigm of exponential growth and laments that India's role as an engine for global growth has been limited by the still relatively closed nature of its economy.

OBJECTIVES OF THE STUDY

- To present the Foreign Direct Investment inflows in Banking Sector.
- 2. To study and analyze the Foreign Direct Investment inflows in Service Sector.

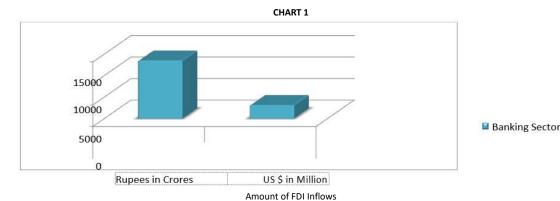

RESEARCH METHODOLOGY

This is a Descriptive as well as Analytical type of research in nature. This study is purely based on secondary data. The secondary data was collected from various sources such as Journals, Articles, RBI publications, Ministry of Finance publications, Department of Industrial Policy& Promotion publications, SIA newsletter, Online database of FDI and Newspapers etc. Data was analyzed by using statistical tools such as Averages, Percentages, Tables, Charts and Diagrams wherever necessary.

CHART 2: FDI EQUITY INFLOWS IN BANKING SECTOR (From Jan, 2013 to June, 2015)

It is evident from the Table-5 and Chart-5 that the Banking Sector received FDI Equity inflows during period from January to December, 2012 was an amount of Rs. 147.15 crores (US \$ 28.88 million) which account for 0.10 per cent of total FDI inflows and 0.56 per cent in total Service Sector FDI inflows in terms of US \$. Banking Sector received Rs. 251.53 crores (US \$ 46.25 million) in the form of FDI that account for 0.20 per cent of total FDI and 0.99 per cent of Service Sector FDI inflows.

When compared to Jan-Dec, 2013, FDI inflows in Banking Sector increased by 41.49 per cent for the same period in 2014. Rs. 1702.13 crores (US \$ 2.72 million) of FDI inflows received during period from January to June, 2015 which account for 2.72 per cent of total FDI inflows and 17.06 per cent of total Service Sector FDI inflows in Banking Sector. It is very clear from the above discussion that the FDI Equity Inflows in Banking Sector have been increasing year by year.

FINDINGS

- India is considered to be the Third most preferred investment destination in the world after China and United States.

ABOUT THE JOURNAL

In this age of Commerce, Economics, Computer, I.T. & Management and cut throat competition, a group of intellectuals felt the need to have some platform, where young and budding managers and academicians could express their views and discuss the problems among their peers. This journal was conceived with this noble intention in view. This journal has been introduced to give an opportunity for expressing refined and innovative ideas in this field. It is our humble endeavour to provide a springboard to the upcoming specialists and give a chance to know about the latest in the sphere of research and knowledge. We have taken a small step and we hope that with the active cooperation of like-minded scholars, we shall be able to serve the society with our humble efforts.
