DEAR SIR/MADAM

Please find my submission of manuscript entitled ' _____ ' for possible publication in one of your journals.

I hereby affirm that the contents of this manuscript are original. Furthermore, it has neither been published elsewhere in any language fully or partly, nor is it under review for publication elsewhere.

I affirm that all the co-authors of this manuscript have seen the submitted version of the manuscript and have agreed to their inclusion of names as co-authors.

Also, if my/our manuscript is accepted, I agree to comply with the formalities as given on the website of the journal. The Journal has discretion to publish our contribution in any of its journals.

NAME OF CORRESPONDING AUTHOR :

Designation :

Institution/College/University with full address & Pin Code :

Residential address with Pin Code :

Mobile Number (s) with country ISD code :

Is WhatsApp or Viber active on your above noted Mobile Number (Yes/No) :

Landline Number (s) with country ISD code :

E-mail Address :

Alternate E-mail Address :

Nationality :

NOTES:

- a) The whole manuscript has to be in **ONE MS WORD FILE** only, which will start from the covering letter, inside the manuscript. **pdf. version is liable to be rejected without any consideration.**
- b) The sender is required to mention the following in the **SUBJECT COLUMN of the mail:**
New Manuscript for Review in the area of (e.g. Finance/Marketing/HRM/General Mgt./Engineering/Economics/Computer/IT/ Education/Psychology/Law/Math/other, please specify)
- c) There is no need to give any text in the body of mail, except the cases where the author wishes to give any **specific message w.r.t.** to the manuscript.
- d) The total size of the file containing the manuscript is expected to be below **1000 KB**.
- e) **Abstract alone will not be considered for review** and the author is required to submit the **complete manuscript** in the first instance.
- f) **The journal gives acknowledgement w.r.t. the receipt of every email within twenty four hours** and in case of non-receipt of acknowledgement from the journal, w.r.t. the submission of manuscript, within two days of submission, the corresponding author is required to demand for the same by sending a separate mail to the journal.
- g) The author (s) name or details should not appear anywhere on the body of the manuscript, except the covering letter and the cover page of the manuscript, in the manner as mentioned in the guidelines.

2. **MANUSCRIPT TITLE:** The title of the paper should be **bold typed, centered and fully capitalised**.
3. **AUTHOR NAME (S) & AFFILIATIONS:** Author (s) **name, designation, affiliation (s), address, mobile/landline number (s), and email/alternate email address** should be given underneath the title.
4. **ACKNOWLEDGMENTS:** Acknowledgements can be given to reviewers, guides, funding institutions, etc., if any.
5. **ABSTRACT:** Abstract should be in **fully italicized text**, ranging between **150 to 300 words**. The abstract must be informative and explain the background, aims, methods, results & conclusion in a **SINGLE PARA**. **Abbreviations must be mentioned in full.**
6. **KEYWORDS:** Abstract must be followed by a list of keywords, subject to the maximum of **five**. These should be arranged in alphabetic order separated by commas and full stop at the end. All words of the keywords, including the first one should be in small letters, except special words e.g. name of the Countries, abbreviations.
7. **JEL CODE:** Provide the appropriate Journal of Economic Literature Classification System code (s). JEL codes are available at www.aeaweb.org/econlit/jelCodes.php, however, mentioning JEL Code is not mandatory.
8. **MANUSCRIPT:** Manuscript must be in **BRITISH ENGLISH** prepared on a standard A4 size **PORTRAIT SETTING PAPER**. **It should be free from any errors i.e. grammatical, spelling or punctuation. It must be thoroughly edited at your end.**
9. **HEADINGS:** All the headings must be bold-faced, aligned left and fully capitalised. Leave a blank line before each heading.
10. **SUB-HEADINGS:** All the sub-headings must be bold-faced, aligned left and fully capitalised.
11. **MAIN TEXT:**

THE MAIN TEXT SHOULD FOLLOW THE FOLLOWING SEQUENCE:**INTRODUCTION****REVIEW OF LITERATURE****NEED/IMPORTANCE OF THE STUDY****STATEMENT OF THE PROBLEM****OBJECTIVES****HYPOTHESIS (ES)****RESEARCH METHODOLOGY****RESULTS & DISCUSSION****FINDINGS****RECOMMENDATIONS/SUGGESTIONS****CONCLUSIONS****LIMITATIONS****SCOPE FOR FURTHER RESEARCH****REFERENCES****APPENDIX/ANNEXURE****The manuscript should preferably range from 2000 to 5000 WORDS.**

12. **FIGURES & TABLES:** These should be simple, crystal **CLEAR, centered, separately numbered** & self explained, and **titles must be above the table/figure. Sources of data should be mentioned below the table/figure. It should be ensured that the tables/figures are referred to from the main text.**
13. **EQUATIONS/FORMULAE:** These should be consecutively numbered in parenthesis, horizontally centered with equation/formulae number placed at the right. The equation editor provided with standard versions of Microsoft Word should be utilised. If any other equation editor is utilised, author must confirm that these equations may be viewed and edited in versions of Microsoft Office that does not have the editor.
14. **ACRONYMS:** These should not be used in the abstract. The use of acronyms is elsewhere is acceptable. Acronyms should be defined on its first use in each section: Reserve Bank of India (RBI). Acronyms should be redefined on first use in subsequent sections.
15. **REFERENCES:** The list of all references should be alphabetically arranged. **The author (s) should mention only the actually utilised references in the preparation of manuscript** and they are supposed to follow Harvard Style of Referencing. **Also check to make sure that everything that you are including in the reference section is duly cited in the paper.** The author (s) are supposed to follow the references as per the following:
 - All works cited in the text (including sources for tables and figures) should be listed alphabetically.
 - Use (ed.) for one editor, and (ed.s) for multiple editors.
 - When listing two or more works by one author, use --- (20xx), such as after Kohl (1997), use --- (2001), etc, in chronologically ascending order.
 - Indicate (opening and closing) page numbers for articles in journals and for chapters in books.
 - The title of books and journals should be in italics. Double quotation marks are used for titles of journal articles, book chapters, dissertations, reports, working papers, unpublished material, etc.
 - For titles in a language other than English, provide an English translation in parenthesis.
 - **Headers, footers, endnotes and footnotes should not be used in the document.** However, **you can mention short notes to elucidate some specific point**, which may be placed in number orders after the references.

ABSTRACT

The present study was conducted to check the level of political awareness and correlation between education and Political awareness among the Muslim students of Almora town. The Muslim area of the town has been selected purposely. Data has been collected by the convenience sampling technique from 39 respondents with the help of self made tool questionnaire. During this study it was found that there is a difference in the level of political awareness, among respondents and when we classify the respondents on the basis of Gender it was found girls are more aware than boys. In this study we also found that there is a correlation between education and the political awareness. From 12th to Graduation political awareness increases however it remains constant from Graduation to P.G. The study can be helpful to the Govt. in formulating the incentives for addressing the problems of poor political awareness among the Muslims in India.

KEYWORDS

Muslim, students, Political, awareness, education, Almora, town.

INTRODUCTION

Islam is the second largest religion in India after Hinduism. According to the 2011 census the population of Muslims in India is 14.88%. As per the Sachar committee findings (2006) the socio- economic conditions of this community presents a dismal picture and education is the grave concern of the Indian Muslims. The report further says that the status of Indian Muslims is below the conditions of Scheduled castes and Scheduled tribes. Their representation in different government sectors is very low therefore on the recommendations of this report the UPA -1 led by former Prime Minister Shri Manmohan Singh takes some steps for the upliftment of this community. Different welfare programmes were introduced like Prime Ministers 15 points programme, minority scholarships and skill development programmes. The poor political awareness among Muslims has been the major issue in accessing Govt. schemes. (K. Rahman Khan 20/12/2014)

NEED OF THE STUDY

Muslims are second largest population after Hindus in our Country. It is very important for the Muslims to be politically aware because there are various programmes run by the Govt. of India for the development of Muslim Students. The programme of Govt becomes successful only when people are aware about the particular Programme therefore it is necessary to check the political awareness among the Muslim students because if they are aware then these Govt. Programmes are successful.

MEANING

For the proper Meaning and understanding of political awareness we must first understand the word awareness. The word awareness means to have knowledge about something for example as something means university so awareness about University means to know all about the particular University. So it is clear that political awareness means to know about the political process prevailing in the country as the solid democracy needs a politically aware people who can be capable to differentiate the policies of the main political parties. The politically aware people play a vital role in the political, socio development in the country.

IMPORTANCE

Political awareness affects every aspect of citizen's attitude. (Zaller 1990)

- To be political aware is very important for the Socio- economic development. In the democracy the ultimate power lies in the hands of people. The decision making is the fundamental activity of the Government. These Govt. decisions affects the people at a huge level, the effect depends on the nature of decision so if the people are politically aware they can make difference between the good and bad decisions.
- The politically aware people have an idea the qualities of good leader ship.
- Politically aware people know how to use the vote.
- Politically aware people know about the programmes and schemes run by the government.

FACTORS THAT AFFECT THE POLITICAL AWARENESS OF A PERSON

The main factors which directly affect the political awareness of the person are:-

EDUCATION

Education plays a vital role in political awareness of the person because an educated person analyse the policies, decisions of the government very effectively. Political awareness among Dalits, a study of Block in Haryana reported that those citizens who are educated have high level of political awareness than those who are uneducated.

POVERTY

Poverty is also another factor that affects the political awareness of a person as high level of political awareness are seen in those citizens who have much income as compared who are poor (S. Ravindra and S. Ram 2013) The poor people did not have too much time to discuss the political problems as he remains busy in earning their livelihood.

TOPOGRAPHY OF THE AREA

Topography too play an important role in political awareness of a person as those people are more aware who have availability of information in the form of news papers, internet facility easy connectivity to cities as compared to those who don't have these facilities available.

SOCIAL NETWORKING SITES

Face- book and Twitter increase political awareness in authoritarian regimes(Ora John and David Szakonyi 2013) Social media has power to change the thinking about politics in the way political parties compaign (K. Rajalakshmi and C. Velayutham 2014). Therefore it is clear that social media plays a significant role in political awareness of the person. There is a lot of information in the form of different pages on the face- book created by different political parties who every day share their political ideas on different issues of the world. During the year of 2009 and 2014 assembly elections the main national political parties of India BJP and Congress use social media as a part of election compaign in order to attract the young audience.

OBJECTIVES OF STUDY

- To study the level of Political awareness among the Muslim students.
- To study the correlation between the level of education and Political awareness among Muslim students.

SIGNIFICANCE OF THE STUDY

The study can be helpful for the state Govt. in formulating the better policies and Programmes in order to address the problems of poor Political awareness among the Muslim community in India.

RESEARCH METHODOLOGY**AREA OF STUDY**

The Almora is one of the districts of newly formed state Uttarakhand. It is spreaded over an area of 5385.00sq.Kms and is situated at Lat 29.5972'N and long 79.6570'E. According to the census of 2011 the population of this district is 621927 out of which the Muslim Population is 7283 which constitutes 1.15%.

UNIVERSE OF THE STUDY

The study was carried out in the Almora town of Uttarakhand, India.

POPULATION

The population of the present study were the 12th, Graduate and Post Graduate Muslim Students of Almora town.

SAMPLE AND SAMPLING TECHNIQUE

The Present study is an empirical; The Muslim areas were selected purposely as these areas are (Niyaa ganj, Karbelaa, Dharaanaula and Khan- Molalla) from these areas the respondents were selected by convenience sampling technique.

TOOL USED FOR THE COLLECTION OF PRIMARY DATA

A self made close ended tool was administered for the purpose of collection of primary data. The tool has been distributed among the respondents usually males and females in order to get first hand data. In the tool, two point scales was employed to determine scores where respondents were asked to rate each attribute on Yes or No as the percentage of responses is shown in the following figure:

**DATA ANALYSES METHOD**

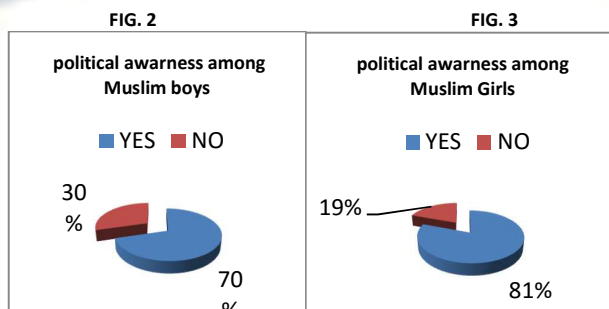

In present study, Percentage method is used to analyse the data. The data have been analysed on the bases of three fold classification of the respondents.

ANALYSIS

First the awareness is seen as in whole as shown in the following figure:

Then the data has been classified on the bases of gender means the respondents has classified into boys and girls shown in the following figures:

On the bases of level of education the respondents are classified on three categories as Intermediate, Graduation and Post Graduation as shown in the following figures:

FINDINGS

Data has been analysed on the bases of percentages and results therefore discussed below:-

1. POLITICAL AWARENESS ON THE BASES OF GENDER

It is clear from the fig. 1 that 70% of male respondents are aware while as 30% are unaware, And among female respondents as shown in fig.2 that 81% of female respondents are aware and 19% are unaware.

2. POLITICAL AWARENESS ON THE BASES OF EDUCATION

A. Political awareness of 12th class Muslim students

It is evident from the fig. 4 that 68% students are aware and 32% students are unaware.

B. Political awareness of Muslim Graduate students

It is clear from fig. 5 that 81% of Graduate Muslim respondents have a political awareness while as 19 % of respondents are unaware.

C. Political awareness among P.G. Muslim students:-

The fig. 6 shows that 80% of respondents are politically aware while as 20% of respondents are not aware.

On comparing boys and girls it was found that girls have more political awareness 81% than boys as boys have 76%.

It is found there is correlation between level of education and Political awareness as present study shows that the political awareness increases from 12th to graduation and from graduation it remains constant it may because in PG the students focuses on the concerned subject in which he/she are doing P. G.

CONCLUSION

On basis of data analyses and findings it may be concluded that there is a difference in the level of Political awareness among boys and girls. And on comparing the level of political awareness of boys and girls it is found that girl's are more aware than boys. And further the political awareness of the respondents is correlated with the level of Education as the political awareness increases from 12th to Graduation however it remains constant from graduation to P.G. It may be because in P.G, the students focus on Masters Course very deeply so their level of political awareness did not increase with the level of education and from 12th to graduation there is a combination of different subjects which may be the main cause that political awareness increases from 12th to graduation.

SUGGESTIONS

- Special programmes should be organised for the political awareness for the Muslim Community.
- A guide line should be framed by the Govt. that basic political education should be given in Madarsas.
- Monthly or weekly courses should be organised by the govt. for the political awareness of the Muslim community.
- NGOS should come forward in order to give basic education regarding the developmental programmes run by Govt. of India for the welfare of this community

REQUEST FOR FEEDBACK

Dear Readers

At the very outset, International Journal of Research in Commerce, IT & Management (IJRCM) acknowledges & appreciates your efforts in showing interest in our present issue under your kind perusal.

I would like to request you to supply your critical comments and suggestions about the material published in this issue as well as on the journal as a whole, on our E-mail infoijrcm@gmail.com for further improvements in the interest of research.

If you have any queries please feel free to contact us on our E-mail infoijrcm@gmail.com.

I am sure that your feedback and deliberations would make future issues better – a result of our joint effort.

Looking forward an appropriate consideration.

With sincere regards

Thanking you profoundly

Academically yours

ABOUT THE JOURNAL

In this age of Commerce, Economics, Computer, I.T. & Management and cut throat competition, a group of intellectuals felt the need to have some platform, where young and budding managers and academicians could express their views and discuss the problems among their peers. This journal was conceived with this noble intention in view. This journal has been introduced to give an opportunity for expressing refined and innovative ideas in this field. It is our humble endeavour to provide a springboard to the upcoming specialists and give a chance to know about the latest in the sphere of research and knowledge. We have taken a small step and we hope that with the active co-operation of like-minded scholars, we shall be able to serve the society with our humble efforts.
