CALL FOR MANUSCRIPTS

We invite unpublished novel, original, empirical and high quality research work pertaining to recent developments & practices in the area of Computer, Business, Finance, Marketing, Human Resource Management, General Management, Banking, Insurance, Corporate Governance and emerging paradigms in allied subjects like Accounting Education; Accounting Information Systems; Accounting Theory & Practice; Auditing; Behavioral Accounting; Behavioral Economics; Corporate Finance; Cost Accounting; Econometrics; Economic Development; Economic History; Financial Institutions & Markets; Financial Services; Fiscal Policy; Government & Non Profit Accounting; Industrial Organization; International Economics & Trade; International Finance; Macro Economics; Micro Economics; Monetary Policy; Portfolio & Security Analysis; Public Policy Economics; Real Estate; Regional Economics; Tax Accounting; Advertising & Promotion Management; Business Education; Business Information Systems (MIS); Business Law, Public Responsibility & Ethics; Communication; Direct Marketing; E-Commerce; Global Business; Health Care Administration; Labor Relations & Human Resource Management; Marketing Research; Marketing Theory & Applications; Non-Profit Organizations; Office Administration/Management; Operations Research/Statistics; Organizational Behavior & Theory; Organizational Development; Production/Operations; Public Administration; Purchasing/Materials Management; Retailing; Sales/Selling; Services; Small Business Entrepreneurship; Strategic Management Policy; Technology/Innovation; Tourism, Hospitality & Leisure; Transportation/Physical Distribution; Algorithms; Artificial Intelligence; Compilers & Translation; Computer Aided Design (CAD); Computer Aided Manufacturing; Computer Graphics; Computer Organization & Architecture; Database Structures & Systems; Digital Logic; Discrete Structures; Internet; Management Information Systems; Modeling & Simulation; Multimedia; Neural Systems/Neural Networks; Numerical Analysis/Scientific Computing; Object Oriented Programming; Operating Systems; Programming Languages; Robotics; Symbolic & Formal Logic and Web Design. The above mentioned tracks are only indicative, and not exhaustive.

Anybody can submit the soft copy of his/her manuscript **anytime** in M.S. Word format after preparing the same as per our submission guidelines duly available on our website under the heading guidelines for submission, at the email addresses: infoijrcm@gmail.com or info@ijrcm.org.in.

GUIDELINES FOR SUBMISSION OF MANUSCRIPT

1. **COVERING LETTER FOR SUBMISSION:**

DATED: _____

THE EDITOR

IJRCM

Subject: SUBMISSION OF MANUSCRIPT IN THE AREA OF _____.

(e.g. Computer/IT/Finance/Marketing/HRM/General Management/other, please specify).

DEAR SIR/MADAM

Please find my submission of manuscript titled ' _____ ' for possible publication in your journal.

I hereby affirm that the contents of this manuscript are original. Furthermore, it has neither been published elsewhere in any language fully or partly, nor is it under review for publication anywhere.

I affirm that all author (s) have seen and agreed to the submitted version of the manuscript and their inclusion of name (s) as co-author (s).

Also, if our/my manuscript is accepted, I/We agree to comply with the formalities as given on the website of journal & you are free to publish our contribution to any of your journals.

NAME OF CORRESPONDING AUTHOR:

Designation:

Affiliation with full address & Pin Code:

Residential address with Pin Code:

Mobile Number (s):

Landline Number (s):

E-mail Address:

Alternate E-mail Address:

2. **INTRODUCTION:** Manuscript must be in British English prepared on a standard A4 size paper setting. It must be prepared on a single space and single column with 1" margin set for top, bottom, left and right. It should be typed in 8 point Calibri Font with page numbers at the bottom and centre of the every page.
3. **MANUSCRIPT TITLE:** The title of the paper should be in a 12 point Calibri Font. It should be bold typed, centered and fully capitalised.
4. **AUTHOR NAME(S) & AFFILIATIONS:** The author (s) full name, designation, affiliation (s), address, mobile/landline numbers, and email/alternate email address should be in italic & 11-point Calibri Font. It must be centered underneath the title.
5. **ABSTRACT:** Abstract should be in fully italicized text, not exceeding 250 words. The abstract must be informative and explain the background, aims, methods, results & conclusion in a single para.
6. **KEYWORDS:** Abstract must be followed by list of keywords, subject to the maximum of five. These should be arranged in alphabetic order separated by commas and full stops at the end.
7. **HEADINGS:** All the headings should be in a 10 point Calibri Font. These must be bold-faced, aligned left and fully capitalised. Leave a blank line before each heading.
8. **SUB-HEADINGS:** All the sub-headings should be in a 8 point Calibri Font. These must be bold-faced, aligned left and fully capitalised.
9. **MAIN TEXT:** The main text should be in a 8 point Calibri Font, single spaced and justified.
10. **FIGURES & TABLES:** These should be simple, centered, separately numbered & self explained, and titles must be above the tables/figures. Sources of data should be mentioned below the table/figure. It should be ensured that the tables/figures are referred to from the main text.
11. **EQUATIONS:** These should be consecutively numbered in parentheses, horizontally centered with equation number placed at the right.
12. **REFERENCES:** The list of all references should be alphabetically arranged. It must be single spaced, and at the end of the manuscript. The author (s) should mention only the actually utilised references in the preparation of manuscript and they are supposed to follow **Harvard Style of Referencing**. The author (s) are supposed to follow the references as per following:
 - All works cited in the text (including sources for tables and figures) should be listed alphabetically.
 - Use **(ed.)** for one editor, and **(ed.s)** for multiple editors.
 - When listing two or more works by one author, use --- (20xx), such as after Kohl (1997), use --- (2001), etc, in chronologically ascending order.
 - Indicate (opening and closing) page numbers for articles in journals and for chapters in books.
 - The title of books and journals should be in italics. Double quotation marks are used for titles of journal articles, book chapters, dissertations, reports, working papers, unpublished material, etc.
 - For titles in a language other than English, provide an English translation in parentheses.
 - The location of endnotes within the text should be indicated by superscript numbers.

PLEASE USE THE FOLLOWING FOR STYLE AND PUNCTUATION IN REFERENCES:

ABSTRACT

In Information and communication technologies (ICTs) covers the services like Mobile, Group SMS, Email, Chatting, radio and television, computers, Internet and various newly introduced and upcoming digital technologies. These ICT services have potentially powerful enabling tools for educational system modification and reform. The practice of introducing different ICTs in the regular classroom and other educational services from last decade, it is suggests that the full awareness of the potential educational benefits of ICTs is not automatic. The operative integration of ICTs into the educational services is a complex, multi-layered process that involves not just technology but it required concentration given enough initial capital, technology make available is not the biggest part but also prospectus and pedagogy, institutional readiness; teacher capabilities and long-term financing are required. National Informatics Centre (NIC) of Central Government has taken initiatives for increasing Use of ICT for quality improvement also figures in Government of India's flagship programme on education, Sarva Shiksha Abhiyan (SSA). Again, ICT figured comprehensively in the norm of schooling recommended by Central Advisory Board of Education (CABE), in its report on Universal Secondary Education, in 2005. Most information systems in use today are based on the principles of databases, and so an understanding of databases is valuable for user. While using ICT services it is not only necessary to know the basic Idea of ICT and its use for educational development but also to manage with the daily life contexts of students-teacher interaction. This paper is an attempt to analyze use of ICT Implementation in Education.

KEYWORDS

Information and communication technologies, National Informatics Centre, Sarva Shiksha Abhiyan, Central Advisory Board of Education,

INTRODUCTION

Information and Communication Technology (ICT) is a subject in education in U. K. and which is a part of the Curriculum. Most of the students are choose to study ICT in Secondary Education level. Mostly this subject thought through online system with the help of British Educational Communications and Technology Agency.

Ministry of Human Resource Development (MHRD), Government of India says that India has around 1.2 million schools in which 290 million students attending school every day, under 35 state boards, two central boards and a host of educational agencies responsible for the administration and health of the schools. Given the size and enormity of needs, aspirations and issues to address, India has the state governments integrates ICTs in schools. The main aim of ICTs in schools of India includes

- *Information Distribution:* Engagement with Communities of Practice in the process of developing the National policy on ICT in school education
- *Strategy Interchange:* Sharing of learning, experiences and ideas from people and organizations working in/for ICT in education at national and regional scale
- *Partnerships:* Encourage and build focus groups with lead and member partnerships on content, infrastructure, capacity building, research and innovation and other key thematic areas
- *Information Combination:* Incorporate input, suggestions and recommendations to create an informed and enriched policy document, ready for implementation in the states.

LITERATURE REVIEW

Information and Communication Technologies for Educational development is a general term referring to the application of Information and Communication Technologies (ICTs) within the field of Educational process management. Information and Communication Technologies are acting as integrating and enabling technologies for the analogous and it has a profound impact on society. With the usage of new technologies the global community, can be supported in their collaboration to preserve the environment in the long term. New technologies provide utilities for Knowledge acquisition and awareness, early evaluation of new knowledge, reaching agreements and communication of progress. For this research we refer the college magazine, interact with students, teachers and principals. We also refer a national policy Central Government on ICT in school education in India

RESEARCH DESIGN AND METHODOLOGY**AREA OF RESEARCH**

It is exploratory type of research which aims at studying the awareness of the Information and Communication Technology implementation and state-of-the-art development awareness in selected Colleges of Pune. Colleges are selected on the basis of student strength and accessibility to the researcher.

SAMPLING DESIGN

Universe : Colleges from Pune City
 Sampling Frame : Colleges using ICT Services
 Sample Element : Sinhgad Institute, Indira Institute, Nevile Wadia Management Institute

TOOLS APPLIED

The data collected from primary & secondary source will be analyzed by using statistical tools viz. percentage, average, Mean, Mode and deviations. The hypothesis was tested with the help of statistical techniques. The following statistical tools were applied:

1. Percentage Analysis
2. Frequency Analysis

SOFTWARE USED FOR ANALYSIS

Microsoft Excel 2007 and SPSS were used for data analysis.

RESEARCH OBJECTIVES

In this study aim to investigate necessity and accessibility of ICT implementation in Educational Institute, ICT is rapidly improving the services in Education. It also checks the effectiveness of ICT implementation by the government should take appropriate policies towards to monitor, working, Data analysis policies, role of ICT in rural developments. This research is focused on following objectives

- It is very difficult to tolerate technology for longer.
- At present digital technologies are everywhere in the society at every stages of life.
- Usually Institute can use technology more efficiently for contribution to quality education.
- Common problems can be solved in next step of clicking due to expectations.
- When we talk about education, there is a great tendency of discussing but there is need to record and Idea implementation through ICT

RESEARCH HYPOTHESIS

Study was beginning on the hypothesis based on the basis of experience in the use of Information and Communication Technology Implementation will develop specialized skills in education system. This main hypothesis supported by following sub hypotheses:

- An information and Communication Technology service Implementation adds efficiency and effectiveness in the youth.

PRESENT STATUS OF ICT IN EDUCATION

The main objectives of ICT services are students’ teacher and Institute should be able to:

- Identify the services provided by ICT and its powerful implementation in regular use.
- Identify the main components of the hardware and other component in use
- Determine an accepting of the purposes of the main modules
- Recognize various peripheral devices
- Determine an accepting the functions of the various peripheral devices;
- Determine an accepting the local network in use in relation to the external network
- Determine an accepting of the main functions of the system software environment
- Determine an accepting of the features of the system software environment

For this research data is collected from the 72 students 33 teachers and 25 staff members of three prime Pune based national institutes.

The research paper is based on following questions. We also check

1. Students having more technology adoptability than others.
2. ICT services can change the face of traditional education.
3. ICT services make student teacher and institute updates.
4. ICT services can improve the student attendance in the classroom.
5. Employee has to improve their skill set and update themselves to survive.
6. As compare to urban students, rural students may lack behind due to implementation of ICT Services.

STATISTICS OF ABOVE QUESTIONS

All respondent given sincere answers it is found from almost all are valid answers most of answers are found filed or valid or meaningful. We also find Mean and maximum value of all the questions.

		Q1			Q2			Q3		
		Stud	Teach	Staff	Stud	Teach	Staff	Stud	Teach	Staff

REQUEST FOR FEEDBACK

Dear Readers

At the very outset, International Journal of Research in Commerce, IT and Management (IJRCM) acknowledges & appreciates your efforts in showing interest in our present issue under your kind perusal.

I would like to request you to supply your critical comments and suggestions about the material published in this issue as well as on the journal as a whole, on our E-mails i.e. **infoijrcm@gmail.com** or **info@ijrcm.org.in** for further improvements in the interest of research.

If you have any queries please feel free to contact us on our E-mail **infoijrcm@gmail.com**.

I am sure that your feedback and deliberations would make future issues better – a result of our joint effort.

Looking forward an appropriate consideration.

With sincere regards

Thanking you profoundly

Academically yours
