## CALL FOR MANUSCRIPTS

We invite unpublished novel, original, empirical and high quality research work pertaining to the recent developments \& practices in the areas of Computer Science \& Applications; Commerce; Business; Finance; Marketing; Human Resource Management; General Management; Banking; Economics; Tourism Administration \& Management; Education; Law; Library \& Information Science; Defence \& Strategic Studies; Electronic Science; Corporate Governance; Industrial Relations; and emerging paradigms in allied subjects like Accounting; Accounting Information Systems; Accounting Theory \& Practice; Auditing; Behavioral Accounting; Behavioral Economics; Corporate Finance; Cost Accounting; Econometrics; Economic Development; Economic History; Financial Institutions \& Markets; Financial Services; Fiscal Policy; Government \& Non Profit Accounting; Industrial Organization; International Economics \& Trade; International Finance; Macro Economics; Micro Economics; Rural Economics; Co-operation; Demography: Development Planning; Development Studies; Applied Economics; Development Economics; Business Economics; Monetary Policy; Public Policy Economics; Real Estate; Regional Economics; Political Science; Continuing Education; Labour Welfare; Philosophy; Psychology; Sociology; Tax Accounting; Advertising \& Promotion Management; Management Information Systems (MIS); Business Law; Public Responsibility \& Ethics; Communication; Direct Marketing; E-Commerce; Global Business; Health Care Administration; Labour Relations \& Human Resource Management; Marketing Research; Marketing Theory \& Applications; Non-Profit Organizations; Office Administration/Management; Operations Research/Statistics; Organizational Behavior \& Theory; Organizational Development; Production/Operations; International Relations; Human Rights \& Duties; Public Administration; Population Studies; Purchasing/Materials Management; Retailing; Sales/Selling; Services; Small Business Entrepreneurship; Strategic Management Policy; Technology/Innovation; Tourism \& Hospitality; Transportation Distribution; Algorithms; Artificial Intelligence; Compilers \& Translation; Computer Aided Design (CAD); Computer Aided Manufacturing; Computer Graphics; Computer Organization \& Architecture; Database Structures \& Systems; Discrete Structures; Internet; Management Information Systems; Modeling \& Simulation; Neural Systems/Neural Networks; Numerical Analysis/Scientific Computing; Object Oriented Programming; Operating Systems; Programming Languages; Robotics; Symbolic \& Formal Logic; Web Design and emerging paradigms in allied subjects.

Anybody can submit the soft copy of unpublished novel; original; empirical and high quality research work/manuscript anytime in M.S. Word format after preparing the same as per our GUIDELINES FOR SUBMISSION; at our email address i.e. infoijrcm@gmail.com or online by clicking the link online submission as given on our website (FOR ONLINE SUBMISSION, CLICK HERE).

## GUIDELINES FOR SUBMISSION OF MANUSCRIPT

## 1. COVERING LETTER FOR SUBMISSION:

DATED:

## THE EDITOR

IJRCM

Subject: SUBMISSION OF MANUSCRIPT IN THE AREA OF
(e.g. Finance/Mkt./HRM/General Mgt./Engineering/Economics/Computer/IT/Education/Psychology/Law/Math/other, please specify)

## DEAR SIR/MADAM

Please find my submission of manuscript titled ' ' for likely publication in one of your journals.

I hereby affirm that the contents of this manuscript are original. Furthermore, it has neither been published anywhere in any language fully or partly, nor it is under review for publication elsewhere.

I affirm that all the co-authors of this manuscript have seen the submitted version of the manuscript and have agreed to inclusion of their names as co-authors.

Also, if my/our manuscript is accepted, I agree to comply with the formalities as given on the website of the journal. The Journal has discretion to publish our contribution in any of its journals.

## NAME OF CORRESPONDING AUTHOR

Designation/Post*
Institution/College/University with full address \& Pin Code :
Residential address with Pin Code :
Mobile Number (s) with country ISD code
Is WhatsApp or Viber active on your above noted Mobile Number (Yes/No)
Landline Number (s) with country ISD code
E-mail Address
Alternate E-mail Address :
Nationality :

* i.e. Alumnus (Male Alumni), Alumna (Female Alumni), Student, Research Scholar (M. Phil), Research Scholar (Ph. D.), JRF, Research Assistant, Assistant Lecturer, Lecturer, Senior Lecturer, Junior Assistant Professor, Assistant Professor, Senior Assistant Professor, Co-ordinator, Reader, Associate Professor, Professor, Head, Vice-Principal, Dy. Director, Principal, Director, Dean, President, Vice Chancellor, Industry Designation etc. The qualification of author is not acceptable for the purpose.

NOTES:
a) The whole manuscript has to be in ONE MS WORD FILE only, which will start from the covering letter, inside the manuscript. pdf. version is liable to be rejected without any consideration.
b) The sender is required to mention the following in the SUBJECT COLUMN of the mail:

New Manuscript for Review in the area of (e.g. Finance/Marketing/HRM/General Mgt./Engineering/Economics/Computer/IT/ Education/Psychology/Law/Math/other, please specify)
c) There is no need to give any text in the body of the mail, except the cases where the author wishes to give any specific message w.r.t. to the manuscript.
d) The total size of the file containing the manuscript is expected to be below $\mathbf{1 0 0 0}$ KB.
e) Only the Abstract will not be considered for review and the author is required to submit the complete manuscript in the first instance.
f) The journal gives acknowledgement w.r.t. the receipt of every email within twenty-four hours and in case of non-receipt of acknowledgment from the journal, w.r.t. the submission of the manuscript, within two days of its submission, the corresponding author is required to demand for the same by sending a separate mail to the journal.
g) The author (s) name or details should not appear anywhere on the body of the manuscript, except on the covering letter and the cover page of the manuscript, in the manner as mentioned in the guidelines.
2. MANUSCRIPT TITLE: The title of the paper should be typed in bold letters, centered and fully capitalised.
3. AUTHOR NAME (S) \& AFFILIATIONS: Author (s) name, designation, affiliation ( $s$ ), address, mobile/landline number ( $s$ ), and email/alternate email address should be given underneath the title.
4. ACKNOWLEDGMENTS: Acknowledgements can be given to reviewers, guides, funding institutions, etc., if any.
5. ABSTRACT: Abstract should be in fully Italic printing, ranging between $\mathbf{1 5 0}$ to $\mathbf{3 0 0}$ words. The abstract must be informative and elucidating the background, aims, methods, results \& conclusion in a SINGLE PARA. Abbreviations must be mentioned in full.
6. KEYWORDS: Abstract must be followed by a list of keywords, subject to the maximum of five. These should be arranged in alphabetic order separated by commas and full stop at the end. All words of the keywords, including the first one should be in small letters, except special words e.g. name of the Countries, abbreviations etc.
7. JEL CODE: Provide the appropriate Journal of Economic Literature Classification System code (s). JEL codes are available at www.aeaweb.org/econlit/jelCodes.php. However, mentioning of JEL Code is not mandatory.
8. MANUSCRIPT: Manuscript must be in BRITISH ENGLISH prepared on a standard A4 size PORTRAIT SETTING PAPER. It should be free from any errors i.e. grammatical, spelling or punctuation. It must be thoroughly edited at your end.
9. HEADINGS: All the headings must be bold-faced, aligned left and fully capitalised. Leave a blank line before each heading.
10. SUB-HEADINGS: All the sub-headings must be bold-faced, aligned left and fully capitalised.
11. MAIN TEXT:

THE MAIN TEXT SHOULD FOLLOW THE FOLLOWING SEQUENCE:

## INTRODUCTION

REVIEW OF LITERATURE
NEED/IMPORTANCE OF THE STUDY
STATEMENT OF THE PROBLEM
OBJECTIVES
HYPOTHESIS (ES)
RESEARCH METHODOLOGY
RESULTS \& DISCUSSION
FINDINGS
RECOMMENDATIONS/SUGGESTIONS
CONCLUSIONS
LIMITATIONS
SCOPE FOR FURTHER RESEARCH
REFERENCES
APPENDIX/ANNEXURE
The manuscript should preferably be in 2000 to 5000 WORDS, But the limits can vary depending on the nature of the manuscript.
12. FIGURES \& TABLES: These should be simple, crystal CLEAR, centered, separately numbered \& self-explained, and the titles must be above the table/figure. Sources of data should be mentioned below the table/figure. It should be ensured that the tables/figures are referred to from the main text.
13. EQUATIONS/FORMULAE: These should be consecutively numbered in parenthesis, left aligned with equation/formulae number placed at the right. The equation editor provided with standard versions of Microsoft Word may be utilised. If any other equation editor is utilised, author must confirm that these equations may be viewed and edited in versions of Microsoft Office that does not have the editor.
14. ACRONYMS: These should not be used in the abstract. The use of acronyms is elsewhere is acceptable. Acronyms should be defined on its first use in each section e.g. Reserve Bank of India (RBI). Acronyms should be redefined on first use in subsequent sections.
15. REFERENCES: The list of all references should be alphabetically arranged. The author (s) should mention only the actually utilised references in the preparation of manuscript and they may follow Harvard Style of Referencing. Also check to ensure that everything that you are including in the reference section is duly cited in the paper. The author (s) are supposed to follow the references as per the following:

- All works cited in the text (including sources for tables and figures) should be listed alphabetically.
- Use (ed.) for one editor, and (ed.s) for multiple editors.
- When listing two or more works by one author, use --- (20xx), such as after Kohl (1997), use --- (2001), etc., in chronologically ascending order.
- Indicate (opening and closing) page numbers for articles in journals and for chapters in books.
- The title of books and journals should be in italic printing. Double quotation marks are used for titles of journal articles, book chapters, dissertations, reports, working papers, unpublished material, etc.
- For titles in a language other than English, provide an English translation in parenthesis.
- Headers, footers, endnotes and footnotes should not be used in the document. However, you can mention short notes to elucidate some specific point, which may be placed in number orders before the references.

#### Abstract

Rural marketing determines the carrying out of business activities bringing in the flow of goods from urban sectors to the rural regions of the country as well as the marketing of various products manufactured by the non-agricultural workers from rural to urban areas. Number of strategies like product, price, promotion, distribution, marketing and sales strategies can help various organizations to capture large market share of rural India. However, it is not that easy to operate in rural market because of several problems such as underdeveloped people and underdeveloped markets, Inadequate Media coverage for rural communication, Multi language and Dialects, Traditional Values, Lack of proper physical communication facilities. But every problem has its solution. So, the problems of rural marketing can be solved by improving infrastructure, transportation, communication, warehousing and packing facilities. The paper includes method of selling of products, marketing planning, marketing objectives, selection of the products, Nature of competition, furnish details of customers, area wise sales, sales promotion, products require packaging, strategy of pricing method, distribution channels, goods transportation, promote of products and production sample units in Nellore district.

## KEYWORDS

selling methods, products require packaging.

## INTRODUCTION

JJ( n the context of development of a nation then the most important thing is to contribute in development of industrialization, which is very large area to develop the existing product and new product in the market with the help of branding techniques. The rural industries have a very big role in development of Indian industry and Indian economy. Rural Industries generally use power driven machine and also apply modern methods of production, engage labour on wage produce for expanded market, wherever cottage industry gives the new way in the context of employment for poor people and growth of the rural industry. Such industries can be managed with little resources and in terms of result provide much better results.

## OBJECTIVES

1. To examine the methods of selling the products of the selected Rural Industries in Nellore district.
2. To examine the various channels of marketing the products of select Rural Industries in Nellore district.

## METHODOLOGY

SPSR Nellore District is purposively selected for the study because of the proximity and familiarity of the researcher. The primary data covering all the aspects of rural industries units in accordance with the objectives of the study are collected through personal interviews with the entrepreneurs and managers of the sample units with the help of a schedule, which is to be specially designed for the study.

## SAMPLING

Primary data will be collected from the Rural Industries in SPSR Nellore district. A sample of ( 3202 Rural Industries in 2015-16) 10 per cent will be drawn at random covering all categories of Rural Industrial artisans belonging to different groups and different product lines. In selecting the sample enterprises, the researchers will be used a sample technique known as "Stratified Random Sampling with proportional allocation".
Table 1 shows that 55 ( 17.19 per cent) of the rural industrial units sell personally, 46 ( 14.38 per cent) units are through mediators, 35 ( 10.94 per cent) through foreign agencies, 38 ( 11.88 per cent) through whole sellers, 30 ( 9.38 per cent) each through retailers and franchising units, 33 ( 10.31 per cent) through commission agents, 24 ( 7.50 per cent) through brokers and 29 ( 9.06 per cent) through others. The leather and leather footwear units highest with 20 and chemical based units lowest with 2 in sell personally. The Food and agro based units highest with 7 and mineral and textile based units lowest with 2 each sell through mediators. The plastic and rubber units highest with 6 and paper board units lowest with 0 , the textile based and forest based units 3 each sell through franchising (out of 30 ). In Engineering based units out of 34, 6 (17.65 per cent) each are personally and commission agents sell products, 3 ( 8.82 per cent) each though mediators and retailers, 9 ( 26.47 per cent) though wholesalers and 5 ( 14.71 per cent) through foreign agencies sell the products.

TABLE 1: CATEGORY - WISE METHODS OF SELLING THE PRODUCTS OF SAMPLE UNITS IN SPSR NELLORE DISTRICT

| S. No | Industrial Category | Methods of selling the products |  |  |  |  |  |  |  |  | Total |

1. Personal selling, 2. Through Mediators, 3. Foreign Agencies, 4. Wholesalers, 5. Retailers, 6. Franchising, 7. Commission agent, 8. Brokers and 9. Others.

Marketing planning of the sample units is shown in table 2. It indicates that out of 320 rural industrial units, 119 ( 37.19 per cent), have developed annual marketing planning, 103 ( 32.19 per cent) have more than one year plan and 98 ( 30.63 per cent) do not prepare any kind of marketing planning in this regard. The leather and footwear units rank highest with 17 ( 42.50 per cent) and the miscellaneous units rank lowest with 1 ( 9.09 per cent) as per more than one year marketing planning, the textile based units highest with 14 ( 36.84 per cent) and miscellaneous units rank lowest with 1 ( 9.09 per cent) as per no marketing planning and the forest based units rank highest with 21 ( 52.50 per cent) and the paper and printing units lowest with 6 ( 46.15 per cent) have developing annual marketing planning. Out of the total number of 320 rural industrial units in Nellore district, 38 are in textile based industries, and out of those 38 textile based industries 14 ( 36.84 per cent) have no marketing planning, 11 ( 28.95 per cent) have developed annual marketing planning, and 13 ( 34.21 per cent) have plan for more than one year. Out of 320 rural industrial units in Nellore district, miscellaneous units are the lowest with 11 only. Out of 11 miscellaneous units, 1 ( 9.09 per cent) have no marketing planning, 9 ( 81.82 per cent) have plan for more than one year and 1 ( 9.09 per cent) have developed annual market planning.

The nature of competition faced by the sample rural industrial units under study is presented in table 3. It reveals that 112 ( 35 per cent) units are facing heavy competition, 125 ( 39.06 per cent) units are facing moderate competition and 83 ( 25.94 per cent) units are facing low competition. The Leather and footwear units among the sample rank highest with 34.29 per cent and the forest based units rank lowest with 25 per cent under units with moderate competition. The Mineral based units rank highest with 46.15 per cent and plastic and rubber units lowest with 13.33 per cent under units with low competition. It can be concluded that the sample industrial units in the district on the whole face moderate competition.

TABLE 3: CATEGORY - WISE NATURE OF COMPETITION PRODUCTS OF SAMPLE UNITS IN SPSR NELLORE DISTRICT

| S. No | Industrial Category | Nature of competition product |  |  | Total |

Category-wise product sales in different types of markets by the rural industrial units are exposed in table 4. It divulges that 96 ( 30 per cent) rural units are selling their products in local market, 116 ( 36.25 per cent) in regional markets, 65 ( 20.31 per cent) in national market and only 43 ( 13.44 per cent) in international markets. The textile based units ranked highest with 11 ( 28.95 per cent) and the Engineering based units lowest with 3 ( 8.82 per cent) under units selling in local markets. The textile based units rank highest with 19 ( 27.66 per cent) and the Building material units lowest with 2 ( 9.09 per cent) under units selling their products regional. The leather and footwear units ranks highest with 15 ( 37.50 per cent) and chemical based industrial units lowest with 2 ( 8.33 per cent) under units selling in national markets. The engineering based units rank highest with 8 ( 23.53 per cent) and textile based units lowest with 2 ( 5.26 per cent) under units selling their products international level.

Note: Figures in parenthesis represent the percentages
Source: Field Survey units Newspapers, an oily contribution of food and agro based industries of 10.71 per cent, 14.71 per cent of engineering based and 21.05 per cent textile based industries respectively. Electronics based units have very good performance of 33.33 per cent. In mineral based 11.54 per cent, forest based 25 per cent, chemical based 16.67 per cent, leather and footwear units 7.50 per cent, building material units 9.09 per cent, printing based board units 21.43 per cent and printing units 23.08 per cent. Next portion occupies 47 units of wallpapers, while a greasy contribution of a gargantuan portion of engineering based units is 41.18 per cent, 22.50 per cent of leather and footwear units, 12.50 per cent of forest based, 11.54 per cent of mineral based, 10.53 per cent of textile based, 7.14 per cent of food and agro based, 20.83 per cent of chemical based and 21.43 per cent of paper board units. Next place is occupied by Outdoor advertising of 44 units with 8.82 per cent of engineering based, 10 per cent of food and agro based, 17.50 per cent of forest based, 10.53 per cent of textile based, 12.50 per cent of chemical based and a gigantic portion of mineral based units with 26.92 per cent. Sales promotion methods adopted by rural industries advertising of television are 40 units, of these units contribution of 21.43 per cent of food and agro based, 21.05 per cent of textile based, 25 per cent of forest based, 7.69 per cent of mineral based and printing based industries of 30.77 per cent are observed. Banners also as sales promotion of units are 30 and of these contributions of 36.36 per cent are miscellaneous units; remaining industrial categories are below 20 per cent. Pamphlets advertising of 32 units of these units have a contribution of 20 per cent of the chemical based, electronic based and plastic and rubber based industries.

TABLE 5: CATEGORY - WISE SALES PROMOTION METHODS OF SAMPLE UNITS IN SPSR NELLORE DISTRICT

1. Newspapers, 2. Television, 3. Electronic Displays, 4. Wallpapers, 5. Outdoor advertising, 6. Banners, 7. Pamphlets and 8. Brochures.

Use of packing materials by the sample rural industrial units is shown in Table 6. It shows that 99 ( 30.94 per cent) sample units use polythene covers for their product packing, 112 ( 35 per cent) units are use paper covers, 65 ( 20.31 per cent) units use jute bags and 44 ( 13.75 per cent) units use other materials. The mineral based units' score highest 65.38 per cent and miscellaneous units are lowest score with 9.09 per cent using polythene covers. The paper board units with the highest 57.14 per cent and mineral based units lowest with 26.92 per cent use paper covers. The printing based units with the highest 38.46 per cent and chemical based units lowest with 8.33 per cent use jute bags. The Plastic and rubber units with the highest 53.33 per cent and mineral based units lowest with 5.26 per cent use other material for packing of products.

## Source: Field Survey

The pricing objectives of the rural industrial units are presented in Table 7. It exposes that 48 ( 15 per cent) rural industrial units have for their pricing objectives market penetration, 57 units ( 17.81 per cent) have market skimming, 47 ( 14.69 per cent) current revenue maximizing, 69 ( 21.56 per cent) target profit, 42 ( 13.13 per cent) units on promotion and 57 ( 17.81 per cent) on no profit and no loss objective. The engineering based units registered highest with 23.53 per cent and food and agro based units lowest with 7.14 per cent in the objective of market penetration. The Plastic and rubber units which are the highest 40 and food and agro based units which are lowest with only 7.14 per cent under the market skimming. The engineering based units stand highest with 38.24 per cent and the forest based units with the lowest with 7.50 per cent in the current revenue maximizing category. The printing based units are highest with 53.85 per cent and miscellaneous units the lowest with 8.33 per cent under target profit. Of the 42 units which come under the category of promotion, the food and agro based units are highest with 25 per cent and leather and footwear units lowest with 5 per cent. The chemical based units had highest with 45.83 per cent and food and agro based units the lowest with 7.14 per cent under no profit and no loss objective. It can be concluded that the majority of the rural industries i.e., 69 ( 21.56 per cent) base their rising objective Target profit.

Share of profit margin of the rural industrial units is shown in Table 8. It shows that 166 ( 51.88 per cent) sample units are satisfied with their present profit margin and 154 ( 48.13 per cent) units are not satisfied. Out of 38 forest based industries 22 ( 57.89 per cent) have been satisfied and 16 ( 42.11 per cent) are not satisfied. Out of 166 ( 51.88 per cent) satisfied units 22 are in textile based, 12 in forest based, 23 each in mineral and engineering based, 17 in leather and footwear units, 16 in food and agro based units, 12 each in chemical based, printing based and building material units and 4 in plastic and rubber units. Out of 154 ( 48.13 per cent) not satisfied units, 23 units are in food and agro based, 16 in textile based, 3 in mineral based units, 28 in forest based, 14 in paper board units, 12 each in chemical and food and agro based, 11 each in engineering and rubber based units, 10 in building material units and 6 in miscellaneous based units.

Types of transportation being had by rural industrial units are shown in table 9. It shows that 61 ( 19.06 per cent) sample units have their own transport, 126 ( 39.38 per cent) units hired transport, 81 ( 25.31 per cent) sample units have transport arranged by customers and 52 ( 16.25 per cent) units have transportation on contract. Of the units which have their own transport, the plastic and rubber units score the highest of 46.67 per cent and the printing based units the lowest of 7.69 per cent. In using hired transport, the forest based units score the highest 72.50 per cent and the chemical units the lowest 8.33 per cent. The building material units score the highest 45.45 per cent and the forest based units lowest 7.50 per cent in using the transport arranged by customers. The mineral based units score the highest 38.46 per cent and forest based units score lowest 7.50 per cent engaging on contract. It is clear from the table that the majority of the sample units 126 (39.38 per cent) have their goods carried by hired transport.

Type of promotional activity of sample rural industrial units is presented in Table 10. It shows that out of the total 320 units, 68 ( 21.25 per cent) sample units are undertaking promotional activity through advertising, 114 ( 35.63 per cent) units through publicity, 44 ( 13.75 per cent) units through free samples, 52 ( 16.25 per cent) units through lable/branding and 42 ( 13.13 per cent) units through sign boards. The plastic and rubber units score the highest 53.33 per cent (out of 15 ) and engineering based units score the lowest 5.88 per cent (out of 34 ) in using advertising techniques. The leather and footwear units score the highest 57.50 per cent (out of 40 units) and paper board units score the lowest with 21.43 per cent (out of 14) in using publicity. The printing based units score highest with 30.77 per cent and engineering based units lowest with 5.88 per cent in using free samples. The paper board units with highest 42.86 per cent and forest based units with lowest 5 per cent are using label and branding. The building material units score highest with 22.73 per cent and plastic and ruuber based units lowest with 6.67 per cent in using signboards. It can be concluded that the majority of the sample units i.e., 114 ( 35.63 per cent), (out of 320 ) are using publicity.

TABLE 10: CATEGORY - WISE PROMOTION METHODS OF PRODUCTS OF SAMPLE UNITS IN SPSR NELLORE DISTRICT

| S. No | Industrial Category | Promote of products |  |  |  |  | Total |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | Advertising | Publicity | Free samples | Label/ Branding | Sign boards |  |
| 1 | Textile based units | $\begin{aligned} & 08 \\ & (21.05) \end{aligned}$ | $\begin{aligned} & 09 \\ & (23.68) \\ & \hline \end{aligned}$ | $\begin{aligned} & \hline 03 \\ & (7.89) \\ & \hline \end{aligned}$ | $\begin{aligned} & 13 \\ & (34.21) \\ & \hline \end{aligned}$ | $\begin{aligned} & 05 \\ & (13.16) \\ & \hline \end{aligned}$ | $\begin{aligned} & 38 \\ & (100) \end{aligned}$ |
| 2 | Forest based units | $\begin{aligned} & 10 \\ & (25.00) \\ & \hline \end{aligned}$ | $\begin{aligned} & 13 \\ & (32.50) \\ & \hline \end{aligned}$ | $\begin{aligned} & \hline 07 \\ & (17.50) \\ & \hline \end{aligned}$ | $\begin{aligned} & \hline 02 \\ & (5.00) \\ & \hline \end{aligned}$ | $\begin{aligned} & \hline 08 \\ & (20.00) \\ & \hline \end{aligned}$ | $\begin{aligned} & \hline 40 \\ & (100) \\ & \hline \end{aligned}$ |

| 13 | Miscellaneous units | $\begin{aligned} & 01 \\ & (9.09) \end{aligned}$ | $\begin{aligned} & \hline 04 \\ & (36.36) \\ & \hline \end{aligned}$ | $\begin{aligned} & 03 \\ & (27.27) \\ & \hline \end{aligned}$ | $\begin{aligned} & \hline 01 \\ & (9.09) \end{aligned}$ | $\begin{aligned} & \hline 02 \\ & (18.18) \\ & \hline \end{aligned}$ | $\begin{aligned} & 11 \\ & (100) \end{aligned}$ |
| Total |  | $\begin{aligned} & \hline 68 \\ & (21.25) \end{aligned}$ | $\begin{aligned} & \hline 114 \\ & (35.63) \\ & \hline \end{aligned}$ | $\begin{aligned} & \hline 44 \\ & (13.75) \end{aligned}$ | $\begin{aligned} & \hline 52 \\ & (16.25) \end{aligned}$ | $\begin{aligned} & \hline 42 \\ & (13.13) \end{aligned}$ | $\begin{aligned} & 320 \\ & (100) \end{aligned}$ |

Note: Figures in parenthesis represent the percentages

## CONCLUSION

Rural marketing have to play a vital role in the economic development of a developing country, is beyond doubt at present. An intensive effort in order to provide the basic facilities to rural consumers is the need of the hour. Indian rural marketing system should be made much more competitive by infusing competition within the country and preventing the external system equation from interfering with the local markets in the larger interests of the nation.

## REQUEST FOR FEEDBACK

## Dear Readers

At the very outset, International Journal of Research in Commerce \& Management (IJRCM) acknowledges \& appreciates your efforts in showing interest in our present issue under your kind perusal.

I would like to request you to supply your critical comments and suggestions about the material published in this issue, as well as on the journal as a whole, on our e-mail infoijrcm@gmail.com for further improvements in the interest of research.

If you have any queries, please feel free to contact us on our e-mail infoijrcm@gmail.com.

I am sure that your feedback and deliberations would make future issues better - a result of our joint effort.

Looking forward to an appropriate consideration.

With sincere regards

Thanking you profoundly

## Academically yours

## ABOUT THE JOURNAL

In this age of Commerce, Economics, Computer, I.T. \& Management and cut throat competition, a group of intellectuals felt the need to have some platform, where young and budding managers and academicians could express their views and discuss the problems among their peers. This journal was conceived with this noble intention in view. This journal has been introduced to give an opportunity for expressing refined and innovative ideas in this field. It is our humble endeavour to provide a springboard to the upcoming specialists and give a chance to know about the latest in the sphere of research and knowledge. We have taken a small step and we hope that with the active cooperation of like-minded scholars, we shall be able to serve the society with our humble efforts.
