FOUNDER PATRON**Late Sh. RAM BHAJAN AGGARWAL**

Former State Minister for Home & Tourism, Government of Haryana
 Former Vice-President, Dadri Education Society, Charkhi Dadri
 Former President, Chinar Syntex Ltd. (Textile Mills), Bhiwani

CO-ORDINATOR**Dr. BHAVET**

Former Faculty, Shree Ram Institute of Engineering & Technology, Urjani

ADVISOR**Prof. S. L. MAHANDRU**

Principal (Retd.), Maharaja Agrasen College, Jagadhri

EDITOR**Dr. PARVEEN KUMAR**

Professor, Department of Computer Science, NIMS University, Jaipur

CO-EDITOR**Dr. A. SASI KUMAR**

Professor, Vels Institute of Science, Technology & Advanced Studies (Deemed to be University), Pallavaram

EDITORIAL ADVISORY BOARD**Dr. CHRISTIAN EHIOBU CHE**

Professor of Global Business/Management, Larry L Luing School of Business, Berkeley College, USA

Dr. SIKANDER KUMAR

Vice Chancellor, Himachal Pradesh University, Shimla, Himachal Pradesh

Dr. JOSÉ G. VARGAS-HERNÁNDEZ

Research Professor, University Center for Economic & Managerial Sciences, University of Guadalajara, Guadalajara, Mexico

Dr. RAJENDER GUPTA

Convener, Board of Studies in Economics, University of Jammu, Jammu

Dr. D. S. CHAUBEY

Professor & Dean (Research & Studies), Uttaranchal University, Dehradun

Dr. TEGUH WIDODO

Dean, Faculty of Applied Science, Telkom University, Bandung Technoplex, Jl. Telekomunikasi, Indonesia

Dr. S. P. TIWARI

Head, Department of Economics & Rural Development, Dr. Ram Manohar Lohia Avadh University, Faizabad

Dr. BOYINA RUPINI

Director, School of ITS, Indira Gandhi National Open University, New Delhi

Dr. KAUP MOHAMED

Dean & Managing Director, London American City College/ICBEST, United Arab Emirates

Dr. MIKE AMUHAYA IRAVO

Principal, Jomo Kenyatta University of Agriculture & Tech., Westlands Campus, Nairobi-Kenya

Dr. M. S. SENAM RAJU

Professor, School of Management Studies, I.G.N.O.U., New Delhi

Dr. NEPOMUCENO TIU

Chief Librarian & Professor, Lyceum of the Philippines University, Laguna, Philippines

Dr. A SAJEEVAN RAO

Professor & Director, Accurate Institute of Advanced Management, Greater Noida

Dr. H. R. SHARMA

Director, Chhatrapati Shivaji Institute of Technology, Durg, C.G.

Dr. CLIFFORD OBIYO OFURUM

Professor of Accounting & Finance, Faculty of Management Sciences, University of Port Harcourt, Nigeria

Dr. SHIB SHANKAR ROY

Professor, Department of Marketing, University of Rajshahi, Rajshahi, Bangladesh

Dr. MANOHAR LAL

Director & Chairman, School of Information & Computer Sciences, I.G.N.O.U., New Delhi

Dr. SRINIVAS MADISHETTI

Professor, School of Business, Mzumbe University, Tanzania

Dr. VIRENDRA KUMAR SHRIVASTAVA

Director, Asia Pacific Institute of Information Technology, Panipat

Dr. VIJAYPAL SINGH DHAKA

Professor & Head, Department of Computer & Communication Engineering, Manipal University, Jaipur

Dr. NAWAB ALI KHAN

Professor & Dean, Faculty of Commerce, Aligarh Muslim University, Aligarh, U.P.

Dr. EGWAKHE A. JOHNSON

Professor & Director, Babcock Centre for Executive Development, Babcock University, Nigeria

Dr. ASHWANI KUSH

Head, Computer Science, University College, Kurukshetra University, Kurukshetra

Dr. ABHAY BANSAL

Head, Department of Information Technology, Amity School of Engg. & Tech., Amity University, Noida

Dr. BHARAT BHUSHAN

Head, Department of Computer Science & Applications, Guru Nanak Khalsa College, Yamunanagar

MUDENDA COLLINS

Head, Operations & Supply Chain, School of Business, The Copperbelt University, Zambia

Dr. JAYASHREE SHANTARAM PATIL (DAKE)

Faculty in Economics, KPB Hinduja College of Commerce, Mumbai

Dr. MURAT DARÇIN

Associate Dean, Gendarmerie and Coast Guard Academy, Ankara, Turkey

Dr. YOUNOS VAKIL ALROAIA

Head of International Center, DOS in Management, Semnan Branch, Islamic Azad University, Semnan, Iran

P. SARVAHARANA

Asst. Registrar, Indian Institute of Technology (IIT), Madras

SHASHI KHURANA

Associate Professor, S. M. S. Khalsa Lubana Girls College, Barara, Ambala

Dr. SEOW TA WEEA

Associate Professor, Universiti Tun Hussein Onn Malaysia, Parit Raja, Malaysia

Dr. OKAN VELI ŞAFAKLI

Professor & Dean, European University of Lefke, Lefke, Cyprus

Dr. MOHINDER CHAND

Associate Professor, Kurukshetra University, Kurukshetra

Dr. BORIS MILOVIC

Associate Professor, Faculty of Sport, Union Nikola Tesla University, Belgrade, Serbia

Dr. IQBAL THONSE HAWALDAR

Associate Professor, College of Business Administration, Kingdom University, Bahrain

Dr. MOHENDER KUMAR GUPTA

Associate Professor, Government College, Hodal

Dr. ALEXANDER MOSESOV

Associate Professor, Kazakh-British Technical University (KBTU), Almaty, Kazakhstan

Dr. MOHAMMAD TALHA

Associate Professor, Department of Accounting & MIS, College of Industrial Management, King Fahd University of Petroleum & Minerals, Dhahran, Saudi Arabia

Dr. ASHOK KUMAR CHAUHAN

Reader, Department of Economics, Kurukshetra University, Kurukshetra

Dr. RAJESH MODI

Faculty, Yanbu Industrial College, Kingdom of Saudi Arabia

CALL FOR MANUSCRIPTS

We invite unpublished novel, original, empirical and high quality research work pertaining to the recent developments & practices in the areas of Computer Science & Applications; Commerce; Business; Finance; Marketing; Human Resource Management; General Management; Banking; Economics; Tourism Administration & Management; Education; Law; Library & Information Science; Defence & Strategic Studies; Electronic Science; Corporate Governance; Industrial Relations; and emerging paradigms in allied subjects like Accounting; Accounting Information Systems; Accounting Theory & Practice; Auditing; Behavioral Accounting; Behavioral Economics; Corporate Finance; Cost Accounting; Econometrics; Economic Development; Economic History; Financial Institutions & Markets; Financial Services; Fiscal Policy; Government & Non Profit Accounting; Industrial Organization; International Economics & Trade; International Finance; Macro Economics; Micro Economics; Rural Economics; Co-operation; Demography; Development Planning; Development Studies; Applied Economics; Development Economics; Business Economics; Monetary Policy; Public Policy Economics; Real Estate; Regional Economics; Political Science; Continuing Education; Labour Welfare; Philosophy; Psychology; Sociology; Tax Accounting; Advertising & Promotion Management; Management Information Systems (MIS); Business Law; Public Responsibility & Ethics; Communication; Direct Marketing; E-Commerce; Global Business; Health Care Administration; Labour Relations & Human Resource Management; Marketing Research; Marketing Theory & Applications; Non-Profit Organizations; Office Administration/Management; Operations Research/Statistics; Organizational Behavior & Theory; Organizational Development; Production/Operations; International Relations; Human Rights & Duties; Public Administration; Population Studies; Purchasing/Materials Management; Retailing; Sales/Selling; Services; Small Business Entrepreneurship; Strategic Management Policy; Technology/Innovation; Tourism & Hospitality; Transportation Distribution; Algorithms; Artificial Intelligence; Compilers & Translation; Computer Aided Design (CAD); Computer Aided Manufacturing; Computer Graphics; Computer Organization & Architecture; Database Structures & Systems; Discrete Structures; Internet; Management Information Systems; Modeling & Simulation; Neural Systems/Neural Networks; Numerical Analysis/Scientific Computing; Object Oriented Programming; Operating Systems; Programming Languages; Robotics; Symbolic & Formal Logic; Web Design and emerging paradigms in allied subjects.

Anybody can submit the **soft copy** of unpublished novel; original; empirical and high quality **research work/manuscript** **anytime** in **M.S. Word format** after preparing the same as per our **GUIDELINES FOR SUBMISSION**; at our email address i.e. infoijrcm@gmail.com or online by clicking the link **online submission** as given on our website ([FOR ONLINE SUBMISSION, CLICK HERE](#)).

GUIDELINES FOR SUBMISSION OF MANUSCRIPT

1. **COVERING LETTER FOR SUBMISSION:**

DATED: _____

THE EDITOR

IJRCM

Subject: SUBMISSION OF MANUSCRIPT IN THE AREA OF _____.

(e.g. Finance/Mkt./HRM/General Mgt./Engineering/Economics/Computer/IT/ Education/Psychology/Law/Math/other, please specify)

DEAR SIR/MADAM

Please find my submission of manuscript titled ‘ _____ ’ for likely publication in one of your journals.

I hereby affirm that the contents of this manuscript are original. Furthermore, it has neither been published anywhere in any language fully or partly, nor it is under review for publication elsewhere.

I affirm that all the co-authors of this manuscript have seen the submitted version of the manuscript and have agreed to inclusion of their names as co-authors.

Also, if my/our manuscript is accepted, I agree to comply with the formalities as given on the website of the journal. The Journal has discretion to publish our contribution in any of its journals.

NAME OF CORRESPONDING AUTHOR :
 Designation/Post* :
 Institution/College/University with full address & Pin Code :
 Residential address with Pin Code :
 Mobile Number (s) with country ISD code :
 Is WhatsApp or Viber active on your above noted Mobile Number (Yes/No) :
 Landline Number (s) with country ISD code :
 E-mail Address :
 Alternate E-mail Address :
 Nationality :

* i.e. Alumnus (Male Alumni), Alumna (Female Alumni), Student, Research Scholar (M. Phil), Research Scholar (Ph. D.), JRF, Research Assistant, Assistant Lecturer, Lecturer, Senior Lecturer, Junior Assistant Professor, Assistant Professor, Senior Assistant Professor, Co-ordinator, Reader, Associate Professor, Professor, Head, Vice-Principal, Dy. Director, Principal, Director, Dean, President, Vice Chancellor, Industry Designation etc. **The qualification of author is not acceptable for the purpose.**

NOTES:

- a) The whole manuscript has to be in **ONE MS WORD FILE** only, which will start from the covering letter, inside the manuscript. ***pdf. version is liable to be rejected without any consideration.***
 - b) The sender is required to mention the following in the **SUBJECT COLUMN of the mail:**
New Manuscript for Review in the area of (e.g. Finance/Marketing/HRM/General Mgt./Engineering/Economics/Computer/IT/ Education/Psychology/Law/Math/other, please specify)
 - c) There is no need to give any text in the body of the mail, except the cases where the author wishes to give any **specific message** w.r.t. to the manuscript.
 - d) The total size of the file containing the manuscript is expected to be below **1000 KB**.
 - e) Only the **Abstract will not be considered for review** and the author is required to submit the **complete manuscript** in the first instance.
 - f) **The journal gives acknowledgement w.r.t. the receipt of every email within twenty-four hours** and in case of non-receipt of acknowledgment from the journal, w.r.t. the submission of the manuscript, within two days of its submission, the corresponding author is required to demand for the same by sending a separate mail to the journal.
 - g) The author (s) name or details should not appear anywhere on the body of the manuscript, except on the covering letter and the cover page of the manuscript, in the manner as mentioned in the guidelines.
2. **MANUSCRIPT TITLE:** The title of the paper should be typed in **bold letters, centered and fully capitalised**.
 3. **AUTHOR NAME (S) & AFFILIATIONS:** Author (s) name, designation, affiliation (s), address, mobile/landline number (s), and email/alternate email address should be given underneath the title.
 4. **ACKNOWLEDGMENTS:** Acknowledgements can be given to reviewers, guides, funding institutions, etc., if any.
 5. **ABSTRACT:** Abstract should be in **fully Italic printing**, ranging between **150 to 300 words**. The abstract must be informative and elucidating the background, aims, methods, results & conclusion in a **SINGLE PARA**. **Abbreviations must be mentioned in full.**
 6. **KEYWORDS:** Abstract must be followed by a list of keywords, subject to the maximum of **five**. These should be arranged in alphabetic order separated by commas and full stop at the end. All words of the keywords, including the first one should be in small letters, except special words e.g. name of the Countries, abbreviations etc.
 7. **JEL CODE:** Provide the appropriate Journal of Economic Literature Classification System code (s). JEL codes are available at www.aea-web.org/econlit/jelCodes.php. However, mentioning of JEL Code is not mandatory.
 8. **MANUSCRIPT:** Manuscript must be in **BRITISH ENGLISH** prepared on a standard A4 size **PORTRAIT SETTING PAPER**. **It should be free from any errors i.e. grammatical, spelling or punctuation. It must be thoroughly edited at your end.**
 9. **HEADINGS:** All the headings must be bold-faced, aligned left and fully capitalised. Leave a blank line before each heading.
 10. **SUB-HEADINGS:** All the sub-headings must be bold-faced, aligned left and fully capitalised.
 11. **MAIN TEXT:**

THE MAIN TEXT SHOULD FOLLOW THE FOLLOWING SEQUENCE:**INTRODUCTION****REVIEW OF LITERATURE****NEED/IMPORTANCE OF THE STUDY****STATEMENT OF THE PROBLEM****OBJECTIVES****HYPOTHESIS (ES)****RESEARCH METHODOLOGY****RESULTS & DISCUSSION****FINDINGS****RECOMMENDATIONS/SUGGESTIONS****CONCLUSIONS****LIMITATIONS****SCOPE FOR FURTHER RESEARCH****REFERENCES****APPENDIX/ANNEXURE****The manuscript should preferably be in 2000 to 5000 WORDS, But the limits can vary depending on the nature of the manuscript.**

12. **FIGURES & TABLES:** These should be simple, crystal **CLEAR, centered, separately numbered** & self-explained, and the **titles must be above the table/figure. Sources of data should be mentioned below the table/figure.** *It should be ensured that the tables/figures are referred to from the main text.*
13. **EQUATIONS/FORMULAE:** These should be consecutively numbered in parenthesis, left aligned with equation/formulae number placed at the right. The equation editor provided with standard versions of Microsoft Word may be utilised. If any other equation editor is utilised, author must confirm that these equations may be viewed and edited in versions of Microsoft Office that does not have the editor.
14. **ACRONYMS:** These should not be used in the abstract. The use of acronyms is elsewhere is acceptable. Acronyms should be defined on its first use in each section e.g. Reserve Bank of India (RBI). Acronyms should be redefined on first use in subsequent sections.
15. **REFERENCES:** The list of all references should be alphabetically arranged. **The author (s) should mention only the actually utilised references in the preparation of manuscript** and they may follow Harvard Style of Referencing. **Also check to ensure that everything that you are including in the reference section is duly cited in the paper.** The author (s) are supposed to follow the references as per the following:
- All works cited in the text (including sources for tables and figures) should be listed alphabetically.
 - Use (ed.) for one editor, and (ed.s) for multiple editors.
 - When listing two or more works by one author, use --- (20xx), such as after Kohl (1997), use --- (2001), etc., in chronologically ascending order.
 - Indicate (opening and closing) page numbers for articles in journals and for chapters in books.
 - The title of books and journals should be in italic printing. Double quotation marks are used for titles of journal articles, book chapters, dissertations, reports, working papers, unpublished material, etc.
 - For titles in a language other than English, provide an English translation in parenthesis.
 - **Headers, footers, endnotes and footnotes should not be used in the document.** However, **you can mention short notes to elucidate some specific point**, which may be placed in number orders before the references.

STRATEGIC ANALYSIS OF MECHANIZED CRIME ATTACKS IN DISTRIBUTED NETWORK TECHNOLOGY**Dr. VAIBHAV SHARMA****ASST. PROFESSOR****S. S. JAIN SUBODH P. G. (AUTONOMOUS) COLLEGE****JAIPUR****VANDANA NIGAM****ASST. PROFESSOR****S. S. JAIN SUBODH P. G. (AUTONOMOUS) COLLEGE****JAIPUR****ABSTRACT**

Mechanized Crime is a social awful conduct is in addition known IT awful conduct considering the Internet. For the most part affected ambushes by the fashioners on the web have sprinkled the open electronic play a territory with estimations of cool reality and sent newcomers scrambling to redesign compose security structures. Automated dreadful direct is the freshest and potentially the most tangled load in the pushed world. Computerized bad behavior are answerable for the interference of standard PC works and has been known to cause the crush of different affiliations and individual parts. This assessment paper plans to examine after pieces of Cyber bad behavior: the definition, why they happen, laws controlling them, methods for doing advanced bad behavior, which they sway, and computerized bad behavior adjusting action techniques. Basically more particularly, this paper will dig into one rule example of advanced bad behavior "hacking". The report will show the usage and improvement of headway has reinforced specific sorts of awful practices, for example, burglary encroachment and fear mongering. Electronic infringement in India are very much arranged making from an unquestionable email horrendous lead to increasingly grave dreadful practices like hacking and source code thievery. Versatile Networks are joined phenomenally adaptable center centers that conversation with one another without relying on an earlier framework structure. Due to their versatile nature, center centers may as routinely as conceivable join and leave the framework without watch. Center centers can clearly banter with neighbors, which are inside direct transmission run, at any rate ought to rely on commonly captivating concentrations to advance gatherings too difficult to reach center centers, which are past the impel transmission expand. Additionally, centers may be exceptionally heterogeneous concerning orchestrating power, battery life, transmission range, and littleness follows. Some standard viewpoints of centers join knapsack radios, PCs, handhelds, vehicle PCs, and airborne exchanges. This Research Paper speaks to risks a wonderfully doled out structure faces and the security centers to be competent. Particularly, looked into evident arranging ambushes, for instance, flooding, dark gap, interface replicating, wormhole, and plotting stingy strikes, and in like way existing responses for secure traditions.

INTRODUCTION

The purpose behind this paper is to train individuals who don't perceive what are cybercrimes and its centrality in turning out to be creative advancement all through society. Understanding the danger of cybercrimes is an uncommonly proper issue since development holds a phenomenal impact on overall population with everything taken into account. Cybercrime is building up every day considering the way that since mechanical advancing in PCs makes it straightforward for anyone to take without truly harming anyone because of the nonappearance of figuring out how to the general populace of how cybercrimes are executed and how they can guarantee themselves against such perils that cybercrimes presents. This paper presents a couple of parts of Cybercrimes including: portraying the term, why cybercrimes occur, laws managing them, procedures for executing cybercrimes, who is impacted, and evasion methods and some more. Remote framework is the arrangement of adaptable PC center points or stations that are not genuinely wired. The headway of future e-business and online business will depend upon the limit of legal associations to shield general customers from computerized bad behaviors. While there has been liberal progression in the improvement and execution of gadgets for recognizing and hindering advanced attacks, there is a nonattendance of convincing systems to summon the guilty parties of computerized bad behaviors (computerized evildoers). Along these lines, various computerized infringement go unpunished and various interference area mechanical assemblies go unutilized. Hereafter there is a necessity for widely inclusive techniques that can empower relationship to assemble legally significant affirmations from advanced infringement with the objective that fitting moves can be made against computerized guilty parties. Our data is available for about anyone to channel through in view of this interconnectivity. This makes a negative disrespect that the usage of development is risky considering the way that in every practical sense anyone can get to one's private information at an expense. Advancement continues promising to encourage our step by step lives; in any case, there are dangers of using development. One of the essential dangers of using development is the risk of cybercrimes. Security is a basic issue for frameworks, especially for those security-unstable applications.

OBJECTIVES OF THE STUDY

1. To dissect the effect of cybercrime on e - systems and m - systems.
2. To investigate the coming of digital wrongdoing e - systems and m - systems.
3. To break down the masters and corn of system security in e - systems and m - systems.
4. To break down how organize security diminishes the treat of digital violations e-systems and m - systems.

DEFINING THE PROBLEM

e/m cybercrime, they may not appreciate the level of infringement. Various requests develop when the term e/m cybercrime is brought into question. e/m Cybercrimes are finished by methods for PCs, Laptop, Mobiles and so on.

A routinely recognized importance of this term is that a cybercrime is a "bad behavior executed using a PCs, Laptop, Mobiles and the web to take a man's character or offer reserve or tail losses or upset errands with harmful ventures" (Definition of Cybercrimes). Be that as it may, various definitions have objectives to a far reaching significance to all the more intently depict "cybercrime".

RESEARCH METHODOLOGY

This paper depends on the exploration of quickly creating e/m Cyber wrongdoing in Indian Technological Scenario. Research factors included e/m digital wrongdoing abuse and examination to find future possibilities digital wrongdoing investigation. It is likewise founded on Micro Level examination direct on Indian e/m digital wrongdoing Analytics Report which go to precise Analysis.

ANALYTICAL INVESTIGATION OF MECHANIZED CRIME THROUGH DISTRIBUTED NETWORKS

a) Hacking: as it were can be alluded to as the unapproved access to any PC frameworks or system. This strategy can happen if PC equipment and programming has any shortcomings which can be invaded if such equipment or programming has a need in fixing, security control, setup or poor secret word decision.

b) Theft of Data Contained In Electronic Shape: This sort of technique happen when data put away in computer systems are penetrated and are adjusted or physically being seized through hard circles; removable capacity media or other virtual medium.

c) Email Bombing: This is another type of web abuse where people guides hoard quantities of mail to the person in question or a deliver in endeavor to flood the letter box, which might be an individual or an organization or even mail servers there by at last coming about into slamming. There are two techniques for executing an email bomb which incorporate mass mailing and rundown connecting.

d) Data Diddling: Is the changing of information previously or amid an interruption into the PC framework. This sort of an event includes moving crude information just before a PC can forms it and afterward changing it back after the handling is finished.

e) Salami Assaults: This sort of wrong doing is regularly comprising of various littler information security assaults together end bringing about one noteworthy assault. This technique regularly happens in the money related organizations or to commit budgetary wrongdoings. A vital component of this sort of offense is that the change is small to the point that it would ordinarily go unnoticed.

f) Denial of Service Assault: Is essentially where a PC framework ends up inaccessible to it's approve end client. This type of assault by and large identifies with PC systems where the PC of the casualty is submerged with a greater number of solicitations than it can deal with which thus making the pc crash. E.g. Amazon, Yahoo.

g) Virus/Worm Assaults: Viruses are programs that can implant themselves to any record. The program then copies itself and spreads to different PCs on a system which they affect anything on them, either by changing or eradicating it. Notwithstanding, worms dislike infections, they needn't bother with the host to join themselves to however make useful duplicates of them and do this continually till they devour up all the accessible space on a PC's memory. E.g. love bug infection, which influenced no less than 5 % of the PCs around the globe.

h) Logic Bombs: They are fundamentally an arrangement of guidelines where can be subtly be execute into a program where if a specific condition is genuine can be done the final product ordinarily closes with destructive impacts. This proposes these projects are created to accomplish something just when a particular occasion (known as a trigger occasion) happens.

i) Trojan Attacks: The term proposes where a program or projects veil themselves as significant apparatuses yet achieve harming undertakings to the PC. These projects are unlawful which limply gains command over another's framework by accepting the job as an approved program. The most widely recognized type of a Trojan is through email.

j) Internet Time Thefts: This shape is sorts of embezzlements where the fraudulent uses the Internet surfing long stretches of the casualty as their very own which can be finished by obtaining access to the login ID and the secret phrase,

k) Web Jacking: This is the place the programmer gets get to and can control site of someone else, where he or she can wreck or change the data on the site as they want to them. This sort of technique for cybercrime is improved the situation fulfilling political motivation or for simply money related means.

CONCLUSION

In this paper, we have analyzed the security perils an exceptionally named framework faces and showed the security focuses on that ought to be practiced. On one hand, the security-sensitive employments of extemporaneous frameworks require elevated level of security; on the other hand, exceptionally named frameworks are normally feeble against security ambushes.

Computerized bad behavior is by and by real, extensive, strong, creating, and dynamically progressed, and presents noteworthy consequences for national and money related security. Various endeavors, foundations, open and private-portion affiliations (particularly those inside the fundamental system) are at vital risk. It is critical to make methodological, speculative and practical explanation behind information shield inside overall Internet orchestrate. Their objectives will allow to vanquish by and large possibilities. In this way, security instruments are vital for off the cuff frameworks. The peculiarity of extraordinarily delegated frameworks presents the two troubles and openings. The paper addresses the underlying advance of our assessment to separate the security risks, to appreciate the security requirements for offhand frameworks, and to recognize existing strategies, and notwithstanding propose new parts to grapple extraordinarily designated frameworks.

REQUEST FOR FEEDBACK

Dear Readers

At the very outset, International Journal of Research in Computer Application & Management (IJRCM) acknowledges & appreciates your efforts in showing interest in our present issue under your kind perusal.

I would like to request you to supply your critical comments and suggestions about the material published in this issue, as well as on the journal as a whole, on our e-mail infoijrcm@gmail.com for further improvements in the interest of research.

If you have any queries, please feel free to contact us on our e-mail infoijrcm@gmail.com.

I am sure that your feedback and deliberations would make future issues better – a result of our joint effort.

Looking forward to an appropriate consideration.

With sincere regards

Thanking you profoundly

Academically yours

Sd/-

Co-ordinator

The journal, neither its publishers/Editors/ Editorial Board, nor any other party involved in the preparation of material contained in the journal represents or warrants that the information contained herein is in every respect accurate or complete, and they are not responsible for any errors or omissions or for the results obtained from the use of such material. Readers are encouraged to confirm the information contained herein with other sources. The responsibility of the contents and the opinions expressed in this journal are exclusively of the author (s) concerned.

ABOUT THE JOURNAL

In this age of Commerce, Economics, Computer, I.T. & Management and cut throat competition, a group of intellectuals felt the need to have some platform, where young and budding managers and academicians could express their views and discuss the problems among their peers. This journal was conceived with this noble intention in view. This journal has been introduced to give an opportunity for expressing refined and innovative ideas in this field. It is our humble endeavour to provide a springboard to the upcoming specialists and give a chance to know about the latest in the sphere of research and knowledge. We have taken a small step and we hope that with the active co-operation of like-minded scholars, we shall be able to serve the society with our humble efforts.
