THE MAIN TEXT SHOULD FOLLOW THE FOLLOWING SEQUENCE:**INTRODUCTION****REVIEW OF LITERATURE****NEED/IMPORTANCE OF THE STUDY****STATEMENT OF THE PROBLEM****OBJECTIVES****HYPOTHESIS (ES)****RESEARCH METHODOLOGY****RESULTS & DISCUSSION****FINDINGS****RECOMMENDATIONS/SUGGESTIONS****CONCLUSIONS****LIMITATIONS****SCOPE FOR FURTHER RESEARCH****REFERENCES****APPENDIX/ANNEXURE****The manuscript should preferably be in 2000 to 5000 WORDS. But the limits can vary depending on the nature of the manuscript.**

12. **FIGURES & TABLES:** These should be simple, crystal **CLEAR, centered, separately numbered** & self-explained, and the **titles must be above the table/figure. Sources of data should be mentioned below the table/figure. It should be ensured that the tables/figures are referred to from the main text.**
13. **EQUATIONS/FORMULAE:** These should be consecutively numbered in parenthesis, left aligned with equation/formulae number placed at the right. The equation editor provided with standard versions of Microsoft Word may be utilised. If any other equation editor is utilised, author must confirm that these equations may be viewed and edited in versions of Microsoft Office that does not have the editor.
14. **ACRONYMS:** These should not be used in the abstract. The use of acronyms is elsewhere is acceptable. Acronyms should be defined on its first use in each section e.g. Reserve Bank of India (RBI). Acronyms should be redefined on first use in subsequent sections.
15. **REFERENCES:** The list of all references should be alphabetically arranged. **The author (s) should mention only the actually utilised references in the preparation of manuscript** and they may follow Harvard Style of Referencing. **Also check to ensure that everything that you are including in the reference section is duly cited in the paper.** The author (s) are supposed to follow the references as per the following:
- All works cited in the text (including sources for tables and figures) should be listed alphabetically.
 - Use (ed.) for one editor, and (ed.s) for multiple editors.
 - When listing two or more works by one author, use --- (20xx), such as after Kohl (1997), use --- (2001), etc., in chronologically ascending order.
 - Indicate (opening and closing) page numbers for articles in journals and for chapters in books.
 - The title of books and journals should be in italic printing. Double quotation marks are used for titles of journal articles, book chapters, dissertations, reports, working papers, unpublished material, etc.
 - For titles in a language other than English, provide an English translation in parenthesis.
 - **Headers, footers, endnotes and footnotes should not be used in the document.** However, **you can mention short notes to elucidate some specific point**, which may be placed in number orders before the references.

ABSTRACT

In present situation, after the successful implementation of distributed environment in databases, there is a need to focus on query optimization cost. From past many years, various optimization algorithms have been used in the implementation of query optimizers. Every algorithm has its own effect in query optimization process by means of producing result in specific time. This time relates to cost, which differs in different type of algorithms. Many factors affect the cost of query optimizers in Distributed databases. In every optimization method, the emphasis is being given to implement methods for retrieval of the data in minimal time. This cost somewhat shows dependency on transferring of data on various sites, transfer the minimum amount of intermediate data may help in reducing cost. This cost impacts the overall performance of a system throughout the processing. In this paper, various methods have been discussed to know the significance of Multi colony Ant Optimization Algorithm. In past years, when database was centralized, there was no need to discuss cost related to transfer of data. But in distributed databases, emphasis is given here in this paper to find out a method which incurs minimum cost when there is a requirement to transfer the data within multiple sites.

ABSTRACT

This article aims to throw some light on the concept of work-life balance and to explain its significance with special reference to Banking sector in Jodhpur city. Work-life balance is a key area for quality concern gurus, who believes that balance between work and life is of vital importance when it comes to performance of the workforce. This study was conducted in banking sector in Jodhpur to find out whether the employees were able to practice a sense of control and a balance between Professional and family life. For the said purpose primary research methodology has been used. Findings revealed that banking sector of Jodhpur is suffering through intense work life imbalance. Departments where the working force mainly comprises of line staff suffer tremendously as compared to other support staff in the workforce.

POST MERGER PERFORMANCE ANALYSIS WITH SPECIAL REFERENCE TO WIPRO - INFOSERVER S. A

ABSTRACT

This paper focused on post-merger performance analysis with special reference to Wipro Ltd. - Info Server S. A. Its specific objectives are to compare financial performance of bidder firm in post-merger. It also analyzes the profitability, liquidity level and solvency level of the firm. It is a survey covering time period of five years (Post-merger and acquisition: 2013-2017). An extensive review of various literatures has been carried out in order to get a better considerate in the topic of mergers and acquisitions (M&As) announcement effect on stock price and profit. Literature review has been prepared from journal, books, articles, student's paper published, websites etc. Historical data were obtained from the financial statement and accounts of Wipro Ltd. which merged with Info Server S.A. Data collected are evaluated and analyzed the statistical tools (descriptive analysis, T-test, mean, standard deviation, kurtosis, skewness etc.) and financial tools (current ratio, quick ratio, DER, ROC, etc.) This study reveals that merger and acquisition has influence on profitability, liquidity and solvency of the firm. The study found that there is a significance impact of M&A on firm's performance in post- acquisition. It concluded that merger and acquisition can stimulate economic growth and development of any nation. Hence, recommended that the company needed to concentrate on the debt pay back capacity. The liquidity level of the company is showing slight increase so the company requires concentrating on increasing the liquidity of the firm by taking actions to boost the CR and QR etc... The profitability of the company is showing decreasing, so that the company should concentrating on hiking the operational efficiency of the firm.

JAIPUR****ABSTRACT**

The present time is the data time in global technological scenario where extensive volume of information in zettabytes is rising each day. Big Data is a system to deal with the voluminous unstructured, semi organized and organized information in more productive and orderly way. Big Data is an advanced pattern in Indian technological sector which manages titanic information. As Big Data is excessively colossal for a single individual, making it impossible to analyse, fitting headways are being used. Big Data Analytics has been expanding much point of convergence of thought as of late as experts from industry and the academic world are attempting to effectively think and use all possible data from the amazing measure of data made and got. Ordinary techniques for taking care of enormous information isn't suitable in on going time as this information incorporates content, sound, video, illustrations and numerous more structures. Dealing with the wide variety of data that comes in enormous volume in a short time period, asking for an adjustment in part of time, planning and examination of immense information shortly of time is the most difficult undertaking identified with tremendous information put away in ordinary databases. Big Data is the best decision of Indian industrialists and Indian IT enterprises as it can deal with the enormous information wisely and capable way. This paper shows a brief outline of research progress in Indian technological scenario identified with Big Data Processing and Analytics and complete up with a discussion on inspect headings in a comparative locale.

THE LOST BOND: A CASE ON CHILD ABUSE AND IT'S SOCIO-ECONOMIC IMPACT

ABSTRACT

Cases of child abuse have increased, in 2014 the number was 8904 that has increased to 14913 in 2015 (POSCO, 2016). World Health Organization (WHO) defines child abuse as "all forms of physical and/or emotional ill-treatment, sexual abuse, neglect or negligent treatment or commercial or other exploitation, resulting in actual or potential harm to the child's health, survival, development or dignity in the context of a relationship of responsibility, trust or power. "There are four types of child abuse: physical abuse; sexual abuse; emotional and psychological abuse; and neglect. The study will help the society to know the impact of child abuse on the victim's life and how the personality changes and life becomes a miserable journey, where family's love and support is playing a very important role. Acceptance and love nurture broken personality of the child and the absence of which can have an adverse impact on the psyche of the child. It also has long-term impacts on their intellectual health and in obtaining occupation; this leads them to destructive behavioural patterns and criminality. However, if accepted gracefully by the society they will lead a happy and fulfilling life like any normal individual in many directions like family, job, and service to the society.

HUMAN RESOURCE DEVELOPMENT IN TOURISM AND HOSPITALITY INDUSTRY: ISSUES AND CHALLENGES

SHIVAMOGGA, KARNATAKA**

ABSTRACT

At present, tourism has become an emerging as a fastest and generating a large number of employments for people both skilled and unskilled. A business goes where it is invited but permanently stays, where it is respected. In India, industry has the major contribution towards the growth of GDP. Tourism as a Culture influenced by globalization has engineered a sound foundation for the development of Tourism industry in India. The increasing domination of Tourism industry in the process of economic transformation has been injecting new strength to the economy of the country. The future of tourism industry is definitely exciting but several human resource challenges are being faced such as poor supply of quality people and lack of infrastructural facilities are intimidating in providing the quality. The institutions and universities are failing in transforming soft skills of people through latest measures. Against this background the present paper makes an attempt to discuss different facets of tourism education, availability of training institutes and their status in Travel & Tourism Management and the available infrastructure of Hotels and Restaurants along with the workforce involved for serving tourists. The paper will also attempt to recommend what can be done to improve the status of tourism and hospitality education in India.

REQUEST FOR FEEDBACK

Dear Readers

At the very outset, International Journal of Research in Computer Application & Management (IJRCM) acknowledges & appreciates your efforts in showing interest in our present issue under your kind perusal.

I would like to request you to supply your critical comments and suggestions about the material published in this issue, as well as on the journal as a whole, on our e-mail infoijrcm@gmail.com for further improvements in the interest of research.

ABOUT THE JOURNAL

In this age of Commerce, Economics, Computer, I.T. & Management and cut throat competition, a group of intellectuals felt the need to have some platform, where young and budding managers and academicians could express their views and discuss the problems among their peers. This journal was conceived with this noble intention in view. This journal has been introduced to give an opportunity for expressing refined and innovative ideas in this field. It is our humble endeavour to provide a springboard to the upcoming specialists and give a chance to know about the latest in the sphere of research and knowledge. We have taken a small step and we hope that with the active co-operation of like-minded scholars, we shall be able to serve the society with our humble efforts.
