**CHIEF PATRON****Prof. (Dr.) K. K. AGGARWAL**

Chairman, Malaviya National Institute of Technology, Jaipur  
*(An institute of National Importance & fully funded by Ministry of Human Resource Development, Government of India)*  
 Chancellor, K. R. Mangalam University, Gurgaon  
 Chancellor, Lingaya's University, Faridabad  
 Founder Vice-Chancellor (1998-2008), Guru Gobind Singh Indraprastha University, Delhi  
 Ex. Pro Vice-Chancellor, Guru Jambheshwar University, Hisar

**FOUNDER PATRON****Late Sh. RAM BHAJAN AGGARWAL**

Former State Minister for Home & Tourism, Government of Haryana  
 Former Vice-President, Dadri Education Society, Charkhi Dadri  
 Former President, Chinar Syntex Ltd. (Textile Mills), Bhiwani

**FORMER CO-ORDINATOR****Dr. S. GARG**

Faculty, Shree Ram Institute of Business & Management, Urjani

**ADVISOR****Prof. S. L. MAHANDRU**

Principal (Retd.), Maharaja Agrasen College, Jagadhri

**EDITOR****Dr. R. K. SHARMA**

Professor & Dean, Bharti Vidyapeeth University Institute of Management & Research, New Delhi

**CO-EDITOR****Dr. BHAVET**

Faculty, Shree Ram Institute of Engineering & Technology, Urjani

**EDITORIAL ADVISORY BOARD****Dr. S. P. TIWARI**

Head, Department of Economics & Rural Development, Dr. Ram Manohar Lohia Avadh University, Faizabad

**Dr. CHRISTIAN EHIOBUCHÉ**

Professor of Global Business/Management, Larry L Luig School of Business, Berkeley College, Woodland  
 Park NJ 07424, USA

**Dr. SIKANDER KUMAR**

Chairman, Department of Economics, Himachal Pradesh University, Shimla, Himachal Pradesh

**Dr. JOSÉ G. VARGAS-HERNÁNDEZ**

Research Professor, University Center for Economic & Managerial Sciences, University of Guadalajara, Guadalajara, Mexico

**Dr. M. N. SHARMA**

Chairman, M.B.A., Haryana College of Technology & Management, Kaithal

**Dr. TEGUH WIDODO**

Dean, Faculty of Applied Science, Telkom University, Bandung Technoplex, Jl. Telekomunikasi, Terusan  
 Buah Batu, Kabupaten Bandung, Indonesia

**Dr. M. S. SENAM RAJU**

Director A. C. D., School of Management Studies, I.G.N.O.U., New Delhi

**Dr. CLIFFORD OBIYO OFURUM**

Director, Department of Accounting, University of Port Harcourt, Rivers State, Nigeria

**Dr. KAUP MOHAMED**

Dean &amp; Managing Director, London American City College/ICBEST, United Arab Emirates

**SUNIL KUMAR KARWASRA**

Principal, Aakash College of Education, ChanderKalan, Tohana, Fatehabad

**Dr. MIKE AMUHAYA IRAVO**

Principal, Jomo Kenyatta University of Agriculture and Technology, Westlands Campus, Nairobi-Kenya

**Dr. S. TABASSUM SULTANA**

Principal, Matrusri Institute of P.G. Studies, Hyderabad

**Dr. NEPOMUCENO TIU**

Chief Librarian &amp; Professor, Lyceum of the Philippines University, Laguna, Philippines

**Dr. SANJIV MITTAL**

Professor, University School of Management Studies, Guru Gobind Singh I. P. University, Delhi

**Dr. ANA ŠTAMBUK**

Head of Department in Statistics, Faculty of Economics, University of Rijeka, Rijeka, Croatia

**Dr. RAJENDER GUPTA**

Convener, Board of Studies in Economics, University of Jammu, Jammu

**Dr. SHIB SHANKAR ROY**

Professor, Department of Marketing, University of Rajshahi, Rajshahi, Bangladesh

**Dr. ANIL K. SAINI**

Chairperson (CRC), Guru Gobind Singh I. P. University, Delhi

**Dr. SRINIVAS MADISHETTI**

Professor, School of Business, Mzumbe University, Tanzania

**Dr. NAWAB ALI KHAN**

Professor, Department of Commerce, Aligarh Muslim University, Aligarh, U.P.

**MUDENDA COLLINS**

Head of the Department of Operations &amp; Supply Chain, The Copperbelt University, Zambia

**Dr. EGWAKHE A. JOHNSON**

Professor, Babcock University, Ilishan-Remo, Ogun State, Nigeria

**Dr. A. SURYANARAYANA**

Professor, Department of Business Management, Osmania University, Hyderabad

**Dr. MURAT DARÇIN**

Associate Dean, Gendarmerie and Coast Guard Academy, Ankara, Turkey

**Dr. ABHAY BANSAL**

Head, Department of I.T., Amity School of Engineering &amp; Technology, Amity University, Noida

**Dr. YOUNOS VAKIL ALROAIA**

Head of International Center, DOS in Management, Semnan Branch, Islamic Azad University, Semnan, Iran

**WILLIAM NKOMO**

Asst. Head of the Department, Faculty of Computing, Botho University, Francistown, Botswana

**Dr. JAYASHREE SHANTARAM PATIL (DAKE)**

Head of the Department, Badruka PG Centre, Hyderabad

**SHASHI KHURANA**

Associate Professor, S. M. S. Khalsa Lubana Girls College, Barara, Ambala

**Dr. SEOW TA WEEA**

Associate Professor, Universiti Tun Hussein Onn Malaysia, Parit Raja, Malaysia

**Dr. OKAN VELİ ŞAFKLI**

Associate Professor, European University of Lefke, Lefke, Cyprus

**Dr. MOHENDER KUMAR GUPTA**

Associate Professor, Government College, Hodal

**Dr. BORIS MILOVIC**

Associate Professor, Faculty of Sport, Union Nikola Tesla University, Belgrade, Serbia

**Dr. MOHAMMAD TALHA**

Associate Professor, Department of Accounting &amp; MIS, College of Industrial Management, King Fahd University of Petroleum &amp; Minerals, Dhahran, Saudi Arabia

**Dr. V. SELVAM**

Associate Professor, SSL, VIT University, Vellore

**Dr. IQBAL THONSE HAWALDAR**

Associate Professor, College of Business Administration, Kingdom University, Bahrain

**Dr. PARDEEP AHLAWAT**

Associate Professor, Institute of Management Studies &amp; Research, Maharshi Dayanand University, Rohtak

**Dr. ALEXANDER MOSESOV**

Associate Professor, Kazakh-British Technical University (KBUTU), Almaty, Kazakhstan

**Dr. ASHOK KUMAR CHAUHAN**

Reader, Department of Economics, Kurukshetra University, Kurukshetra

**YU-BING WANG**

Faculty, department of Marketing, Feng Chia University, Taichung, Taiwan

**SURJEET SINGH**

Faculty, Department of Computer Science, G. M. N. (P.G.) College, Ambala Cantt.

**Dr. MELAKE TEWOLDE TECLEGHIORGIS**

Faculty, College of Business &amp; Economics, Department of Economics, Asmara, Eritrea

**Dr. RAJESH MODI**

Faculty, Yanbu Industrial College, Kingdom of Saudi Arabia

**Dr. SAMBHAVNA**

Faculty, I.I.T.M., Delhi

**Dr. THAMPOE MANAGALESWARAN**

Faculty, Vavuniya Campus, University of Jaffna, Sri Lanka

**Dr. SHIVAKUMAR DEENE**

Faculty, Dept. of Commerce, School of Business Studies, Central University of Karnataka, Gulbarga

## **CALL FOR MANUSCRIPTS**

We invite unpublished novel, original, empirical and high quality research work pertaining to the recent developments & practices in the areas of Computer Science & Applications; Commerce; Business; Finance; Marketing; Human Resource Management; General Management; Banking; Economics; Tourism Administration & Management; Education; Law; Library & Information Science; Defence & Strategic Studies; Electronic Science; Corporate Governance; Industrial Relations; and emerging paradigms in allied subjects like Accounting; Accounting Information Systems; Accounting Theory & Practice; Auditing; Behavioral Accounting; Behavioral Economics; Corporate Finance; Cost Accounting; Econometrics; Economic Development; Economic History; Financial Institutions & Markets; Financial Services; Fiscal Policy; Government & Non Profit Accounting; Industrial Organization; International Economics & Trade; International Finance; Macro Economics; Micro Economics; Rural Economics; Co-operation; Demography; Development Planning; Development Studies; Applied Economics; Development Economics; Business Economics; Monetary Policy; Public Policy Economics; Real Estate; Regional Economics; Political Science; Continuing Education; Labour Welfare; Philosophy; Psychology; Sociology; Tax Accounting; Advertising & Promotion Management; Management Information Systems (MIS); Business Law; Public Responsibility & Ethics; Communication; Direct Marketing; E-Commerce; Global Business; Health Care Administration; Labour Relations & Human Resource Management; Marketing Research; Marketing Theory & Applications; Non-Profit Organizations; Office Administration/Management; Operations Research/Statistics; Organizational Behavior & Theory; Organizational Development; Production/Operations; International Relations; Human Rights & Duties; Public Administration; Population Studies; Purchasing/Materials Management; Retailing; Sales/Selling; Services; Small Business Entrepreneurship; Strategic Management Policy; Technology/Innovation; Tourism & Hospitality; Transportation Distribution; Algorithms; Artificial Intelligence; Compilers & Translation; Computer Aided Design (CAD); Computer Aided Manufacturing; Computer Graphics; Computer Organization & Architecture; Database Structures & Systems; Discrete Structures; Internet; Management Information Systems; Modeling & Simulation; Neural Systems/Neural Networks; Numerical Analysis/Scientific Computing; Object Oriented Programming; Operating Systems; Programming Languages; Robotics; Symbolic & Formal Logic; Web Design and emerging paradigms in allied subjects.

Anybody can submit the **soft copy** of unpublished novel; original; empirical and high quality **research work/manuscript** **anytime** in **M.S. Word format** after preparing the same as per our **GUIDELINES FOR SUBMISSION**; at our email address i.e. [infoijrcm@gmail.com](mailto:infoijrcm@gmail.com) or online by clicking the link **online submission** as given on our website (**[FOR ONLINE SUBMISSION, CLICK HERE](#)**).

## **GUIDELINES FOR SUBMISSION OF MANUSCRIPT**

### 1. **COVERING LETTER FOR SUBMISSION:**

DATED: \_\_\_\_\_

**THE EDITOR**

IJRCM

**Subject:** SUBMISSION OF MANUSCRIPT IN THE AREA OF \_\_\_\_\_.

(e.g. Finance/Mkt./HRM/General Mgt./Engineering/Economics/Computer/IT/ Education/Psychology/Law/Math/other, please specify)

**DEAR SIR/MADAM**

Please find my submission of manuscript titled ' \_\_\_\_\_ ' for likely publication in one of your journals.

I hereby affirm that the contents of this manuscript are original. Furthermore, it has neither been published anywhere in any language fully or partly, nor it is under review for publication elsewhere.

I affirm that all the co-authors of this manuscript have seen the submitted version of the manuscript and have agreed to inclusion of their names as co-authors.

Also, if my/our manuscript is accepted, I agree to comply with the formalities as given on the website of the journal. The Journal has discretion to publish our contribution in any of its journals.

**NAME OF CORRESPONDING AUTHOR**

Designation/Post\*

Institution/College/University with full address & Pin Code

Residential address with Pin Code

Mobile Number (s) with country ISD code

Is WhatsApp or Viber active on your above noted Mobile Number (Yes/No)

Landline Number (s) with country ISD code

E-mail Address

Alternate E-mail Address

Nationality

\* i.e. Alumnus (Male Alumni), Alumna (Female Alumni), Student, Research Scholar (M. Phil), Research Scholar (Ph. D.), JRF, Research Assistant, Assistant Lecturer, Lecturer, Senior Lecturer, Junior Assistant Professor, Assistant Professor, Senior Assistant Professor, Co-ordinator, Reader, Associate Professor, Professor, Head, Vice-Principal, Dy. Director, Principal, Director, Dean, President, Vice Chancellor, Industry Designation etc. **The qualification of author is not acceptable for the purpose.**

**NOTES:**

- a) The whole manuscript has to be in **ONE MS WORD FILE** only, which will start from the covering letter, inside the manuscript. **pdf. version is liable to be rejected without any consideration.**
  - b) The sender is required to mention the following in the **SUBJECT COLUMN of the mail:**  
**New Manuscript for Review in the area of** (e.g. Finance/Marketing/HRM/General Mgt./Engineering/Economics/Computer/IT/ Education/Psychology/Law/Math/other, please specify)
  - c) There is no need to give any text in the body of the mail, except the cases where the author wishes to give any **specific message** w.r.t. to the manuscript.
  - d) The total size of the file containing the manuscript is expected to be below **1000 KB**.
  - e) Only the **Abstract will not be considered for review** and the author is required to submit the **complete manuscript** in the first instance.
  - f) **The journal gives acknowledgement w.r.t. the receipt of every email within twenty-four hours** and in case of non-receipt of acknowledgment from the journal, w.r.t. the submission of the manuscript, within two days of its submission, the corresponding author is required to demand for the same by sending a separate mail to the journal.
  - g) The author (s) name or details should not appear anywhere on the body of the manuscript, except on the covering letter and the cover page of the manuscript, in the manner as mentioned in the guidelines.
2. **MANUSCRIPT TITLE:** The title of the paper should be typed in **bold letters, centered and fully capitalised**.
  3. **AUTHOR NAME (S) & AFFILIATIONS:** Author (s) **name, designation, affiliation (s), address, mobile/landline number (s), and email/alternate email address** should be given underneath the title.
  4. **ACKNOWLEDGMENTS:** Acknowledgements can be given to reviewers, guides, funding institutions, etc., if any.
  5. **ABSTRACT:** Abstract should be in **fully italic printing**, ranging between **150 to 300 words**. The abstract must be informative and elucidating the background, aims, methods, results & conclusion in a **SINGLE PARA**. **Abbreviations must be mentioned in full**.
  6. **KEYWORDS:** Abstract must be followed by a list of keywords, subject to the maximum of **five**. These should be arranged in alphabetic order separated by commas and full stop at the end. All words of the keywords, including the first one should be in small letters, except special words e.g. name of the Countries, abbreviations etc.
  7. **JEL CODE:** Provide the appropriate Journal of Economic Literature Classification System code (s). JEL codes are available at [www.aea-web.org/econlit/jelCodes.php](http://www.aea-web.org/econlit/jelCodes.php). However, mentioning of JEL Code is not mandatory.
  8. **MANUSCRIPT:** Manuscript must be in **BRITISH ENGLISH** prepared on a standard A4 size **PORTRAIT SETTING PAPER**. **It should be free from any errors i.e. grammatical, spelling or punctuation. It must be thoroughly edited at your end.**
  9. **HEADINGS:** All the headings must be bold-faced, aligned left and fully capitalised. Leave a blank line before each heading.
  10. **SUB-HEADINGS:** All the sub-headings must be bold-faced, aligned left and fully capitalised.
  11. **MAIN TEXT:**

**THE MAIN TEXT SHOULD FOLLOW THE FOLLOWING SEQUENCE:****INTRODUCTION****REVIEW OF LITERATURE****NEED/IMPORTANCE OF THE STUDY****STATEMENT OF THE PROBLEM****OBJECTIVES****HYPOTHESIS (ES)****RESEARCH METHODOLOGY****RESULTS & DISCUSSION****FINDINGS****RECOMMENDATIONS/SUGGESTIONS****CONCLUSIONS****LIMITATIONS****SCOPE FOR FURTHER RESEARCH****REFERENCES****APPENDIX/ANNEXURE****The manuscript should preferably be in 2000 to 5000 WORDS, But the limits can vary depending on the nature of the manuscript.**

12. **FIGURES & TABLES:** These should be simple, crystal **CLEAR, centered, separately numbered** & self-explained, and the **titles must be above the table/figure. Sources of data should be mentioned below the table/figure. It should be ensured that the tables/figures are referred to from the main text.**
13. **EQUATIONS/FORMULAE:** These should be consecutively numbered in parenthesis, left aligned with equation/formulae number placed at the right. The equation editor provided with standard versions of Microsoft Word may be utilised. If any other equation editor is utilised, author must confirm that these equations may be viewed and edited in versions of Microsoft Office that does not have the editor.
14. **ACRONYMS:** These should not be used in the abstract. The use of acronyms is elsewhere is acceptable. Acronyms should be defined on its first use in each section e.g. Reserve Bank of India (RBI). Acronyms should be redefined on first use in subsequent sections.
15. **REFERENCES:** The list of all references should be alphabetically arranged. **The author (s) should mention only the actually utilised references in the preparation of manuscript** and they may follow Harvard Style of Referencing. **Also check to ensure that everything that you are including in the reference section is duly cited in the paper.** The author (s) are supposed to follow the references as per the following:
  - All works cited in the text (including sources for tables and figures) should be listed alphabetically.
  - Use (ed.) for one editor, and (ed.s) for multiple editors.
  - When listing two or more works by one author, use --- (20xx), such as after Kohl (1997), use --- (2001), etc., in chronologically ascending order.
  - Indicate (opening and closing) page numbers for articles in journals and for chapters in books.
  - The title of books and journals should be in italic printing. Double quotation marks are used for titles of journal articles, book chapters, dissertations, reports, working papers, unpublished material, etc.
  - For titles in a language other than English, provide an English translation in parenthesis.
  - **Headers, footers, endnotes and footnotes should not be used in the document.** However, **you can mention short notes to elucidate some specific point**, which may be placed in number orders before the references.

**PLEASE USE THE FOLLOWING FOR STYLE AND PUNCTUATION IN REFERENCES:**

## ABSTRACT

After 1991, there has been numerous structural changes in the policies of India. Due to the changes, there has been changes in the of Foreign Direct Investment inflows in the Indian economy. The study is conducted to know the determinants for FDI inflow in India and its impact on economic growth of the country. The study revealed that FINANCIAL POSITION, TRADE GDP and R&D GDP are the determinants which significantly influence the FDI inflows in India. They act as the important macroeconomic determinants and pull factors of FDI inflows in India. The study also reveals that FDI is not a significant factor influencing the level of economic growth in India. The results of Economic Growth Model and Foreign Direct Investment Model show that FDI plays a limited role in enhancing the level of economic growth in the country.

## KEYWORDS

Indian economy, foreign direct investment (FDI).

## INTRODUCTION

Foreign direct investment (FDI) is a process whereby the residents of the source country attain ownership of assets with the intention to control the production, distribution and other activities of a firm in the host country. The International Monetary Fund's Balance of Payments Manual defines FDI as, "an investment that is made to acquire a lasting interest in an enterprise operating in an economy other than that of the investor, the investor's purpose being to have an effective voice in the management of the enterprise". The United Nations World Investment Report (UNCTAD, 1999) defines FDI as, "an investment involving a long-term relationship and reflecting a lasting interest and control of a resident entity in one economy (foreign direct investor or parent enterprise) in an enterprise resident in an economy other than that of the foreign direct investor (FDI enterprise, affiliate enterprise or foreign affiliate)".

Direct investment across national borders is a distinct feature of international economics, which has gained intense attention of all the countries of the world recently. Foreign direct investment is deemed to be a growth catalyst since it is usually accompanied by entrepreneurial, managerial and technical skills which are indispensable for economic growth (Humphrey, 1960). Foreign direct investment is one of the most strategic and vital tools for developing a country's competitiveness and efforts must be made to garner huge share of FDI in the country (Badar, 2006). Going by this ideology FDI is being sought by most of the developing countries of the world for promoting the cause of economic development.

FDI to developing countries in the 1990s was the leading source of external financing and has become a key component of national development strategies for almost all the countries in the world as a vehicle for technology flows and an important source of non-debt inflows for attaining competitive efficiency by creating a meaningful network of global interconnections. FDI provide opportunities to host countries to enhance their economic development and opens new opportunities to home countries to optimize their earnings by employing their ideal resources.

From the recent past, it has been perceived that foreign direct investment plays a developmental role. Governments are of point of view that foreign direct investment can help the countries to pass through the phase of stagnation and bypass poverty. Since mid-eighties, there has been huge growth of foreign direct investment resulting into changes in the particular's countries attributes such as changes in technology, privatization, change in trade norms, managerial expertise, etc. Foreign Direct Investment inflow, which comes as a composite bundle of tangible and intangible asset, which along with the domestic investments increases the growth of the country by efficiently using resources and expands markets by increasing exports.

## REVIEW OF LITERATURE

To increase the flow of FDI inflows, so far many studies have been conducted around the globe over the different period of time for exploring the determinants of FDI inflows in an economy. Bhagwati, J.N (1978), in his study analyzed the impact of FDI on international trade. He concluded that countries actively pursuing export led growth strategy can reap enormous benefits from FDI. Cho (2004) points out that the attractiveness of the economic conditions in host countries; the policy framework towards the private sector, trade and industry, and FDI and its implementation by host governments; and the investment strategies of multinational enterprises are three factors influencing FDI inflows in an economy. Singh (2005) in his study explores the uneven beginnings of FDI, in India and examines the developments (economic and political) relating to the trends in two sectors: industry and infrastructure. The study concludes that the impact of the reforms in India on the policy environment for FDI presents a mixed picture. The industrial reforms have gone far, though they need to be supplemented by more infrastructure reforms, which are a critical missing link. Chowdhury and Mavrotas (2006) examines the causal relationship between FDI and economic growth by using an innovative econometric methodology to study the direction of causality between the two variables and found that it is GDP that causes FDI in the case of Chile and not vice versa, while for both Malaysia and Thailand, there is a strong evidence of a bi-directional causality between the two variables. Khaliq and Noy (2007) investigates the impact of foreign direct investment (FDI) on economic growth using detailed sectoral data for FDI inflows to Indonesia over the period 1997-2006 and found in the aggregate level, FDI is observed to have a positive effect on economic growth. However, when accounting for the different average growth performance across sectors, the beneficial impact of FDI is no longer apparent. When examining different impacts across sectors, estimation results show that the composition of FDI matters for its effect on economic growth with very few sectors showing positive impact of FDI and one sector even showing a robust negative impact of FDI inflows. Nuno and Maria (2007) in their paper analyze the factors determining the existence, dimensions and sign of FDI spillovers. They identify that FDI spillovers depend on many factors like absorptive capacities of domestic firms and regions, the technological gap, or the export capacity. Sharma (2011) also identifies that complexity in doing business, insufficient growth of service sector, lack of adequate infrastructure and lack of skilled manpower are significant

factors influencing FDI inflows. **Solomon (2011)** analyses how the levels of economic development, human capital, financial development and the qualities of the economic and political environments in host countries simultaneously affects the impact of aggregate inflows of Foreign Direct Investment (FDI) on economic growth. The results show that the level of economic development, human capital and quality of the political environment all significantly affect the relationship between inward FDI and growth. **Almfraji and Almsafir (2014)** examined the relationships between FDI and EG, especially the effects of FDI on EG, from 1994 up to 2012 and found that FDI-EG relation is significantly positive, but in some cases it is negative or even null. And within the relation, there exist several influencing factors such as the adequate levels of human capital, the well-developed financial markets, the complementarity between domestic and foreign investment and the open trade regimes, etc. **Melnyk, et al. (2014)** investigates the impact of foreign direct investing on economic development of post Comecon transition economy countries by using Neoclassical growth theory model is used to analyze the effects of FDI on economic growth and the results showed significant FDI influence on economic growth of host countries. **Zekarias (2016)** analyzed the impact of Foreign Direct Investment (FDI) on Economic growth in 14 Eastern Africa countries by employing 34 years (1980-2013) panel data, using dynamic GMM estimators after checking for autocorrelation and model specification tests and confirms that FDI has positive and marginally significant effect of FDI on economic growth, the rate of economic conditional convergence at 5%, absence of significant crowding out effect moving from FDI to domestic investment, interdependence of domestic investment and trade openness in the sub-region.

## OBJECTIVES OF THE STUDY

The objective of the study is to evaluate the impact of FDI on the economy. To achieve the objectives of the paper, the study has been done for the period of 1991-2014 (Post Liberalization period).

## RESEARCH METHODOLOGY

### DATA COLLECTION

This study is based on secondary data. The required data have been collected from various sources i.e. World Investment Reports, Asian Development Bank's Reports, various Bulletins of Reserve Bank of India, publications from Ministry of Commerce, Govt. of India, Economic and Social Survey of Asia and the Pacific, United Nations, Asian Development Outlook, Country Reports on Economic Policy and Trade Practice- Bureau of Economic and Business Affairs, U.S. Department of State and from websites of World Bank, IMF, WTO, RBI, UNCTAD, EXIM Bank etc. It is a time series data and the relevant data have been collected for the period 1991 to 2014.

### SELECTION OF VARIABLES

Existing literature was used to choose the right group of variables that clarifies the differences in the flow of the country. As per specifications of UNCTAD, different variable combinations were made. Simple and multiple regression methods are applied to find out the explanatory variables of the FDI inflows in the country in two steps. In the first step, all variables are taken into consideration in the estimable model and in the second stage, few variables which are insignificant are dropped to avoid the problem of multi-co linearity, otherwise the results would have been biased and untrue. Following are the macroeconomic indicators which are considered as the pull factors like: total trade (TRADEGDP), research and development expenditure (R&D GDP), financial position (FIN. Position), exchange rate (EXR), foreign exchange reserves (RESERVES GDP), and foreign direct investment (FDI), foreign direct investment growth rate (FDIG) and level of economic growth (GDPG) are used in the model to gauge the impact.

### MODEL BUILDING

Further, to study the impact of foreign direct investment on economic growth, two models were framed and fitted. The foreign direct investment model shows the factors influencing the foreign direct investment in India. The economic growth model depicts the contribution of foreign direct investment to economic growth. The two model equations are expressed below:

$$FDI = f [TRADEGDP, RESGDP, R\&DGDP, FIN. Position, EXR.]$$

$$GDPG = f [FDIG]$$

Where,

FDI = Foreign Direct Investment

GDP = Gross Domestic Product

TRADE GDP = Total Trade as percentage of GDP.

RES GDP = Foreign Exchange Reserves as percentage of GDP.

R&D GDP = Research & development expenditure as percentage of GDP.

FIN. Position = Ratio of external debts to exports

(Financial Position)

EXR = Exchange rate

GDPG = Level of Economic Growth

FDIG = Foreign Direct Investment Growth.

Regression analysis (Simple & Multiple Regression) was carried out using relevant econometric techniques. Simple regression method was used to measure the impact of FDI flows on economic growth (proxied by GDP growth). Further, multiple regression analysis was used to identify the major variables which have impact on foreign direct investment. Relevant econometric tests such as coefficient of determination R<sup>2</sup>, Durbin-Watson [D-W] statistic, Standard error of coefficients, T Statistics and F- ratio were carried out in order to assess the relative significance, desirability and reliability of model estimation parameters.

## FINDINGS AND DISCUSSION

### MODEL – I

$$FDI = f [TRADEGDP, RESGDP, R\&DGDP, FIN. Position, EXR.]$$

### Hypothesis

H1: There exists a significant impact between FDI and determinants of FDI.

TABLE 1: CORRELATION MATRIX OF FDI AND DETERMINANTS OF FDI

Correlations <sup>a</sup>		FDI	GDP	FIN Pos	TRADE GDP	RES GDP	R&D GDP	EXR
FDI	Pearson Correlation	1						
	Sig. (2-tailed)							
	N	24						
GDP	Pearson Correlation	.883**	1					
	Sig. (2-tailed)	.000						
	N	24	24					
FIN Pos	Pearson Correlation	-.717**	-.732**	1				
	Sig. (2-tailed)	.000	.000					
	N	24	24	24				
TRADE GDP	Pearson Correlation	.904**	.940**	-.866**	1			
	Sig. (2-tailed)	.000	.000	.000				
	N	24	24	24	24			
RES GDP	Pearson Correlation	.745**	.683**	-.895**	.842**	1		
	Sig. (2-tailed)	.000	.000	.000	.000			
	N	24	24	24	24	24		
R&D GDP	Pearson Correlation	.741**	.783**	-.967**	.863**	.817**	1

	N	24	24	24	24	24	24	24

\*\* . Correlation is significant at the 0.01 level (2-tailed).

\* . Correlation is significant at the 0.05 level (2-tailed).

a. Stat = India

A total of five sub hypothesis are tested with the help of regression analysis and explained statistically.

TABLE 2: MODEL SUMMARY FDI AND DETERMINANTS OF FDI

Model Summary <sup>a</sup>					
Model	R	R Square	Adjusted R Square	Std. Error of the Estimate	Durbin-Watson
1	.938 <sup>b</sup>	.880	.846	5753.83538134	1.413
a. State = India					
b. Predictors: (Constant), EXR, RES GDP, TRADE GDP, FIN Pos, R&D GDP					

In the above table (Table 2), the R value represents the association that the dependent variable (FDI) has with all independent variable or predictors. The R<sup>2</sup> value (.880) depicts the amount of variance explained by all the independent variables (determinants) accounting in for Foreign Direct Investment (FDI). In case where the number of independent variables is more than 1, the adjusted R square values are considered which comes out to be .846 in this case. The value of adjusted R square depicts that determinants of FDI influence 84.6% of FDI.

TABLE 3: ANNOVA TABLE - FDI AND DETERMINANTS OF FDI

ANOVA <sup>a,b</sup>						
Model		Sum of Squares	df	Mean Square	F	Sig.
1	Regression	4363668036.733	5	872733607.347	26.361	.000 <sup>c</sup>
	Residual	595919188.720	18	33106621.596		
	Total	4959587225.453	23			

a. State = India

b. Dependent Variable: FDI

c. Predictors: (Constant), EXR, RES GDP, TRADE GDP, FIN Pos, R&D GDP

The above table (Table 3) talks about the significance of the model. The Significance value (less than .05) confirms that the model is significant at 95% degree of freedom. In other words, it depicts that various determinants of FDI influences FDI. Further, in the analysis (B) values are calculated to check which determinant of FDI significantly influences the FDI.

TABLE 4: COEFFICIENTS SUMMARY: FDI AND DETERMINANTS OF FDI

TABLE 4: COEFFICIENTS SUMMARY TABLE AND DETERMINANTS OF FDI								
Coefficients <sup>a,b</sup>		Unstandardized Coefficients		Standardized Coefficients	t	Sig.	Collinearity Statistics	
Model		B	Std. Error	Beta			Tol	VIF
1	(Constant)	-138469.595	45936.766		-3.014	.007		
	FIN Pos.	20839.295	7674.296	1.343	2.715	.014	.027	36.635
	TRADE GDP	994.657	203.331	.920	4.892	.000	.189	5.297
	RES GDP	924.203	544.394	.386	1.698	.107	.129	7.748
	R&D GDP	143282.459	57524.060	1.340	2.491	.023	.023	43.351
	EXR	-699.736	357.094	-.446	-1.960	.066	.129	7.750

a. State = India

b. Dependent Variable: FDI

The above table (Table 4) shows that FINANCIAL POSITION, TRADE GDP and R&D GDP are the determinants (p value < .05) which significantly influence the Foreign Direct Investment in India. In other words, we can say that there are only three determinants of FDI named that FINANCIAL POSITION, TRADE GDP and R&D GDP which influence the FDI in India.

A regression equation, thus has been drawn after eliminating the insignificant variables from the regression and thus the regression equation thus can be written as:

$$Y = B_1X_1 + B_2X_2 + B_3X_3 + C$$

$$FDI = 20839.295 (FIN Pos) + 994.657 (TRADE GDP) + 143282.459 (R\&D GDP) + (-138469.595)$$

TABLE 5: SUMMARY OF SUB HYPOTHESIS FORMULATED

Hypothesis Formulated	Status of Acceptance
H <sub>1a</sub> : There is a significant impact between FDI and FIN Pos	Accepted
H <sub>1b</sub> : There is a significant impact between FDI and TRADE GDP	Accepted
H <sub>1c</sub> : There is a significant impact between FDI and RES GDP	Not Accepted
H <sub>1d</sub> : There is a significant impact between FDI and R&D GDP	Accepted
H <sub>1e</sub> : There is a significant impact between FDI and EXR	Not Accepted

**MODEL – II**

GDP G = f [FDI G]

**Hypothesis**H<sub>2</sub>: There exists a significant impact between GDP G and determinants of FDI G.

TABLE 6: CORRELATION MATRIX OF GDP G AND FDI G

Correlations <sup>a</sup>			
		GDP G	FDI G
GDP G	Pearson Correlation	1	
	Sig. (2-tailed)		
	N	24	
FDI G	Pearson Correlation	.077	1
	Sig. (2-tailed)	.722	
	N	24	24
**. Correlation is significant at the 0.01 level (2-tailed).			
*. Correlation is significant at the 0.05 level (2-tailed).			
a. Stat = India			

TABLE 7: MODEL SUMMARY GDP G AND FDI G

Model Summary <sup>a</sup>					
Model	R	R Square	Adjusted R Square	Std. Error of the Estimate	Durbin-Watson
1	.077 <sup>b</sup>	.006	-.039	2.42223839	1.859

a. State = India

b. Predictors: (Constant), FDI G

In the above table (Table 7), the R value represents the association that the dependent variable (GDP) has with independent variable or predictor. The R<sup>2</sup> value (.006) depicts the amount of variance explained by the independent variables (FDI G) accounting in for GDP growth.

TABLE 8: ANNOVA TABLE – GDP G AND FDI G

ANOVA <sup>a,b</sup>						
Model		Sum of Squares	df	Mean Square	F	Sig.
1	Regression	.764	1	.764	.130	.722 <sup>c</sup>
	Residual	129.079	22	5.867		
	Total	129.844	23			

a. State = India

b. Dependent Variable: GDP G

c. Predictors: (Constant), FDI G

The above table (Table 8) talks about the significance of the model. The Significance value (more than .05) confirms that the model is not significant at 95% degree of freedom. In other words, it depicts that FDI Growth does not scientifically influence GDP Growth. Further, in the analysis (B) values are calculated to check the level of insignificance.

TABLE 9: COEFFICIENTS SUMMARY: FDI AND DETERMINANTS OF FDI

TABLE 5. COEFFICIENTS SUMMARY: FDI AND DETERMINANTS OF FDI								
Coefficients <sup>a,b</sup>		Unstandardized Coefficients		Standardized Coefficients	T	Sig.	Collinearity Statistics	
Model		B	Std. Error	Beta			Tol	VIF
1	(Constant)	6.289	.569		11.054	.000		
	FDI G	.003	.007	.077	.361	.722	1.000	1.000

a. State = India

b. Dependent Variable: GDP G

The above table (Table 9) shows that FDI Growth is the factor (p value > .05) which significantly does not influence the GDP Growth in India. In other words we can say that that FDI Growth does not scientifically influence the GDP Growth in India.

TABLE 10: SUMMARY OF SUB HYPOTHESIS FORMULATED

Hypothesis Formulated	Status of Acceptance
H <sub>2a</sub> : There is a significant impact between GDP G and FDI G	Not Accepted

**CONCLUSION**

It has been found that FINANCIAL POSITION, TRADE GDP and R&D GDP are the determinants which significantly influence the FDI inflows in India. They act as the important macroeconomic determinants and pull factors of FDI inflows in India. Thus, it is concluded that the above analysis is successful in identifying those variables which are important in attracting FDI inflows to the country. The study also reveals that FDI is not a significant factor influencing the level of economic growth in India. The results of Economic Growth Model and Foreign Direct Investment Model show that FDI plays a limited role in enhancing the level of economic growth in the country.

## **REQUEST FOR FEEDBACK**

**Dear Readers**

At the very outset, International Journal of Research in Commerce, IT & Management (IJRCM) acknowledges & appreciates your efforts in showing interest in our present issue under your kind perusal.

I would like to request you to supply your critical comments and suggestions about the material published in this issue, as well as on the journal as a whole, on our e-mail [infoijrcm@gmail.com](mailto:infoijrcm@gmail.com) for further improvements in the interest of research.

If you have any queries, please feel free to contact us on our e-mail [infoijrcm@gmail.com](mailto:infoijrcm@gmail.com).

I am sure that your feedback and deliberations would make future issues better – a result of our joint effort.

Looking forward to an appropriate consideration.

With sincere regards

Thanking you profoundly

**Academically yours**

Sd/-  
**Co-ordinator**

## ABOUT THE JOURNAL

In this age of Commerce, Economics, Computer, I.T. & Management and cut throat competition, a group of intellectuals felt the need to have some platform, where young and budding managers and academicians could express their views and discuss the problems among their peers. This journal was conceived with this noble intention in view. This journal has been introduced to give an opportunity for expressing refined and innovative ideas in this field. It is our humble endeavour to provide a springboard to the upcoming specialists and give a chance to know about the latest in the sphere of research and knowledge. We have taken a small step and we hope that with the active co-operation of like-minded scholars, we shall be able to serve the society with our humble efforts.
