CHIEF PATRON**Prof. (Dr.) K. K. AGGARWAL**

Chairman, Malaviya National Institute of Technology, Jaipur
(An institute of National Importance & fully funded by Ministry of Human Resource Development, Government of India)
 Chancellor, K. R. Mangalam University, Gurgaon
 Chancellor, Lingaya's University, Faridabad
 Founder Vice-Chancellor (1998-2008), Guru Gobind Singh Indraprastha University, Delhi
 Ex. Pro Vice-Chancellor, Guru Jambheshwar University, Hisar

FOUNDER PATRON**Late Sh. RAM BHAJAN AGGARWAL**

Former State Minister for Home & Tourism, Government of Haryana
 Former Vice-President, Dadri Education Society, Charkhi Dadri
 Former President, Chinara Syntex Ltd. (Textile Mills), Bhiwani

FORMER CO-ORDINATOR**Dr. S. GARG**

Faculty, Shree Ram Institute of Business & Management, Urjani

ADVISOR**Prof. S. L. MAHANDRU**

Principal (Retd.), Maharaja Agrasen College, Jagadhri

EDITOR**Dr. R. K. SHARMA**

Professor & Dean, Bharti Vidyapeeth University Institute of Management & Research, New Delhi

CO-EDITOR**Dr. BHAVET**

Faculty, Shree Ram Institute of Engineering & Technology, Urjani

EDITORIAL ADVISORY BOARD**Dr. S. P. TIWARI**

Head, Department of Economics & Rural Development, Dr. Ram Manohar Lohia Avadh University, Faizabad

Dr. CHRISTIAN EHIOBUCHÉ

Professor of Global Business/Management, Larry L. Luong School of Business, Berkeley College, Woodland
 Park NJ 07424, USA

Dr. SIKANDER KUMAR

Chairman, Department of Economics, Himachal Pradesh University, Shimla, Himachal Pradesh

Dr. JOSÉ G. VARGAS-HERNÁNDEZ

Research Professor, University Center for Economic & Managerial Sciences, University of Guadalajara, Guadalajara, Mexico

Dr. M. N. SHARMA

Chairman, M.B.A., Haryana College of Technology & Management, Kaithal

Dr. TEGUH WIDODO

Dean, Faculty of Applied Science, Telkom University, Bandung Technoplex, Jl. Telekomunikasi, Terusan
 Buah Batu, Kabupaten Bandung, Indonesia

Dr. M. S. SENAM RAJU

Director A. C. D., School of Management Studies, I.G.N.O.U., New Delhi

Dr. CLIFFORD OBIYO OFURUM

Director, Department of Accounting, University of Port Harcourt, Rivers State, Nigeria

Dr. KAUP MOHAMED

Dean & Managing Director, London American City College/ICBEST, United Arab Emirates

SUNIL KUMAR KARWASRA

Principal, Aakash College of Education, ChanderKalan, Tohana, Fatehabad

Dr. MIKE AMUHAYA IRAVO

Principal, Jomo Kenyatta University of Agriculture and Technology, Westlands Campus, Nairobi-Kenya

Dr. S. TABASSUM SULTANA

Principal, Matrusri Institute of P.G. Studies, Hyderabad

Dr. NEPOMUCENO TIU

Chief Librarian & Professor, Lyceum of the Philippines University, Laguna, Philippines

Dr. SANJIV MITTAL

Professor, University School of Management Studies, Guru Gobind Singh I. P. University, Delhi

Dr. ANA ŠTAMBUK

Head of Department in Statistics, Faculty of Economics, University of Rijeka, Rijeka, Croatia

Dr. RAJENDER GUPTA

Convener, Board of Studies in Economics, University of Jammu, Jammu

Dr. SHIB SHANKAR ROY

Professor, Department of Marketing, University of Rajshahi, Rajshahi, Bangladesh

Dr. ANIL K. SAINI

Chairperson (CRC), Guru Gobind Singh I. P. University, Delhi

CALL FOR MANUSCRIPTS

We invite unpublished novel, original, empirical and high quality research work pertaining to the recent developments & practices in the areas of Computer Science & Applications; Commerce; Business; Finance; Marketing; Human Resource Management; General Management; Banking; Economics; Tourism Administration & Management; Education; Law; Library & Information Science; Defence & Strategic Studies; Electronic Science; Corporate Governance; Industrial Relations; and emerging paradigms in allied subjects like Accounting; Accounting Information Systems; Accounting Theory & Practice; Auditing; Behavioral Accounting; Behavioral Economics; Corporate Finance; Cost Accounting; Econometrics; Economic Development; Economic History; Financial Institutions & Markets; Financial Services; Fiscal Policy; Government & Non Profit Accounting; Industrial Organization; International Economics & Trade; International Finance; Macro Economics; Micro Economics; Rural Economics; Co-operation; Demography; Development Planning; Development Studies; Applied Economics; Development Economics; Business Economics; Monetary Policy; Public Policy Economics; Real Estate; Regional Economics; Political Science; Continuing Education; Labour Welfare; Philosophy; Psychology; Sociology; Tax Accounting; Advertising & Promotion Management; Management Information Systems (MIS); Business Law; Public Responsibility & Ethics; Communication; Direct Marketing; E-Commerce; Global Business; Health Care Administration; Labour Relations & Human Resource Management; Marketing Research; Marketing Theory & Applications; Non-Profit Organizations; Office Administration/Management; Operations Research/Statistics; Organizational Behavior & Theory; Organizational Development; Production/Operations; International Relations; Human Rights & Duties; Public Administration; Population Studies; Purchasing/Materials Management; Retailing; Sales/Selling; Services; Small Business Entrepreneurship; Strategic Management Policy; Technology/Innovation; Tourism & Hospitality; Transportation Distribution; Algorithms; Artificial Intelligence; Compilers & Translation; Computer Aided Design (CAD); Computer Aided Manufacturing; Computer Graphics; Computer Organization & Architecture; Database Structures & Systems; Discrete Structures; Internet; Management Information Systems; Modeling & Simulation; Neural Systems/Neural Networks; Numerical Analysis/Scientific Computing; Object Oriented Programming; Operating Systems; Programming Languages; Robotics; Symbolic & Formal Logic; Web Design and emerging paradigms in allied subjects.

Anybody can submit the **soft copy** of unpublished novel; original; empirical and high quality **research work/manuscript** **anytime** in **M.S. Word format** after preparing the same as per our **GUIDELINES FOR SUBMISSION**; at our email address i.e. infoijrcm@gmail.com or online by clicking the link **online submission** as given on our website (**FOR ONLINE SUBMISSION, CLICK HERE**).

GUIDELINES FOR SUBMISSION OF MANUSCRIPT

1. **COVERING LETTER FOR SUBMISSION:**

DATED: _____

THE EDITOR

IJRCM

Subject: SUBMISSION OF MANUSCRIPT IN THE AREA OF _____.

(e.g. Finance/Mkt./HRM/General Mgt./Engineering/Economics/Computer/IT/ Education/Psychology/Law/Math/other, please specify)

DEAR SIR/MADAM

Please find my submission of manuscript titled ' _____ ' for likely publication in one of your journals.

I hereby affirm that the contents of this manuscript are original. Furthermore, it has neither been published anywhere in any language fully or partly, nor it is under review for publication elsewhere.

I affirm that all the co-authors of this manuscript have seen the submitted version of the manuscript and have agreed to inclusion of their names as co-authors.

Also, if my/our manuscript is accepted, I agree to comply with the formalities as given on the website of the journal. The Journal has discretion to publish our contribution in any of its journals.

NAME OF CORRESPONDING AUTHOR

Designation/Post*

Institution/College/University with full address & Pin Code

Residential address with Pin Code

Mobile Number (s) with country ISD code

Is WhatsApp or Viber active on your above noted Mobile Number (Yes/No)

Landline Number (s) with country ISD code

E-mail Address

Alternate E-mail Address

Nationality

* i.e. Alumnus (Male Alumni), Alumna (Female Alumni), Student, Research Scholar (M. Phil), Research Scholar (Ph. D.), JRF, Research Assistant, Assistant Lecturer, Lecturer, Senior Lecturer, Junior Assistant Professor, Assistant Professor, Senior Assistant Professor, Co-ordinator, Reader, Associate Professor, Professor, Head, Vice-Principal, Dy. Director, Principal, Director, Dean, President, Vice Chancellor, Industry Designation etc. **The qualification of author is not acceptable for the purpose.**

NOTES:

- a) The whole manuscript has to be in **ONE MS WORD FILE** only, which will start from the covering letter, inside the manuscript. **pdf. version is liable to be rejected without any consideration.**
 - b) The sender is required to mention the following in the **SUBJECT COLUMN of the mail:**
New Manuscript for Review in the area of (e.g. Finance/Marketing/HRM/General Mgt./Engineering/Economics/Computer/IT/ Education/Psychology/Law/Math/other, please specify)
 - c) There is no need to give any text in the body of the mail, except the cases where the author wishes to give any **specific message** w.r.t. to the manuscript.
 - d) The total size of the file containing the manuscript is expected to be below **1000 KB**.
 - e) Only the **Abstract will not be considered for review** and the author is required to submit the **complete manuscript** in the first instance.
 - f) **The journal gives acknowledgement w.r.t. the receipt of every email within twenty-four hours** and in case of non-receipt of acknowledgment from the journal, w.r.t. the submission of the manuscript, within two days of its submission, the corresponding author is required to demand for the same by sending a separate mail to the journal.
 - g) The author (s) name or details should not appear anywhere on the body of the manuscript, except on the covering letter and the cover page of the manuscript, in the manner as mentioned in the guidelines.
2. **MANUSCRIPT TITLE:** The title of the paper should be typed in **bold letters, centered and fully capitalised**.
 3. **AUTHOR NAME (S) & AFFILIATIONS:** Author (s) **name, designation, affiliation (s), address, mobile/landline number (s), and email/alternate email address** should be given underneath the title.
 4. **ACKNOWLEDGMENTS:** Acknowledgements can be given to reviewers, guides, funding institutions, etc., if any.
 5. **ABSTRACT:** Abstract should be in **fully italic printing**, ranging between **150 to 300 words**. The abstract must be informative and elucidating the background, aims, methods, results & conclusion in a **SINGLE PARA**. **Abbreviations must be mentioned in full**.
 6. **KEYWORDS:** Abstract must be followed by a list of keywords, subject to the maximum of **five**. These should be arranged in alphabetic order separated by commas and full stop at the end. All words of the keywords, including the first one should be in small letters, except special words e.g. name of the Countries, abbreviations etc.
 7. **JEL CODE:** Provide the appropriate Journal of Economic Literature Classification System code (s). JEL codes are available at www.aea-web.org/econlit/jelCodes.php. However, mentioning of JEL Code is not mandatory.
 8. **MANUSCRIPT:** Manuscript must be in **BRITISH ENGLISH** prepared on a standard A4 size **PORTRAIT SETTING PAPER**. **It should be free from any errors i.e. grammatical, spelling or punctuation. It must be thoroughly edited at your end.**
 9. **HEADINGS:** All the headings must be bold-faced, aligned left and fully capitalised. Leave a blank line before each heading.
 10. **SUB-HEADINGS:** All the sub-headings must be bold-faced, aligned left and fully capitalised.
 11. **MAIN TEXT:**

THE MAIN TEXT SHOULD FOLLOW THE FOLLOWING SEQUENCE:**INTRODUCTION****REVIEW OF LITERATURE****NEED/IMPORTANCE OF THE STUDY****STATEMENT OF THE PROBLEM****OBJECTIVES****HYPOTHESIS (ES)****RESEARCH METHODOLOGY****RESULTS & DISCUSSION****FINDINGS****RECOMMENDATIONS/SUGGESTIONS****CONCLUSIONS****LIMITATIONS****SCOPE FOR FURTHER RESEARCH****REFERENCES****APPENDIX/ANNEXURE****The manuscript should preferably be in 2000 to 5000 WORDS, But the limits can vary depending on the nature of the manuscript.**

12. **FIGURES & TABLES:** These should be simple, crystal **CLEAR, centered, separately numbered** & self-explained, and the **titles must be above the table/figure. Sources of data should be mentioned below the table/figure. It should be ensured that the tables/figures are referred to from the main text.**
13. **EQUATIONS/FORMULAE:** These should be consecutively numbered in parenthesis, left aligned with equation/formulae number placed at the right. The equation editor provided with standard versions of Microsoft Word may be utilised. If any other equation editor is utilised, author must confirm that these equations may be viewed and edited in versions of Microsoft Office that does not have the editor.
14. **ACRONYMS:** These should not be used in the abstract. The use of acronyms is elsewhere is acceptable. Acronyms should be defined on its first use in each section e.g. Reserve Bank of India (RBI). Acronyms should be redefined on first use in subsequent sections.
15. **REFERENCES:** The list of all references should be alphabetically arranged. **The author (s) should mention only the actually utilised references in the preparation of manuscript** and they may follow Harvard Style of Referencing. **Also check to ensure that everything that you are including in the reference section is duly cited in the paper.** The author (s) are supposed to follow the references as per the following:
 - All works cited in the text (including sources for tables and figures) should be listed alphabetically.
 - Use (ed.) for one editor, and (ed.s) for multiple editors.
 - When listing two or more works by one author, use --- (20xx), such as after Kohl (1997), use --- (2001), etc., in chronologically ascending order.
 - Indicate (opening and closing) page numbers for articles in journals and for chapters in books.
 - The title of books and journals should be in italic printing. Double quotation marks are used for titles of journal articles, book chapters, dissertations, reports, working papers, unpublished material, etc.
 - For titles in a language other than English, provide an English translation in parenthesis.
 - **Headers, footers, endnotes and footnotes should not be used in the document.** However, **you can mention short notes to elucidate some specific point**, which may be placed in number orders before the references.

DIGITAL INDIA OPPORTUNITIES AND CHALLENGES

SAPNA
ALUMNA
D.A.V. COLLEGE
CHANDIGARH

ABSTRACT

Digital India is an initiative undertaken by the Government of India to integrate the government departments and the people of India. It aims at ensuring that the government services are made available to citizens electronically by reducing paperwork, increasing transparency, and also curbing corruption to an extent. The initiative also plans to connect rural areas with high-speed internet networks. Vision of Digital India includes providing high speed internet connectivity to 250,000 Gram Panchayats, improve inter-operability, and promote digital literacy. This paper is an effort toward studying the opportunities provided by the digital India programme and what are the challenges faced in the implantation of the programme. Research was done on the basis of secondary data. As per the results digitalisation is the way forward for a highly developed and modernise economy. Digitalisation has its own drawbacks in the form of net illiteracy, cyber security, and network infrastructure and polices.

KEYWORDS

digitalisation, opportunities, security, challenges.

INTRODUCTION

Modi-led NDA government that came to power in May 2014 has launched a big ticket Digital India program at an initial outlay of 1.13 lakh crore that envisages digitally empowering 1.25 billion Indians with an array of Internet-and-mobile aided services. Digital India is a rich, complex programme that cuts across multiple ministries and departments. Digital Technologies, which include Cloud Computing and Mobile Applications, have emerged as catalysts for rapid economic growth and citizen empowerment across the globe. Digital technologies are being increasingly used by us in everyday lives, from retail stores to government offices. They help us connect with each other and also share information on issues and concerns faced by us. In some cases, they also enable resolution of those issues in near real time. Hon'ble Prime Minister envisions transforming our nation and creating opportunities for all citizens by harnessing digital technologies. His vision is to empower every citizen with access to digital services, knowledge and information. Digital India is the next best thing that India is witnessing. It aims at profoundly touching the lives of everyone with the transformation travelling the paths of both rural and urban India. The initiative is powered by three key vision areas and nine strong pillars that shall pave the way for all round implementation by 2019. Digital India sets pace for a makeover that shall change the face of the entire nation, impacting cities, towns, villages everywhere. This pace and energy will also permeate all current and future e-governance projects and take them towards true citizen centricity. Digital India will bridge the stark differences between digital "haves" and digital "have-nots" to ensure that government services reach every household in order to create a long-lasting developmental impact. It will bring in greater thrust to promote inclusive growth that covers electronic services, products, devices and job opportunities. It will facilitate an enabling environment for electronic manufacturing on a much larger scale to match the growing needs of the country.

DIGITAL INDIA

The Government of India has approved the 'Digital India' programme with the vision to transform India into a digitally empowered society and knowledge economy. It was launched on **2 July 2015** to ensure that government services are made available to citizens electronically by improving online infrastructure and by increasing internet connectivity or by making the country digitally empowered in the field of technology. It consists of three core components as follows

- The creation of digital infrastructure.
- Delivering services digitally.
- Digital literacy.

The focus is to bring transformation to realize: **"Digital India: Power To Empower."**

VISION OF DIGITAL INDIA

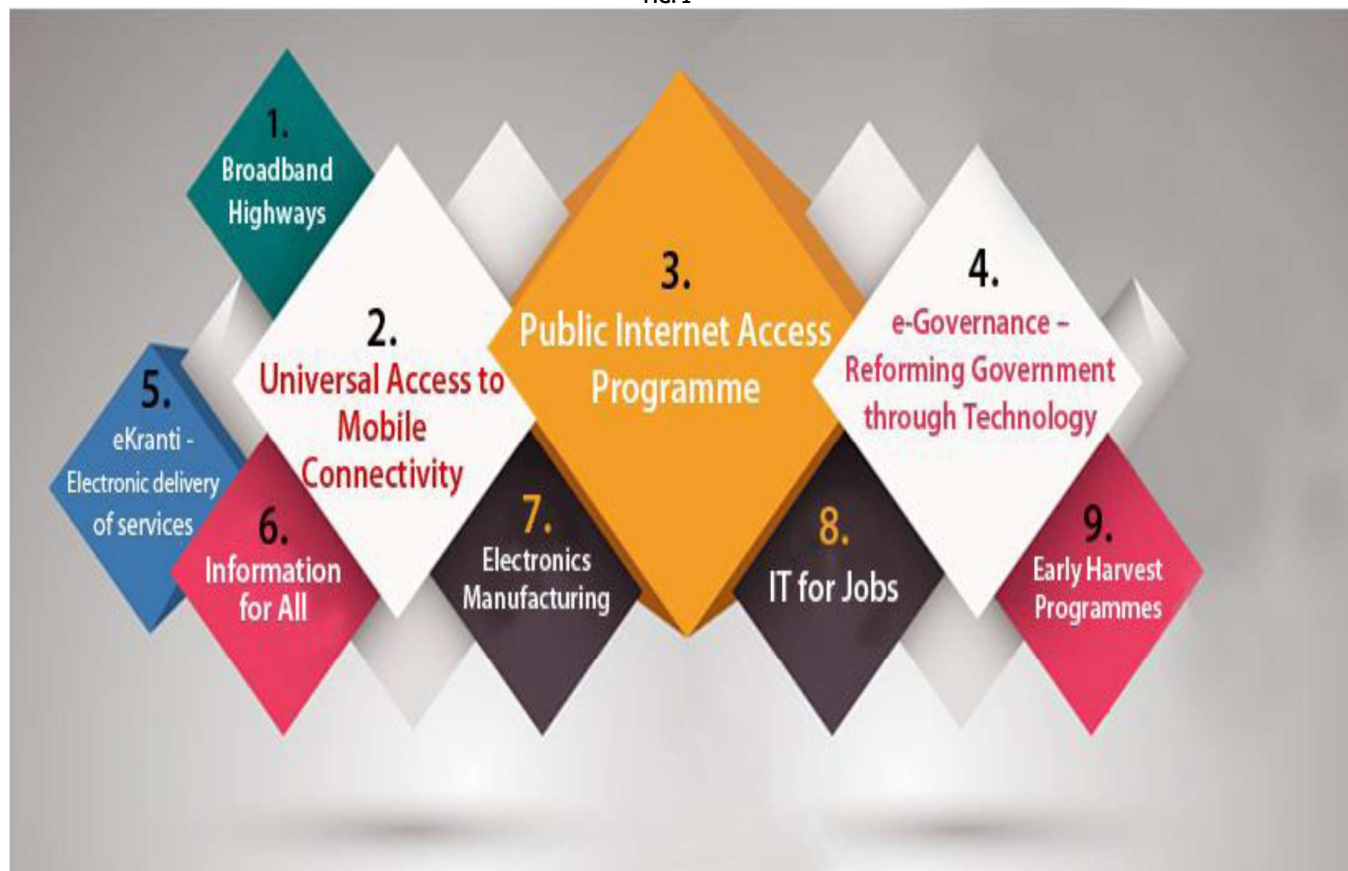

The vision of digital India is centred on three key areas. They are as follows:

- **Digital infrastructure as a utility to every citizen:** - Digital infrastructure as a utility which seeks to provide every citizen with high speed internet facility, a cradle to grave internet identity, mobile phone and bank account, access to common service centre, sharable private space on a public cloud and safe and secure cyberspace.
- **Governance and services on demand:** - Under this vision, every government services or information is available in real time from online & mobile platforms. It makes financial transactions electronic & cashless and provides single window access to every individual. Geographical Information Systems (GIS) will be integrated with the development schemes.
- **Digital empowerment of citizens:** - Empower citizens, especially rural citizens, by making them digitally literate. This will be done through collaborative digital platforms and by making available the digital resources in their native language with a view to making their participation a reality. It will help tap into the data that will be freely available on the cloud computing platform-independent of an intervention.

PILLARS OF DIGITAL INDIA

The government aims to target nine 'Pillars of Digital India' which are as follows:

FIG. 1

1. **Broadband Highways:** it contains
 - a) Broadband for all rural: it will cover 250,000GP and its expected time line is December 2016.
 - b) Broadband for urban: Virtual network operator for service delivery and mandate communication infrastructure on new urban development and build-ings.
 - c) National information infrastructure: this programme is integration of SWAN, NKN, and NOPN.
2. **Universal access to phones:** The government is taking steps to ensure that by 2018 all villages are covered through mobile connectivity. The aim is to increase network penetration and cover gaps in all 44,000 villages.
3. **Public internet access programme:** The government aims to provide internet services to 2.5 lakh villages which comprises of one in every panchayat by March 2017 and 1.5 lakh post offices in the next two years. These post offices will become Multi-Service centres for the people.
4. **E-governance reforming government through technology:** This pillar includes Government business process Re-engineering using IT to improve transaction and Electronic databases in which all data bases and information to be effective not manual.
5. **E-kranti electronic delivery of services:** E-Kranti will include technology for education, technology for health, technology for planning, technology for farmers, technology for security, technology for financial inclusion and technology for justice.
6. **Information for all:** it will include online hosting of information & document. Government pro-actively engages through social media and web based platform to inform citizens about MyGov.in and two way communications between citizens and government and online messaging to citizens on special occasions/ programmes.
7. **Electronic manufacturing target net zero import:** Under this pillar the focus areas are Fabs, Fab-less design, set-top boxes, Vsats, mobiles, consumers and medical, electronics, smart energy meters, smart cards, micro –ATM.
8. **It for jobs:** It will include train people in smaller towns and villages for IT sector jobs, train service delivery agents to run viable business delivery IT services, telecom service providers to train work force to cater to their own needs.
9. **Early harvest programmes:** IT platform for messages, Government greetings to be E-greetings and Biometric attendance. People will use the e-services for entertainment, weather information, latest updates etc.

OPPORTUNITIES OF DIGITAL INDIA

Though Digital India programme has faced many challenges in its implementation but it has some prospects which are mentioned below -

- a) It would bring in public accountability through mandated delivery of Government services electronically.
- b) Digital India programme will put an end to corruption system which becomes the main feature of the country.
- c) Digital India programme aims to reduce paper work which will help to save trees & protect environment.
- d) National scholarship portal, a project under Digital India, will put an end to scholarship process right from submission of student's application, verification, sanction and disbursal to end beneficiary for all scholarships provided by The Government of India.
- e) It benefits people of India in every village in terms of knowledge improve by using internet in day to day life.
- f) Each person will be having bank account.

The Digital India initiative is said to bring in a change on how the common man connects to the government, healthcare, education and employment opportunities. What this means is that the government is taking initiatives to promote universal access to mobile connectivity and reform governance through technology; all of

this while providing information for all and creating IT-related jobs. To give an idea, the government plans to create 400,000 public internet access points and create 17 million direct and an additional 85 million indirect jobs by 2019. To achieve the same, Government of India is also encouraging companies to manufacture their products in India. 'Manufacturing Electronics' is one of the nine pillars of Digital India. This is said to help bring down imports and boost local employment. Digisol too, with its 'Made In India' products, is doing its bit to contribute to the Digital India campaign. Going by the results of a recent FICCI-KPMG study, that hails India as the world's fastest growing smartphone market and predicts a rapid growth in digital media; these visions set by the government seem to be well within reach.

As per the World Bank report, a 10% increase in mobile and broadband penetration increases the per capita GDP by 0.81% and 1.38% respectively in developing countries.

"Today, connecting digitally is an absolute necessity and not an option anymore," states Ravi Gururaj, chairman, NASSCOM product council.

The digital business models are helping reach out to a wider audience, making the services affordable, easy and effective for the users. For example, entrepreneurial ventures such as BigBasket (grocery at home), Portea Medical (home healthcare), SuperProfs (online education), etc. are enabling inclusive growth by delivering high quality services to masses at low-cost.

CHALLENGES OF DIGITAL INDIA

Digital India is a great plan but its improper implementation due to inaccessibility & inflexibility to requisite can lead to its failure. There are few barriers of the Digital India programme which are as follows –

1. Each pillar has its own barriers.
2. Infrastructure deficit such as lack of towers, especially in the country side.
3. Implementing entities at the actual field.
4. Beneficiaries may not have adequate knowledge of DIP.
5. Auxiliary services such as health, education, banking, governance etc may not be well developed.
6. No separate entity for consumer redress under the program.

The hurdles, according to GSMA, include network infrastructure and policy; services and devices affordability; taxation; literacy and digital skills; and availability of local content. Today, data growth is happening globally but unfortunately, the quantum of bandwidth remains low in India. The existing telecom infrastructure is not adequate as many call drop scenarios and quality of services (QoS) issues surface everywhere in the country.

Consulting firm Deloitte, in its recent finding, also said that India being a spectral scarce country is at the cusp of data revolution and many of the existing network sites in dense urban areas are expected to exhaust their data capacity and consequently additional sites would be required. Out of nearly 4 billion unconnected people globally, 950 million individuals alone in India are yet to get access to Internet services today. The Indian leadership of the GSMA also feels that affordable telecom services in tandem with cost-effective devices would propel the government-led initiative to digitally empower people with citizen-centric online services. A global study by McKinsey and Facebook finds that India has one billion people without Internet access. The report, titled 'Offline and Falling Behind: Barriers to Internet Adoption' has constructed an 'Internet Barrier Index' assessing the obstacles to Internet access in 25 countries. India finished 20th on that list.

Even though the mobile data plans in India are among the cheapest in the world and the average retail price of smartphones are sharply declining, internet is out of reach of nearly 950 million Indians as even the cheapest of data plans are too expensive for a majority of the Indian population. Poor network coverage in villages adds to the already existing economic challenges.

The biggest challenge for the realization of Digital India campaign is the high level of cost involved. An approximate cost of implementing the initiative is 1.13 trillion (including ongoing and new schemes). It will also need the right leadership, commitment, and constant support of all government departments and people alike.

Prashant Singhal, Global Telecommunications Leader, EY, said, "Digital Bharat is the only growth engine which will have the potential to transform India into a knowledge led economy and society. It is thus imperative for us to overcome the current challenges and bridge the digital divide which would also act as a catalyst to the economic growth."

CONCLUSION

A well connected nation is a prerequisite to a well-served nation. Once the remotest of the Indian villagers are digitally connected through broadband and high speed internet, then delivery of electronic government services to every citizen, targeted social benefits, and financial inclusion can be achieved in reality. Like industry revolution of 18th century, green revolution of 20th century, we need digital revolution. Digitalisation is the need of the hour and this can be well defined in the words of our honourable Prime Minister – "The way we need highways; we need I-ways (information ways) for the digital empowerment of the country. Digitalisation is well planned programme, but still there are lots of hurdles in its execution. One such hurdle is cyber security, if India wants to top the world in digitalisation it has to do a lot of work on it.

REQUEST FOR FEEDBACK

Dear Readers

At the very outset, International Journal of Research in Commerce, IT & Management (IJRCM) acknowledges & appreciates your efforts in showing interest in our present issue under your kind perusal.

I would like to request you to supply your critical comments and suggestions about the material published in this issue, as well as on the journal as a whole, on our e-mail infoijrcm@gmail.com for further improvements in the interest of research.

If you have any queries, please feel free to contact us on our e-mail infoijrcm@gmail.com.

I am sure that your feedback and deliberations would make future issues better – a result of our joint effort.

Looking forward to an appropriate consideration.

With sincere regards

Thanking you profoundly

Academically yours

Sd/-
Co-ordinator

ABOUT THE JOURNAL

In this age of Commerce, Economics, Computer, I.T. & Management and cut throat competition, a group of intellectuals felt the need to have some platform, where young and budding managers and academicians could express their views and discuss the problems among their peers. This journal was conceived with this noble intention in view. This journal has been introduced to give an opportunity for expressing refined and innovative ideas in this field. It is our humble endeavour to provide a springboard to the upcoming specialists and give a chance to know about the latest in the sphere of research and knowledge. We have taken a small step and we hope that with the active co-operation of like-minded scholars, we shall be able to serve the society with our humble efforts.
